## Arthur C Clarke Lord Dunsany A Correspondence:

Arthur C. Clarke & Lord Dunsany Arthur Charles Clarke, 1998      *A Companion to Science Fiction* David Seed, 2008-04-15 *A Companion to Science Fiction* assembles essays by an international range of scholars which discuss the contexts, themes and methods used by science fiction writers. This Companion conveys the scale and variety of science fiction. Shows how science fiction has been used as a means of debating cultural issues. Essays by an international range of scholars discuss the contexts, themes and methods used by science fiction writers. Addresses general topics such as the history and origins of the genre, its engagement with science and gender, and national variations of science fiction around the English speaking world. Maps out connections between science fiction, television, the cinema, virtual reality, technology and other aspects of the culture. Includes a section focusing on major figures such as H. G. Wells, Arthur C. Clarke and Ursula Le Guin. Offers close readings of particular novels from Mary Shelley's *Frankenstein* to Margaret Atwood's *The Handmaid's Tale*.

Brave new words Jeff Prucher,      **Witch Daze** Patricia Della-Piana, 2010      *Lord Dunsany, H.P. Lovecraft, and Ray Bradbury* William F. Touponce, 2013-10-10 In his classic study *Supernatural Horror in Literature* H. P. Lovecraft discusses the emergence of what he called spectral literature, literature that involves the gothic themes of the supernatural found in the past but also considers modern society and humanity. Beyond indicating how authors of such works derived pleasure from a sense of cosmic atmosphere, Lovecraft did not elaborate on what he meant by the term spectral as a form of haunted literature concerned with modernity. In *Lord Dunsany, H. P. Lovecraft, and Ray Bradbury: Spectral Journeys* William F. Touponce examines what these three masters of weird fiction reveal about modernity and the condition of being modern in their tales. In this study Touponce confirms that these three authors viewed storytelling as a kind of journey into the spectral. Furthermore, he explains how each identifies modernity with capitalism in various ways and shows a concern with surpassing the limits of realism which they see as tied to the representation of bourgeois society. The collected writings of Lord Dunsany, H. P. Lovecraft, and Ray Bradbury span the length of the tumultuous twentieth century with hundreds of stories. By comparing these authors, Touponce also traces the development of supernatural fiction since the early 1900s. Reading about how these works were tied to various stages of capitalism, one can see the connection between supernatural literature and society. This study will appeal to fans of the three authors discussed here as well as to scholars and others interested in the connection between literature and society, criticism of supernatural fiction, the nature of storytelling, and the meaning and experience of modernity.      *Arthur C. Clarke* Gary Westfahl, 2018-06-14 Already renowned for his science fiction and scientific nonfiction, Arthur C. Clarke became the world's most famous science fiction writer after the success of 2001: A Space Odyssey. He then produced novels like *Rendezvous with Rama* and *The Fountains of Paradise* that many regard as his finest works. Gary Westfahl closely examines Clarke's remarkable career, ranging from his forgotten juvenilia to the passages he completed for a final novel, *The Last Theorem*. As Westfahl explains, Clarke's science fiction offered original perspectives on subjects like new

inventions space travel humanity's destiny alien encounters the undersea world and religion While not inclined to mysticism Clarke necessarily employed mystical language to describe the fantastic achievements of advanced aliens and future humans Westfahl also contradicts the common perception that Clarke's characters were bland and underdeveloped arguing that these reticent solitary individuals who avoid conventional relationships represent his most significant prediction of the future as they embody the increasingly common lifestyle of people in the twenty first century
