Beyond Legitimation:

Beyond Legitimation Donald Wiebe, 2016-01-01 The early essays in this volume proceed on the assumption that a compatibility system can be fashioned that will not only bring religious knowledge claims into harmony with scientific claims but will also show there to be a fundamental similarity of method in religious and scientific thinking They are not however unambiguously successful Consequently Professor Wiebe sets out in the succeeding essays to seek an understanding of the religion science relationship that does not assume they must be compatible That examination in the final analysis reveals a fundamental contradiction in the compatibility system building programme which more than suggests that religious belief knowledge is beyond legitimation

Beyond Service Greg McElligott, 2001-01-01 Greg McElligott traces neoconservative labour market policy from its international origins to the local offices of the Canadian state

Beyond Dogmatism, 2023-08-07 In Beyond Dogmatism Studies in Historical Sociology Andrea Borghini offers a general overview of the perspective of Historical Sociology through distinguished authors working in this field Each of the contributing chapters traverses the history of sociological thought in a rich and innovative way Through the analysis of authors such as Bourdieu Lukacs Chase Dunn Gramsci Polanyi Sombart Mann and topics such as the Critique of Capitalism the Fetishism of Commodities the Sociology of Concepts and various comparisons between Sociology and Political Science an enlightening panorama is composed The end result is to restore the extreme topicality and richness of an approach that is particularly valuable for describing and interpreting the dynamics of our age Contributors are Riccardo A Dello Buono Gerardo Pastore Domenico Maddaloni Cory Blad Enrico Campo Alfonso Maurizio Iacono Roberta Iannone Andrea Borghini Elena Gremigni Eleonora Piromalli Lorenzo Sabetta Carmelo Lombardo and Alfredo Ferrara

Beyond Sovietology Susan Gross Solomon, 2019-07-03 This volume a product of the Soviet Domestic Politics workshop sponsored by the Social Science Research Council marks an end and a new beginning The end of course is that of Sovietology now permanently overtaken by events The beginning encompasses not only a radical multiplication of subjects for analysis the post Soviet states but also the arrival of a new generation of scholars entering the field at its turning point As the essays in this collection demonstrate they bring fresh contemporary social scientific questions and methods to an unprecedentedly accessible universe of diverse social groups and societies once subsumed under the Soviet rubric Their work enriches not only post Soviet studies but the entire range of comparativist work in the social sciences Among the authors included here are Jane Dawson Ellen Hamilton Joel Hellman Mark Saroyan Joseph Schull and Michael Smith

Beyond hegemony Darrow Schechter, 2013-07-19 Since the Enlightenment liberal democrat governments in Europe and North America have been compelled to secure the legitimacy of their authority by constructing rational states whose rationality is based on modern forms of law The first serious challenge to liberal democratic practices of legal legitimacy comes in Marx's early writings on Rousseau and Hegel Marx discovers the limits of formal legal equality that does not address substantive relations of inequality in the workplace and in many other

spheres of social life *Beyond Hegemony* investigates the authoritarianism and breakdown of those state socialist governments in Russia and elsewhere which claim to put Marx's ideas on democracy and equality into practice The book explains that although many aspects of Marx's critique are still valid today his ideas need to be supplemented by the contributions to social theory made by Nietzsche Foucault the critical theory of the Frankfurt School as well as the libertarian socialism of G D H Cole What emerges is a new theory of political legitimacy which indicates how it is possible to move beyond liberal democracy whilst avoiding the authoritarian turn of state socialism Schecter points out the weaknesses of the many extra legal accounts of non formal legitimacy now on offer such as those based on friendship and identity He then argues that the first step beyond hegemony depends on the discovery of forms of legitimate legality and demonstrates why the conditions of legitimate law can be identified

Humanitarian Intervention and the Hermeneutics of Suspicion and Naïveté Dimitrios E. Akrivoulis, 2025-08-01 This book uses Paul Ricoeur's hermeneutic phenomenology of suspicion and naiveté to shift the focus of the ideology of humanitarian intervention from the distorting Marxism realism and legitimizing social constructivism to the integrating function of this ideology In this context the book examines the ideological functions of the social imaginary pursuant to NATO's 1999 intervention in Kosovo a turning point in the development of humanitarian intervention It will be of great interest to those researching in the fields of International Relations Political Theory and humanitarian intervention

Political Legitimacy beyond Weber Benno Netelenbos, 2016-08-20 Legitimacy is an essential concept in politics But what is it This book seeks to answer this question through adopting Weber's sociological approach to legitimacy Weber argues that we should not only understand legitimacy from the perspective of the political order but that we should also look at its subjective meaning If this approach seems to have fallen into discredit since Weber formulated it almost a century ago Netelenbos argues that we need to bring back the subjective into political sociology and theory *Political Legitimacy beyond Weber* argues that contemporary politics in late modern society cannot merely be understood in terms of legitimate domination or formal bureaucratic organisation Politics is also about strategic conflict coordination and argumentation Based upon these different conceptualisations of politics and by critically evaluating some of the most leading sociologies Netelenbos presents four analytical perspectives of political legitimacy Providing crucial insights into the multiple dimensions of political legitimacy this will be an essential tool for both empirical and normative research

Beyond Method Gareth Morgan, 1983-05 Research is often seen as a neutral technical process through which researchers simply reveal or discover knowledge A broader and more self reflective stance is advocated in *Beyond Method* one in which a knowledge of technique needs to be complemented by an appreciation of the nature of research as a distinctively human process through which researchers make knowledge Such an appreciation requires a reframing of understanding and debate about research in a way that goes beyond considerations of method alone

Beyond Quality in Early Childhood Education and Care Gunilla Dahlberg, Peter Moss, Alan Pence, 2005-06-23 First published in 1999 Routledge is an imprint of Taylor

Francis an informa company **Scientific Models for Religious Knowledge** Andrew Ralls Woodward,2018-08-14 Most comparisons of science and religion are really comparisons of science and Christianity or science and Islam and so forth In Scientific Models for Religious Knowledge the author aims to get outside typical polarized debates between traditional a priori theism and radical scientific naturalism Instead a new science and religion compatibility system between a scientific study of religion and a religious epistemology is our new elusive problem Moreover we shall look at a comparison and contrast of modern science with the simple deference of the human mind to the actions of culturally postulated superhuman agents This book pays critical attention to the contributions of scholars in the philosophy of religion the philosophy of science and the scientific study of religion Scientific Models for Religious Knowledge is useful for readers looking to expand their learning in the philosophies of science and religion as these subjects are taught and analyzed in modern research universities

Organization Studies and Posthumanism François-Xavier de Vaujany,Silvia Gherardi,Polyana Silva,2024-04-05 This book aims at exploring the reception of critical posthumanist conversations in the context of Management and Organization Studies It constitutes an invitation to de center the human subject and thus an invitation to the ongoing deconstruction of humanism The project is not to deny humans but to position them in relation to other nonhumans more than humans the non living world and all the missing masses from organizational inquiry What is under critique is humanism s anthropocentrism essentialism exceptionalism and speciesism in the context of the Anthropocene and the contemporary crisis the world experiences From climate change to the loss of sense at work to the new geopolitical crisis to the unknown effects of the diffusion of AI all these powerful forces have implications for organizations and organizing A re imagination of concepts theories and methods is needed in organization studies to cope with the challenge of a more than human world

Rethinking Europe Gerard Delanty,Chris Rumford,2005-09-15 Dominant approaches to the transformation of Europe ignore contemporary social theory interpretations of the nature and dynamics of social change Here Delanty and Rumford argue that we need a theory of society in order to understand Europeanization This book advances the case that Europeanization should be theorized in terms of globalization major social transformations that are not exclusively spear headed by the EU the wider context of the transformation of modernity This fascinating book broadens the terms of the debate on Europeanization conventionally limited to the supersession of the nation state by a supra national authority and the changes within member states consequent upon EU membership Demonstrating the relevance of social theory to contemporary issues and with a focus on European transformation rather than simplistic notions of Europe building this truly multidisciplinary volume will appeal to readers from a range of social science disciplines including sociology geography political science and European studies Narratives in East Asia and Beyond Elizaveta Priupolina,Tanja Daniela Eckstein,2023-05-30 In Narratives in East Asia and Beyond An Interdisciplinary Perspective on Using Narratives as a Research Method contributors from diverse fields jointly argue for the interdisciplinary appeal of using narratives as a

research method Scholars from the fields of philosophy of narrative ethnographic research linguistics political sciences international relations and area studies reflect on how to approach understand and utilize narratives to comprehend social structures and interactions The volume attempts to reflect on a range of questions including How can narrative studies broaden and deepen the scope of research in other fields What connections exist between narratives and identities individual and collective How does analyzing narratives help us better understand the dynamics of the policy change and the perceptions of self and other The essays range from reflections on the role of narrativity in cognitive processes interview settings and in constructing historical memories to the analysis of narrator and audience perspectives on the Chinese Belt and Road Initiative evaluations of roles and legitimation strategies as well as interpretations of documentary films The authors show the flexibility and fruitfulness of incorporating narratives into research agendas in a wide range of disciplines and highlight the theoretical and empirical research benefits that narrative studies open up

The Science of Religion: A Defence Donald Wiebe, 2018-10-16 Donald Wiebe Professor of Philosophy of Religion at Trinity College University of Toronto has spent much of his academic career arguing for a clear demarcation between Theology and Religious Studies The Science of Religion A Defence offers a brilliant overview of Professor Wiebe s contributions on methodology in the academic study of religion of the development of his thinking over time and of his intellectual commitment to a science of religion The work is divided into three parts The first part identifies pertinent connections between religion religious studies and science and why reductionism in the academic study of religion when properly applied can bridge the explanatory gap between the sceptic and the devotee The second part treats conceptual debates in the academic study of religion with particular reference to the place of belief understanding and meaning in the modern study of religion The third part addresses the theological resistance to the scientific study of religion and how that resistance can be overcome Finally two new essays are included a critique on The Preconceptions of a Science of Religion by Anthony J Palma and an accompanying reply by Donald Wiebe The Science of Religion A Defence is an essential resource for both scholarly and non scholarly audiences alike and will be of particular interest to both defenders and critics of a scientific study of religion

Big Fish, Little Fish Susan Groundwater-Smith, Nicole Mockler, 2015-05-27 This text prepares pre service teachers to best meet the needs of students

entering the challenging middle years of their education *Inside the Role of Dean* Renee T Clift, John Loughran, Geoffrey E Mills, Cheryl J Craig, 2015-03-02 Despite deans playing critical roles in education little is known about the knowledge skills and dispositions needed for the job or the practical dilemmas they face on an almost daily basis Each chapter of this international collection opens the role up for examination and critique developing a deeper understanding of what it means to be a dean and offering insights into the transition into the role managing the daily demands and expectations of it and what it means to exit the deanship The book brings being a dean and the leadership inherent in the position into sharp focus based on international perspectives on doing the job *Legitimation as Political Practice* Kathy Dodworth, 2022-05-19 A radical interdisciplinary reworking of legitimation using ethnographic insights to explore everyday non state authority in Tanzania **Philosophical Foundations of Criminal Law** R. A. Duff, Stuart Green, 2013-01-24 Twenty five leading contemporary theorists of criminal law tackle a range of foundational issues about the proper aims and structure of the criminal law in a liberal democracy The challenges facing criminal law are many There are crises of over criminalization and over imprisonment penal policy has become so politicized that it is difficult to find any clear consensus on what aims the criminal law can properly serve governments seeking to protect their citizens in the face of a range of perceived threats have pushed the outer limits of criminal law and blurred its boundaries To think clearly about the future of criminal law and its role in a liberal society foundational questions about its proper scope structure and operations must be re examined What kinds of conduct should be criminalized What are the principles of criminal responsibility How should offences and defences be defined The criminal process and the criminal trial need to be studied closely and the purposes and modes of punishment should be scrutinized Such a re examination must draw on the resources of various disciplines notably law political and moral philosophy criminology and history it must examine both the inner logic of criminal law and its place in a larger legal and political structure it must attend to the growing field of international criminal law it must consider how the criminal law can respond to the challenges of a changing world Topics covered in this volume include the question of criminalization and the proper scope of the criminal law the grounds of criminal responsibility the ways in which offences and defences should be defined the criminal process and its values criminal punishment the relationship between international criminal law and domestic criminal law Together the essays provide a picture of the exciting state of criminal law theory today and the basis for further research and debate in the coming years *The Politics of Migration in Modern Egypt* Gerasimos Tsourapas, 2019 Examines how authoritarian regimes employ labour emigration in order to remain in power both in Egypt and beyond
