**Building a Market** Richard Harris, 2020-03-04 A unique study of how the American Dream came to be and came to be constantly updated and renovated A pleasure to read American Historical Review Each year North Americans spend as much money fixing up their homes as they do buying new ones This obsession with improving our dwellings has given rise to a multibillion dollar industry that includes countless books magazines cable shows and home improvement stores Building a Market charts the rise of the home improvement industry in the United States and Canada from the end of World War I into the late 1950s Drawing on the insights of business social and urban historians and making use of a wide range of documentary sources Richard Harris shows how the middle class preference for home ownership first emerged in the 1920s and how manufacturers retailers and the federal government combined to establish the massive home improvement market and a pervasive culture of Do It Yourself Deeply insightful Building a Market is the carefully crafted history of the emergence and evolution of a home improvement revolution that changed not just American culture but the American landscape as well An important topic that deserves to be widely read by scholars of business history urban history and social history Journal of American History Better Homes and Gardens, 1974 Do it Yourself Carolyn M. Goldstein, 1998 Do It Yourself investigates the history behind the current do it yourself craze in homebuilding and home repair The origins of home improvement can be traced to the early part of the century when government loan programs placed home ownership within the reach of growing numbers of families mass circulation magazines began providing their readers with information about home remodeling and repair and increasing numbers of Americans turned to the manual arts and handicrafts as leisure time pursuits World War II provided many Americans with the skills and confidence to undertake home improvement projects on their own and after the war changes in the manufacturing and retail of tools and equipment created new possibilities for transforming one's home As home remodeling became a central feature of domestic life and consumer culture the do it yourself movement was born coming of age in the baby boomer 1950s and 1960s when Americans created suburban paradises and reclaimed decaying urban centers The text of Do It Yourself which investigates topics ranging from women's roles in home repair to historic preservation is a lively mix of illustrations including period photographs magazine spreads and advertisements and clearly written analysis of the trends behind these images **Better Homes and Gardens Complete Guide to Home Repair, Maintenance and Improvement** Better Homes and Gardens, 1994-04 **Better Homes and Gardens Home Improvement Ideas**, 1955 *Architecture, Building and Engineering* Deloris Lawrence, 1970 *Better homes and Gardens: Home Improvement Book*, 1977 Made from Scratch Jean Zimmerman, 2012-11-13 A stunning celebration and reappraisal of the importance of women's work Made from Scratch addresses the tug that many Americans feel between our professional and private lives In this stunning celebration and reappraisal of the importance of women's work acclaimed journalist Jean Zimmerman poignantly addresses the tug that many Americans of the twenty first

century feel between our professional and private lives With sharp wit and intelligence she offers evidence that in the current domestic vacuum we still long for a richer home life a paradox visible in the Martha Stewart phenomenon in the continuing popularity of women s service magazines such as Better Homes and Gardens Family Circle and Ladies Home Journal whose combined circulation of over 17 million is nearly twice the combined circulation of Time Newsweek and U S News World Report and the booming business of restorations where onlookers get a hands on view of domestic life as it flourished in past centuries This book is about the ways home traditions passed from one generation to the next baking a birthday cake from scratch cherishing family heirlooms or discovering the satisfaction of piecing a quilt sustain our souls especially in our ever more processed synthetic world where we buy homemade goods and fail to see the irony in that Made from Scratch tells the story of the unsung heroines of the hearth investigating the history of female domesticity and charting its cultural changes over centuries Zimmerman traces the lives of her own family s homemakers from her tiny but indomitable grandmother who managed a farm strangled chickens with her bare hands and sewed all the family clothing to her mother who rejected her country upbringing yet kept a fastidious suburban home where the gender divide stayed firmly in place to her own experiences as a wife and mother weaned on the Women s Movement of the 1970s with its emphatic view that housework was a dirty word and that the domestic sphere was to be fled rather than cherished In this book Zimmerman questions the unexamined trade off we have made in a shockingly brief time span as we ve progressed from home raised chickens to frozen TV dinners to McNuggets from the food court at the mall What is lost when we no longer engage as individuals and as a community in the ancient rituals of food craft and shelter
