Between Time And Terror:

Cities in a Time of Terror: Space, Territory, and Local Resilience H.V. Savitch, 2014-12-18 This book is about urban terror its meaning its ramifications and its impact on city life Written by a well known expert in the field Cities in a Time of Terror draws on data from more than a thousand cities across the globe and traces the evolution of urban terrorism between 1968 and 2006 It explains what kinds of cities have become prime targets why terrorism has become increasingly lethal and how its inspiration has changed from secular to religious The author describes urban terrorism as an attempt to use the city's own strength against itself forcing it to implode and delineates three basic logics of terrorist choices for targeting cities The book also includes a discussion of local resilience the city's capacity to bounce back from attack and suggests how that can be sustained Examples from New York London Jerusalem Istanbul Moscow Paris and Madrid illustrate the book's central themes

World Terrorism: An Encyclopedia of Political Violence from Ancient Times to the Post-9/11 Era James Ciment, 2015-03-10 First Published in 2015 This collection holds three volumes Terrorism is a term that defies easy definition and its meaning has also changed over the course of history Because this encyclopedia aims at comprehensiveness across time geography and the conceptual landscape it applies the broadest definition of terrorism the use of violence or the threat of violence to effect political change through fear in which the victims of the violence The encyclopedia is divided into six parts

Cultural Experiences of Fear, Horror and Terror Mark Callaghan, Kacey Davis, 2019-01-04 This volume was first published by Inter Disciplinary Press in 2016 This volume comprises numerous academic papers concerning essential subjects in relation to fear horror and terror from cinematic representations and their subsequent responses to first person accounts of terror by way of literature and journalism Key scholars are employed to develop these important research areas as they provide new insights into cultural experiences and evaluations of fear horror and terror and their consequent analysis Contributors also explore cross cultural fear the memorialisation of violence and female experiences of fear represented through literature theatre and cinema Valuable research is also demonstrated by way of the conceptualisation and management of fear including the control of public fear in relation to mental illness along with significant insights concerning depictions of sexual violence the concept of the sublime in relation to the visualisation of the universe and the relationship between scales of fright and the bulk of the on screen monster

The Invention of Terrorism in Europe, Russia, and the United States Carola Dietze, 2021-07-20 Terrorism's roots in Western Europe and the USA This book examines key cases of terrorist violence to show that the invention of terrorism was linked to the birth of modernity in Europe Russia and the United States rather than to Tsarist despotism in 19th century Russia or to Islam sects in Medieval Persia Combining a highly readable historical narrative with analysis of larger issues in social and political history the author argues that the dissemination of news about terrorist violence was at the core of a strategy that aimed for political impact on rulers as well as the general public Dietze's lucid account also reveals how the spread of knowledge about terrorist acts was from the

outset a transatlantic process Two incidents form the book's centerpiece The first is the failed attempt to assassinate French Emperor Napoleon III by Felice Orsini in 1858 in an act intended to achieve Italian unity and democracy The second case study offers a new reading of John Brown's raid on the arsenal at Harper's Ferry in 1859 as a decisive moment in the abolitionist struggle and occurrences leading to the American Civil War Three further examples from Germany Russia and the US are scrutinized to trace the development of the tactic by first imitators With their acts of violence the invention of terrorism was completed Terrorism has existed as a tactic since then and has essentially only been adapted through the use of new technologies and methods

Mapping Terrorism Research Magnus Ranstorp, 2006-11-22 Containing essays by an array of top international scholars this new book provides a comprehensive analytical critique of the current state of research in the terrorism and counterterrorism studies field what it has substantively achieved over the years and where it should be heading in the future Offering an overall examination of research achievements and gaps in scholarly efforts towards understanding terrorism as a complex behavioural and social phenomenon it also assesses various research approaches into counterterrorism studies clearly identifying a pathway for prioritized future research agendas in the field This future research agenda is further enhanced by the provision of an appendix containing 444 identified research topics developed by the United Nations Terrorism Prevention Branch Mapping Terrorism Research builds a cohesive interdisciplinary and high quality research agenda in terrorism and counterterrorism for future generations of academic students scholars as well as practitioners and will appeal to students of terrorism studies political science and international relations

The Prosecutor in Transnational Perspective Erik Luna, Marianne Wade, 2012-09-27 In this book Erik Luna and Marianne Wade examine the considerable powers of the American prosecutor and look abroad in order to learn valuable lessons from a transnational examination of prosecutorial authority They explore parallels and distinctions in the processes available to and decisions made by prosecutors in the United States and Europe Through the varied topics covered by the contributors on both sides of the Atlantic they demonstrate how the enhanced role of the prosecutor represents a crossroads for criminal justice with weighty legal and socio-economic consequences

21st Century Management: A Reference Handbook Charles Wankel, 2008 Ordered as part of a set on ID 7574134

Terror and Taboo Joseba Zulaika, William Douglass, 2016-04-22 Terror and Taboo is about the mythology of terrorism it is an exploration of the ways we talk about terrorism It offers incontestable evidence to support the idea that we give power to terrorism by the way we write and talk about it According to Zulaika and Douglass we make terrorism worse by the way we represent it in the media and in everyday conversation Through their examination of terrorism they propose to remove the taboos surrounding terrorism Terror and Taboo is full of examples to ground the authors' premise ranging from specific examples such as tendency to talk more about where Timothy McVeigh shopped for weapons than about the international traffic in arms by legitimate nations to more theoretical interpretations that will be familiar to readers of cultural studies books

Terrorism as a Challenge for National and

International Law: Security versus Liberty? Christian Walter, Silja Vöneky, Volker Röben, Frank Schorkopf, 2004-06-25 The events of 11 September 2001 have led to significant developments in international law with respect to combating terrorism by military and non military action The volume addresses the issues raised in a comprehensive manner It comprises country reports with analyses of the developments in a number of selected countries Based on these country reports the volume traces new developments in the definition of international terrorism deals with the issue of human rights protection under new anti terrorist legislation and examines the recent developments towards international military action against terrorism

Routledge Handbook of Naval Strategy and Security Joachim Krause, Sebastian Bruns, 2016-03-17 This new handbook provides a comprehensive overview of the issues facing naval strategy and security in the twenty first century Featuring contributions from some of the world s premier researchers and practitioners in the field of naval strategy and security this handbook covers naval security issues in diverse regions of the world from the Indian Ocean and the Mediterranean to the Arctic and the piracy prone waters off East Africa s coast It outlines major policy challenges arising from competing claims transnational organized crime and maritime terrorism and details national and alliance reactions to these problems While this volume provides detailed analyses on operational judicial and legislative consequences that contemporary maritime security threats pose it also places a specific emphasis on naval strategy With a public very much focused on the softer constabulary roles naval forces play such as humanitarian assistance disaster relief naval diplomacy maintenance of good order at sea the overarching hard power role of navies has been pushed into the background In fact navies and seapower have been notably absent from many recent academic discussions and deliberations of maritime security This handbook provides a much desired addition to the literature for researchers and analysts in the social sciences on the relationship between security policy and military means on land and from the sea It comprehensively explains the state of naval security in this maritime century and the role of naval forces in it This book will be of much interest to students of naval security and naval strategy security studies and IR as well as practitioners in the field

International Terrorism and World Security David Carlton, Carlo Schaerf, 2015-04-17 This book examines violence in international affairs Originally published in 1975 the two types of violence which the book focusses on are nuclear deterrence and international terrorism The broader perspective in which the ISODARCO discussions took place was the recognition of the need for a new kind of world order and the international contributors reflect a wide variety of ideological perspectives

Intersections of Crime and Terror James J.F. Forest, 2013-09-13 During the last ten years an increasing number of government and media reports scholarly books and journal articles and other publications have focused our attention on the expanded range of interactions between international organized crime and terrorist networks A majority of these interactions have been in the form of temporary organizational alliances or customer supplier relationships surrounding a specific type of transaction or resource exchange like document fraud or smuggling humans drugs or weapons across a particular border The environment in which terrorists and criminals operate is also a central theme of this literature These research trends suggest the salience of this book which addresses how organized criminal and terrorist networks collaborate share knowledge and learn from each other in ways that expand their operational capabilities The book contains broad conceptual pieces historical analyses and case studies that highlight different facets of the intersection between crime and terrorism These chapters collectively help us to identify and appreciate a variety of dynamics at the individual organizational and contextual levels These dynamics in turn inform a deeper understanding of the security threat posted by terrorists and criminal networks and how to respond more effectively This book was published as a special issue of Terrorism and Political Violence

Narodniki Women Margaret Maxwell, 1990

Women, War, Violence and Learning Shahrzad Mojab, 2013-09-13 This anthology provides fresh theorization of gendered dimensions of learning war and violence with a view to offering new insights on the impact of violence on women s learning and well being The collection is an important contribution to emerging interdisciplinary approaches to the role and effectiveness of civil society especially women s NGOs working in war and post conflict zones and to the relationship between neoliberal global feminist projects and the re emergence of colonial and imperial feminisms This collection is also an exploration of the plausibility of current peace education strategies augmenting the political and leadership role of women and their civic engagement This collection is designed to create a space for conversation across disciplines on such issues as how to advance our conceptualization of gender related education and conflict how to provide empirically based case studies and transnational analyses that improves our understanding of the impact of war and violence on women s learning and how to contribute to national and international policy analyses to improve education for women and girls through related policy reforms or humanitarian aid programs in post war reconstruction efforts This book was published as a special issue in the International Journal of Lifelong Education
