Beyond Sanity and Madness Dennis Genpo Merzel, 1994 *The Zen Impulse and the Psychoanalytic Encounter* Paul C. Cooper, 2011-04-27 Although psychoanalysis and Zen Buddhism derive from theoretical and philosophical assumptions worlds apart both experientially based traditions share at their heart a desire for the understanding development and growth of the human experience Paul Cooper utilizes detailed clinical vignettes to contextualize the implications of Zen Buddhism in the therapeutic setting to demonstrate how its practices and beliefs inform relate to and enhance transformative psychoanalytic practice The basic concepts of Zen such as the identity of the relative and the absolute and the foundational principles of emptiness and dependent arising are given special attention as they relate to the psychoanalytic concepts of the unconscious and its processes transference and countertransference formulations of self and more In addition through an analysis of apophysis a unique style of discourse that serves as a basic structure for mystical languages he provides insight into the structure of the seemingly irrational Zen koan in order to demonstrate its function as a pedagogical and psychological tool Though mindful of their differences Cooper's intent throughout is to illustrate how the practices of both Zen and psychoanalysis become internalized by the individual who engages in them and can in turn inform one another in mutually beneficial ways in an effort to comprehend the ramifications of an individual or collective expanding vision **Beyond Thinking** Dogen, 2004-04-27 Spiritual practice is not some kind of striving to produce enlightenment but an expression of the enlightenment already inherent in all things Such is the Zen teaching of Dogen Zenji 1200-1253 whose profound writings have been studied and revered for more than seven hundred years influencing practitioners far beyond his native Japan and the Soto school he is credited with founding In focusing on Dogen's most practical words of instruction and encouragement for Zen students this new collection highlights the timelessness of his teaching and shows it to be as applicable to anyone today as it was in the great teacher's own time Selections include Dogen's famous meditation instructions his advice on the practice of zazen or sitting meditation guidelines for community life and some of his most inspirational talks Also included are a bibliography and an extensive glossary *Treasury of the True Dharma Eye* Kazuaki Tanahashi, 2013-05-14 The complete English translation of one of the great Zen classics and works of Japanese literature by the founder of the Soto school now in a single volume *Treasury of the True Dharma Eye* Shobo Genzo in Japanese is a monumental work considered to be one of the profoundest expressions of Zen wisdom ever put on paper and also the most outstanding literary and philosophical work of Japan It is a collection of essays by Eihei Dogen 1200-1253 founder of Zen's Soto school Kazuaki Tanahashi and a team of translators that represent a Who's Who of American Zen have produced a translation of the great work that combines accuracy with a deep understanding of Dogen's voice and literary gifts This eBook includes a wealth of materials to aid understanding including maps lineage charts a bibliography and an exhaustive glossary of names and terms and as a bonus the most renowned of all Dogen's essays *Recommending Zazen to All People* **At Hell's Gate** Claude

The Book of Enlightened Masters Andrew Rawlinson, 1997 This is the definitive and complete book about a phenomenon which did not exist a hundred years ago but is now growing rapidly and dramatically changing Western culture the rise of Western mostly American teachers who fill the role of guru or master A few books have appeared on some narrow aspects of this astounding phenomenon this is the first book to survey the entire field Encyclopedic in its scope The Book of Enlightened Masters includes biographical essays on 140 spiritual teachers giving their life stories and an account of their teachings Yet it is also a user friendly introduction with a survey of the teachers and their teachings a historical narrative of how and when the movement developed and an evaluation of the issues raised by it A century ago there were no Western masters no Westerners who were for instance Hindu swamis Zen roshis or Sufi sheikhs Now there are many such teachers with millions of followers Starting from scratch the West has produced its own spiritual teachers in traditions that until recently were utterly alien And in the last quarter century a number of independent teachers have appeared who belong to no single identifiable tradition The Western masters have not merely transplanted the Eastern spiritual traditions to the West they have transformed these traditions by their distinctively Western approach innovative entrepreneurial and combining elements from previously unconnected Eastern traditions The new teachers are changing Western culture by making available a view of the human condition which is new in the West but very attractive to large and growing numbers of Westerners an approach Dr Rawlinson calls spiritual psychology Spiritual psychology holds that human beings are best understood in terms of consciousness and its modifications that consciousness can be changed by spiritual practice and that there are enlightened masters who have done this and can teach others
