Beyond The New Paternalism Basic Security As Equality:

Beyond the New Paternalism Guy Standing, 2002 Guy Standing argues for a complex egalitarianism in which basic income security is a right for all Work After Globalization Guy Standing, 2010-01-01 This is a scholarly and erudite work There is a wealth of detail all illustrated with plenty of fascinating examples It is impossible to give the full flavour of this thoughtful and stimulating book in even a long review but it deserves to be widely accessible and read Citizen s Income this is the greatest book ever about work in all its forms Work after Globalization offers us the kind of foundation we need to launch a new social democratic program do yourself a favour don t take my word for it You need to read this book for yourself If you re ever going to read a book about work make it this one Peter Hall Jones New Unionism Network This is an important book It shifts emphasis from the role of capital to the creativity of labour in the creation of value in the real economy A central role is accorded to each and all of the skills and occupations which contribute to the construction of an economy and a civic culture governed by the public interest Guy Standing has made an original contribution to the validation of human creativity in the economic process The work owes an acknowledged debt to the vision of Karl Polanyi Kari Polanyi Levitt McGill University Canada Standing has written a comprehensive account of what the forces and developments that govern the contemporary world such as states employers trade unions the globalization of labor markets financial market crises etc do to workers and the conditions under which they work and live It is rare for a social science work that is full of empirical information to be as accessibly written as this one It is even rarer to find all three of the things that good social science can deliver fine grained description original explanation sophisticated normative reflection in the pages of a single volume One of the richest accounts of the fates of labor since Polanyi 1944 Claus Offe Hertie School of Governance Germany In Work after Globalization Guy Standing one of the most knowledgeable and theoretically sophisticated scholars in the area of labor relations today paints a rich panorama of contemporary labor practices around the world to demonstrate that we are in the midst of a societal shift of historical dimensions Standing s concept of occupational citizenship provides a way to re capture both human agency and community thereby reconciling the individual with society and flexibility with new forms of social security This book is a tour de force for its sweeping scope incisive analysis and predictive power Katherine Stone University of California Los Angeles US In this ground breaking book Guy Standing offers a new perspective on work and citizenship rejecting the labourist orientation of the 20th century Karl Polanyi s The Great Transformation marked the rise of industrial citizenship which hinged on fictitious labour commodification Since the 1970s this has collapsed and a Global Transformation is under way in which inequalities and insecurities are becoming unsustainable Guy Standing explains that while a struggle against paternalism is essential the desirable egalitarian response to the problems caused by globalization is a strategy to build occupational citizenship This is based on a right to universal economic security and institutions to enable everybody to develop their capabilities and work whilst respecting the ecological imperatives of the 21st century The book

also explores a phasing out of labour law and a re orientation of collective bargaining towards collaborative bargaining highlighting the increased importance of the relationship between groups of workers and citizens as well as between workers and capital Work after Globalization offers a new perspective on work rejecting the labourist orientation of the 20th century Social scientists interested in globalization and labour market issues will warmly welcome this book It will also strongly appeal to students

Globalization and Social Change Diane Perrons, 2004-07-31 Globalization and Social Change takes a refreshing new perspective on globalization and widening social and spatial inequalities Diane Perrons draws on ideas about the new economy risk society welfare regimes and political economy to explain the growing social and spatial divisions characteristic of our increasingly divided world Combining original argument with a clear exposition of the underlying processes Perrons illustrates her points through a series of case studies linking people in rich and poor countries She places strong emphasis on the socio economic aspects of change particularly changes in working patterns and living arrangements and makes reference to the new global division of labour declining industrial regions and widening social divisions within what she terms superstar regions Wide in scope this new study also focuses on changing family structures the feminization of employment migration work life balance and new conceptions of gender identity and gender roles Diane Perrons enlightening book concludes that divisions by social class and gender are in some ways becoming more significant than divisions between nations and suggests that new systems of social and economic organization are necessary for social peace in the new millennium

A Basic Income Grant for South Africa Guy

Standing,Michael Samson,2003 This book provides a critical analysis of the feasibility and impact of a universal basic income grant for South Africans which has been discussed extensively in parliament and the media for the past two years The authors assess how comprehensive social security reform including a universal grant will impact on the severe inequality in the country and promote economic growth and employment Their research reveals that it is affordable and they argue that it would reduce the criminality that is associated with poverty and inequality The implications for women and children and for the black majority would be considerable At the Presidential Jobs Summit in 1998 COSATU negotiated an agreement with the government to investigate a universal social grant for all South Africans the Basic Income Grant Government policy makers civil society stakeholders and South African and international thinkers recognised the merit of addressing the problem of poverty directly and efficiently In March 2002 the South African government s Committee of Inquiry into Comprehensive Social Security completed its evaluation of policy options for addressing the severe levels of poverty afflicting the country Accepting the findings of research commissioned from the Economic Policy Research Institute the Committee s report stated that the Basic Income Grant has the potential more than any other possible social protection intervention to reduce poverty and promote human development and sustainable livelihoods This book provides an accessible collection of the current research on the issue with chapters by both proponents and critics of the Basic Income Grant Some of the issues discussed include How can the grant be financed In what ways will the grant promote job creation economic growth and social development And will the government demonstrate the political will to implement what is likely to be the single most effective policy for reducing poverty and eradicating destitution

Accumulation in Post-Colonial Capitalism Iman

Kumar Mitra,Ranabir Samaddar,Samita Sen,2016-07-29 This volume looks at how accumulation in postcolonial capitalism blurs the boundaries of space institutions forms financial regimes labour processes and economic segments on one hand and creates zones and corridors on the other It draws our attention to the peculiar but structurally necessary coexistence of both primitive and virtual modes of accumulation in the postcolony From these two major inquiries it develops a new

understanding of postcolonial capitalism The case studies in this volume discuss the production of urban spaces of capital extraction institutionalization of postcolonial finance capital gendering of work forms establishment of new forms of labour formation of and changes in caste and racial identities and networks and securitization and thereby confirm that no study of contemporary capitalism is complete without thoroughly addressing the postcolonial condition By challenging the established dualities between citizenship based civil society and welfare based political society exploring critically the question of colonial and postcolonial difference and foregrounding the material processes of accumulation against the culturalism of postcolonial studies this volume redefines postcolonial studies in South Asia and beyond It is invaluable reading for students and scholars of South Asian studies sociology cultural and critical anthropology critical and praxis studies and political science
