Eddic Skaldic and Beyond shines light on traditional divisions of Old Norse Icelandic poetry and awakens the reader to work that blurs these boundaries Many of the texts and topics taken up in these enlightening essays have been difficult to categorize and have consequently been overlooked or undervalued The boundaries between genres Eddic and Skaldic periods Viking Age medieval early modern or cultures Icelandic Scandinavian English Continental may not have been as sharp in the eyes and ears of contemporary authors and audiences as they are in our own When questions of classification are allowed to fade into the background at least temporarily the poetry can be appreciated on its own terms Some of the essays in this collection present new material while others challenge long held assumptions They reflect the idea that poetry with medieval characteristics continued to be produced in Iceland well past the fifteenth century and even beyond the Protestant Reformation in Iceland 1550 This superb volume rich in up to date scholarship makes little known material accessible to a wide audience *Wings of a Raven, 2028AD* Mike Koontz, 2017-08-09 2028AD is a real life inspired sci fi

universe stretching across several books and stand alone short stories depicting life on Earth and beyond as our wasteful life take the human species and planet Earth beyond the gates of man made Ragnarok While the Universe is large and the stories

go far beyond Earth and the mundane the first book tells a small and fairly short everyday life story about a few individual people and their contemporary life a decade or so from now as we follow their tiny little footprints of thoughts and love fear despair melancholy laughter and needs in that whirlwind of life in the Anthropocene which we too inhabit They had departed drifting through the high seas Ragnarok 5 was their designation but the wolfpack of ships was scattered and silence was all that remained from the outside world **Hunters Out of Space** Joseph E. Kelleam,2020-04-14 An interesting old school science fiction tale A page turner for the avid science fiction reader From the book Suddenly I became aware of a flickering light above me I looked up I had thought that the lights were winking but they were not The room was lit by a reading lamp and the ceiling was so shadowy that at first I could see nothing at all Then I saw the light or the ghost of a light gleaming faintly upon or through the ceiling It was the faintest yellow neither a bull s eye nor a splotch Instead it seemed to be a tiny whirlpool of movement the faintest nebula in miniature with spirals of light swiftly circling a central core For a second I thought I could see through the roof and the stars swarmed before me It was as though I was at the vortex of a high whirlwind of dancing shining specks of light Then that sensation was gone and there were two faint coiling spirals of yellow light upon the ceiling The lights began to whisper Goodreads **Kliatt Young Adult Paperback Book Guide** ,1996
