Beyond Secularism The Rights Of Religious Minorities:

Beyond Secularism Neera Chandhoke, 2002 This Book Exposes The Theoretical Shortcomings Of Secularism And Examines Its Relation To Normative Political Ideas Such As Democracy Equality And Rights *Beyond Secularism* Neera Chandhoke, 1999 This study explores how and why the concept of secularism has proved to be inadequate for dealing with the complex problems of Indian society Confronting Secularism in Europe and India Brian Black, Gavin Hyman, Graham M. Smith, 2014-06-19 Can secularism continue to provide a foundation for political legitimacy It is often claimed that one of the cultural achievements of the West has been its establishment of secular democracy wherein religious belief is respected but confined to the sphere of private belief In more recent times however political secularism has been increasingly called into question Religious believers in numerous traditions have protested against the distortion and confinement that secularism imposes on their faith Others have become uneasily aware of the way in which secularism no longer commands universal assent in the way it once did *Confronting Secularism in Europe and India* adds to this debate by staging a creative encounter between European and Indian conceptions of secularism with a view to continuing new and distinctive trajectories of thought about the place and role of secularism in contemporary times Looking at political secularism the relationship between secularism and religion and religious and secular violence this book considers whether there are viable alternatives to secularism in Europe and in India Beyond the Secular Andrea Cassatella, 2023-09-01 Through an in depth critical analysis of Jacques Derrida's later writings *Beyond the Secular* examines the contemporary nexus between religion and politics Reconnecting these writings to his early works Andrea Cassatella explores distinctive topics that are thematically linked by the theological political problematic and theoretically informed by Derrida's relational approach to language time religion and politics The result is a critical investigation into under examined assumptions of modern secular discourse that questions its binary logics and illuminates such discourse's exclusionary character by tracing its roots in racialized understandings about language epistemology politics and religion that travel worldwide through global processes of assimilatory translation By exposing the discriminatory hierarchies that the Western Christian sexualized and racialized presuppositions of secular discourse keep producing and maintaining Cassatella ultimately sheds light on the deep entanglements of secularism with the legacy of race and colonialism Secularism, Islam and Education in India, 1830-1910 Robert Ivermsee, 2015-10-06 During the nineteenth century British officials in India decided that the education system should be exclusively secular Drawing on sources from public and private archives Ivermsee presents a study of British Muslim negotiations over the secularization of colonial Indian education and on the changing nature of secularism across space and time **Indian Secularism and Religious Freedom** Aruthuckal Varughese John, 2024-11-07 The book intricately examines secularity in India presenting it as a complex tapestry of social struggles which introduces assumptions not shared by traditional Hindu culture These cross pressures influence both societal and legal realms affecting how

secularism is implemented The work suggests that these pressures originate from the doctrines that shape India's social fabric and culture It investigates whether secularism inherently assumes specific theological or cultural doctrines thus affecting its cultural manifestation By focusing on the intersection of religious freedom with human rights and legislation concerning the contentious issue of religious conversions the book delves into these complexities The Ghent school attempts to address these tensions by advocating for a Hindu interpretation of religious freedom However acknowledging the truth claims of all religious beliefs offers a better approach to mediating between the constitution and Hindu tradition Additionally it highlights how Christian converts have developed adaptive mechanisms that blend their faith with traditional Hindu culture This synthesis of beliefs and practices or hybrid lifestyles may provide a potential path forward reflecting a response to the experienced cross pressures

Indian Secularism Shabnum Tejani, 2021-01-05 Many of the central issues in modern Indian politics have long been understood in terms of an opposition between ideologies of secularism and communalism Observers have argued that recent Hindu nationalism is the symptom of a crisis of Indian secularism and have blamed this on a resurgence of religion or communalism Shabnum Tejani unpacks prevailing assumptions about the meaning of secularism in contemporary politics focusing on India but with many points of comparison elsewhere in the world She questions the simple dichotomy between secularism and communalism that has been used in scholarly study and political discourse Tracing the social political and intellectual genealogies of the concepts of secularism and communalism from the late nineteenth century until the ratification of the Indian constitution in 1950 she shows how secularism came to be bound up with ideas about nationalism and national identity

predicament for the fledgling nation state of post colonial India This book compares and contrasts Muslim and Sikh communities in pre and post Partition India Mapping the evolving discourse on minority rights the author looks at the overlaps between the Constitutional and the majoritarian discourse being articulated in the public sphere and poses questions about the guaranteeing of minority rights The book suggests that through historical ruptures and breaks communities oscillate between being minorities and nations Combining archival material with ethnographic fieldwork it studies the identity groups and their vexed relationship to the ideas of nation and nationalism It captures meanings attributed to otherwise politically loaded concepts such as nation nation state and minority rights in the everyday world of Muslims and Sikhs and thus tries to make sense of the patterns of accommodation adaptation and contestation in the life world Successfully confronting and illuminating the challenge of reconciling representation and equality both for groups and within groups this exploration of South Asian nationalisms and communal relations will be of interest to academics in the field of South Asian Studies in particular Sociology and Politics

Knowledge and Human Liberation Ananta Kumar Giri, 2014-11-01. Human liberation has become an epochal challenge in today's world requiring not only emancipation from oppressive structures but also from the oppressive self. It is a multidimensional struggle and aspiration in which knowledge, self, social, and spiritual can play a transformative role. *Knowledge and Human Liberation: Towards Planetary Realizations* undertakes such a journey of transformation and seeks to rethink knowledge vis-à-vis the familiar themes of human interest, critical theory, enlightenment, ethnography, democracy, pluralism, rationality, secularism, and cosmopolitanism. The volume also features a Foreword by John Clammer, United Nations University, Tokyo, and an Afterword by Fred Dallmayr, University of Notre Dame.

Multiculturalism in the British Commonwealth Richard T. Ashcroft, Mark Bevir, 2019-07-12. At publication date, a free ebook version of this title will be available through Luminos, University of California Press's Open Access publishing program. Visit www.luminosoa.org to learn more. Multiculturalism as a distinct form of liberal democratic governance gained widespread acceptance after World War II, but in recent years this consensus has been fractured. *Multiculturalism in the British Commonwealth* examines cultural diversity across the postwar Commonwealth, situating modern multiculturalism in its national, international, and historical contexts. Bringing together practitioners from across the humanities and social sciences to explore the legal, political, and philosophical issues involved, these essays address common questions: What is postwar multiculturalism? Why did it come about? How have social actors responded to it? In addition to chapters on Australia, Britain, Canada, and New Zealand, this volume also covers India, Malaysia, Nigeria, Singapore, and Trinidad, tracing the historical roots of contemporary dilemmas back to the intertwined legacies of imperialism and liberalism. In so doing, it demonstrates that multiculturalism has implications that stretch far beyond its current formulations in public and academic discourse.
