Beyond The Down Low:

Structural Intimacies Sonja Mackenzie, 2013-06-06 One of the most relevant social problems in contemporary American life is the continuing HIV epidemic in the Black population With vivid ethnographic detail this book brings together scholarship on the structural dimensions of the AIDS epidemic and the social construction of sexuality to assert that shifting forms of sexual stories structural intimacies are emerging produced by the meeting of intimate lives and social structural patterns These stories render such inequalities as racism poverty gender power disparities sexual stigma and discrimination as central not just to the dramatic disproportionate spread of HIV in Black communities in the United States but to the formation of Black sexualities Sonja Mackenzie elegantly argues that structural vulnerability is felt quite literally in the blood in the possibilities and constraints on sexual lives and in the rhetorics of their telling The circulation of structural intimacies in daily life and in the political domain reflects possibilities for seeking what Mackenzie calls intimate justice at the nexus of cultural economic political and moral spheres Structural Intimacies presents a compelling case in an era of deepening medicalization of HIV AIDS public health must move beyond individual level interventions to community level health equity frames and policy changes

the hype with the first responsible eye opening look at the down low sensation Unlike all previous accounts on the topic Beyond the Down Low refreshingly presents the DL not merely as a problem of gay and bisexual men living in the shadows and endangering women but more broadly as a telling example of the African American community's overall failure to engage in critical but uncomfortable conversations about sexuality Boykin details how the virtual silence from black leaders on sex matters has helped to create an environment where gay and bisexual men feel compelled to lead double lives Meanwhile the dialogue that has occurred both inside and out of African American circles encourages an unhealthy battle of the sexes ignores the complexities of the closet demonizes homosexuality and bisexuality disempowers women from personal responsibility to protect themselves from STDs and misdirects public resources and attention at vilifying down low men
