Bertram Chandler, 2015-11-26 A journey to the Rim Worlds takes you straight to the edge of the unknown or right to the gaping void of the abyss Out there you're beyond the borders hovering between the warped contours of troubled space and time Captain Clavering bought his ship on a lottery win Now he's holed up on the dismal planet of Lorn filling in the time on a chemical blasted airstrip waiting for a contract Somewhere there must be a newly colonized planet needing charters or some threatened world that needs evacuating He'd risk anything for money in the bank even a dodgy landing on the gas blasted plains of Eblis if the Rim Runners fancy paying hard cash for an expedition to hell **Galactic Patrol** E. E. Smith, 2022-10-13 Galactic Patrol is a science fiction novel by American author E. E. Stellar Engineering Greg Matloff,C Bangs,2019-04-01 In terms of the scale of the galaxy both in space and time we humans are new comers. Though we are newly on the scene we are already thinking about how to create large structures in space. Recently analysis of data from one of the stars in the Kepler data set has led to speculation regarding huge artificial structures called Stapledon Dyson Spheres constructed by advanced extraterrestrial civilizations. The NASA Kepler space observatory has been observing light curves of about 100 000 stars in the constellations of Cygnus and Lyre. This star popularly dubbed Tabby's Star after the first name of the astronomer leading one of the data reduction teams shows intriguing periodic dips in its luminosity. Stellar Engineering starts by considering terrestrial organisms and early humans who have constructed on their scale megastructures and continues with a history of the development of the stellar engineering concept. Kepler data on the subject star is reviewed as is observational data on other possible Stapledon Dyson Sphere candidates. Possible applications of such enormous constructs are discussed as well as the intriguing speculation that we might live in a Stapledon Dyson swarm of alien space habitats within our Solar System's Kuiper Belt. The chapter frontispiece art illuminates the ideas presented
