Beyond The Power Mystique Power As Intersubjective Accomplishment:

Beyond the Power Mystique Robert C. Prus, 1999-01-01 Locating power within the symbolic interactionist framework this book permeates much of the mystique shrouding power and examines the ways in which notions of power control influence and the like are brought into human existence **Tourism, Power And Space** Andrew Church, Tim Coles, 2007

This is the first volume to explicitly consider how leisure and tourism acts as a major focus by which power may be understood in a geographical context Key thinking and major approaches to unravelling the complexities of power are outlined in this collection and their relevance to current and future tourism studies is discussed **Tourism Power and Space** blends theoretical perspectives from leading power theorists such as Parsons Foucault and Clegg Exploring the intricacies of the relationships between power tourism and leisure this stimulating volume combines theoretical and empirical writings to illustrate the extent to which power in its various forms and guises and at various scales of operation impacts on the unfolding structures practices and organization of tourism and leisure on both the demand and supply sides Divided into three sections Power Performance And Practice Power Property And Resources and Power Governance And Empowerment this text will be a useful resource for students and academics alike **History, Time, Meaning, and**

Memory, 2011-07-12 It can be said that history is poor sociology that does not account sufficiently for present social circumstances while sociology is bad history in that it does not go back in time This volume in the Religion and Social Order series sets out to address these conjoint problems of history and sociology within the disciplinary boundaries of the sociology of religion History has such a fickle nature that it has seen religion hold varied and different places within the timeline of sociological thought Religion had a high level of importance among the early founders of sociology A perceived decline of significance for religion by sociology in the latter half of the twentieth century mirrored the changing social location of religion The increase in world fundamentalisms religious movements private spiritualities and other indicators in the millennial age have brought a renaissance to this longstanding subdiscipline and shown that religion is far from extinction Contributors include Nachman Ben Yehuda Peter Beyer Kevin J Christiano Jonathan Eastwood Elijah Obinna Pen Hsuan Lin Rick Moore Robert Prus John H Simpson and William H Swatos Jr University Corporate Social Responsibility and

University Governance Deborah C. Poff, 2022-05-03 This book provides new and original research on the purpose and functions of universities from the perspective of corporate social responsibility It addresses professional ethics questions that relate to universities as corporate citizens Divided into two sections the book starts out with an examination of the concept of universities It explores the differences between historic and contemporary universities the history and nature of university governance the role of higher education and the problem of domination and subjugation in a management context The second section looks at the faculty the students and the role of spirituality in the university and research It examines such themes as the nature of faculty and professors faculty as change agents diversity inclusivity and incivility academic integrity

citizenship of students and ethical responsibility of researchers The book calls on the expertise from both the fields of business and professional ethics and university management and leadership It approaches the subject from an interdisciplinary perspective Radical Interactionism on the Rise Lonnie Athens, Norman K. Denzin, 2013-10-28 This issue of the Blue Ribbon Papers is must reading for anyone wishing to remain up to date on the latest breaking developments in interactionism which could potentially change forever both the history of this venerated American school of thought and in turn American sociological theory *Doing Ethnography* Charlene Elizabeth Miall, Dorothy Pawluch, William Shaffir, 2005 Doing Ethnography is an essential text for courses in ethnography research methods qualitative emphasis applied sociology and related subjects across Canada This unique volume first considers the merits of qualitative research profiles interviewing strategies and discusses the relationships to respondents and how to write about social life The second portion of Doing Ethnography contains three sections constructing perspectives constructing identities as well as doing and relating Case studies and original research are featured throughout The editors Dorothy Pawluch William Shaffir and Charlene Miall emphasize the importance of studying social interaction In truth any question about society big or small is ultimately about people interacting with each other Whether the issue is changing gender relationships corporate deeds and misdeeds class structures or the school performance of children from cultural minorities it all comes down to one thing people doing things together Studies in Symbolic Interaction Norman K. Denzin, 2008-07-25 Emphasizes critical approaches to the study of race identity and self as well as developments in interactionist theory ethics and dramaturical studies **Routledge**

over such issues as young models in sexually suggestive ads and intimate relationships between teachers and students speak to one of the most controversial fears of our time the entanglement of children and sexuality In this book Steven Angelides confronts that fear exploring how emotional vocabularies of anxiety shame and even contempt not only dominate discussions of youth sexuality but also allow adults to avoid acknowledging the sexual agency of young people Introducing case studies and trends from Australia the United Kingdom and North America he challenges assumptions on a variety of topics including sex education age of consent laws and sexting Angelides contends that an unwillingness to recognize children s sexual agency results not in the protection of young people but in their marginalization *The Oxford Handbook of Symbolic Interactionism* Wayne H. Brekhus, Thomas DeGloma, William Ryan Force, 2023-12-22 The Oxford Handbook of Symbolic Interactionism features a diverse array of cutting edge scholarship in symbolic interactionism SI The scholars featured in this volume present new and evolving outlooks on foundational SI themes including the self and identity the interactive construction of meaning classical pragmatism interactionist research methods performance culture and subcultures cognition emotion organizations and institutions and social constructionism **The Present and Future of Symbolic Interactionism** Andrea Salvini, Joseph A. of discourse as of discrimination and of unequal power relations as of bigotry This multi dimensionality of racism complicates the challenge of formulating anti racism and anti colonialist strategies capable of addressing it Employing a critical framework that puts politics and power at the centre of analysis this book focuses on why racisms proliferate how they work in contemporary societies and how the way we think and talk about racism changes over time Specifically it examines the working of contemporary racisms in a multicultural Canada that claims to abide by principles of multiculturalism and a commitment to a post racial society Oppression and Resistance Gil Richard Musolf,2017-09-07 Theoretical and ethnographical approaches examine symbolic interactionism s ability to deploy the concepts of structure and agency in sociological explanation It illuminates the dialectic of oppression and resistance in everyday life illustrating that actors make meaning through resistance **Blue Ribbon Papers** Norman K.
