Amar,2018-11-27 Drawing upon the timeless wisdom of the Bhagavad Gītā a philosophical spiritual world classic this professional book highlights the spiritual and moral dimensions of management using an inside out leadership development approach It interprets the Bhagavad Gītā's teachings on the personality types and psychological makeup of managers and employees self knowledge and self mastery and the leadership concepts of vision motivation and empowerment This book covers topics such as training of the mind ethical

leadership communication stress management and corporate social responsibility CSR Collectively the enclosed contributions provide managers with an enhanced outlook on management functions such as leading planning organizing and controlling in today's organizations particularly those run by knowledge workers Management research in the 20th century has mainly focused on the industrial paradigm characterized by a hierarchical structure of authority and responsibility with an individualistic focus on the personality of the manager However this traditional paradigm cannot solve many of the problems that confront leaders and managers today Recent studies have shown that values traditionally associated with spirituality such as integrity honesty trust kindness caring fairness and humility have a demonstrable effect on managerial effectiveness and success Although traditionally interpreted as a religious spiritual text the Bhagavad Gītā teaches these values which can be extrapolated and applied to practical management lessons in today's corporate boardrooms Applying the text of the Bhagavad Gītā to the context of management this book views the manager as an enlightened sage who operates from a higher stance guided by self knowledge and self mastery It demonstrates how character is the key ingredient for effective management and leadership This book is therefore applicable to all managers from first line to CEOs in their management and leadership roles in organizations

Library, 1969 **Hindus** Julius Lipner, 2012-10-02 Julius Lipner's *Hindus* is widely recognised as essential reading for everyone wishing to understand one of the world's great religious traditions. Hinduism comprises the religion and culture of the great majority of the people of India, a country tipped to become a world superpower politically, economically and culturally in the course of the present century. The vast array of diverse beliefs and practices usually described as Hindu has been notoriously difficult to corral under a single regulating theme. Julius Lipner provides not only a wide-ranging introduction to Hindu religious and cultural diversity but also suggests a way to characterize Hinduism as a distinct tradition that has survived and adapted to changing circumstances from ancient times to the present day. Lipner is a recognised authority on Hinduism's polycentric emphasis and his book is based on a lifetime of research and personal experience of his subject. In this thoroughly revised and substantially enlarged second edition, students of Hinduism will find more coverage of the debate about Hindu origins, the nature and practice of Hindu worship, the role of women, the scope of dharma and morality, Hindu philosophical thought and the use of reason, and the way caste functions.

An Epic and Puranic Bibliography (up to 1985) Annotated and with Indexes Heinrich von Stietencron, Peter Flamm, 1992 **Midlife Transformation in Literature and Film** Steven F. Walker, 2012-03-12 In this book, Steven F. Walker considers the midlife transition from a Jungian and Eriksonian perspective by providing vivid and powerful literary and cinematic examples that illustrate the psychological theories in a clear and entertaining way. For C. G. Jung, midlife is a time for personal transformation when the values of youth are replaced by a different set of values and when the need to succeed in the world gives place to the desire to participate more in the culture of one's age and to further its development in all kinds of different ways. Erik Erikson saw generativity, an expanded concern for others beyond one's immediate circle of family and friends, as the hallmark of this stage of life. Both psychologists saw it as a time for growth and renewal. Literary texts such as Virginia Woolf's *Mrs Dalloway*, Shakespeare's *Antony and Cleopatra*, or Sophocles' *Oedipus the King*, and films such as Fellini's *8 1/2* and *Campion's The Piano* have the capacity to represent sometimes more vividly and with greater dramatic concentration than actual life histories or case studies the archetypal nature of the drama and in-depth transformation associated with the midlife transition. *Midlife Transformation in Literature and Film* focuses on the specific male and female archetypal paradigms and presents them within the general context of midlife transformation. For men, the theme of death of the young hero presides over the crisis and the transformative ordeal; whereas for women, the theme of tragic abandonment acts as the prelude to further growth and independence. This book is essential reading for anyone studying Jung, Erikson, or the midlife transition. It will interest those who have already been through a midlife transition, those who are in the midst of one, as well as those who are yet to experience this challenging period.
