Allied Commanders Of World War II:

Allied Commanders of World War II Anthony Kemp, 1990-01-25 The Second World War unlike the First fostered the projection of characters Thanks to the media many of the Allied commanders became household names known as much for their successes and defeats on the battlefield as for their personalities This book provides a brief review of the careers of some of the most notable figures to achieve high command in the Allied forces a list that includes General of the Army Omar Bradley Field Marshal Sir Bernard Montgomery General George Patton and General of the Army Dwight D Eisenhower These characters are brought to life through numerous illustrations including photographs and colour plates Supreme Allied Commanders of World War II Charles River Charles River Editors, 2018-02 Weaves the lives and careers of both generals into one entertaining and educational narrative Includes MacArthur's most colorful and inspiring quotes including his famous Victory Broadcast and Farewell Address to Congress Includes pictures of Eisenhower MacArthur and other important people places and events Discusses the careers and relationship between both generals Explains their roles in the Atlantic and Pacific particularly the Philippines and D Day Includes a Bibliography for further reading There is no substitute for victory Douglas MacArthur Dwight Eisenhower and Douglas MacArthur were the two most famous generals in the United States during World War II Having risen the ranks via mostly administrative jobs between the two World Wars the two men worked together in the Philippines during the 1930s only to go their separate ways and earn eternal fame as Supreme Allied Commanders in the Atlantic and Pacific Theaters A career military man Ike was too young to serve in combat during World War I but he began a long and productive career collaborating with future military legends George Patton and Douglas MacArthur while serving some of the nation's other famous generals including George Marshall and John J Pershing Amazingly he had never served in anything but administrative positions before World War II By 1942 Eisenhower was given the role of appointed Supreme Commander Allied Expeditionary Force in North Africa and after his success there Eisenhower oversaw the invasion of Sicily in 1943 which at the time had been the largest amphibious invasion in history In both campaigns he had the fortune of commanding George Patton With those successes President Roosevelt picked Eisenhower to be the Supreme Allied Commander of the Allied Expeditionary Force leaving him in charge of Operation Overlord and the defining moment of his military career D Day By the time he died in 1969 President Nixon aptly described Eisenhower as the world's most admired and respected man truly the first citizen of the world Of all the military men America produced during the 19th and 20th centuries it's hard to find one as important successful and controversial as General Douglas MacArthur The son of a Civil War veteran MacArthur rose to become the most instrumental commander in the Pacific Theater during World War II His legendary return to the Philippines in 1944 made good on one of the war's most famous vows and it was MacArthur who fittingly oversaw the occupation and reconstruction of Japan following the war Given his long and celebrated career MacArthur was the obvious choice to lead the newly created United Nations troops

during the Korean War but his arguments over war strategy and policy eventually led to his controversial firing by President Harry Truman in 1951. After that, in his own words, he faded away, living out his remaining days on the top floor of the Waldorf Hotel until his death in 1964. For many with a conservative disposition, he remains a hero who had he been listened to, would have prevented the current impasse with the rogue state that is modern North Korea. For some liberal thinkers, he was dangerously obsessive while wholly ignorant of geopolitics, and he has been branded as a general who would have used atomic weapons and potentially triggered the third world war.

Supreme Allied Commanders of World War II: the Lives and Legacies of Dwight D. Eisenhower and Douglas MacArthur Charles River Charles River Editors, 2013-10-15

Weaves the lives and careers of both generals into one entertaining and educational narrative. Includes MacArthur's most colorful and inspiring quotes, including his famous Victory Broadcast and Farewell Address to Congress. Includes pictures of Eisenhower, MacArthur, and other important people, places, and events. Discusses the careers and relationship between both generals. Explains their roles in the Atlantic and Pacific, particularly the Philippines and D Day. Includes a Bibliography for further reading.

There is no substitute for victory. Douglas MacArthur Dwight Eisenhower and Douglas MacArthur were the two most famous generals in the United States during World War II. Having risen the ranks via mostly administrative jobs between the two World Wars, the two men worked together in the Philippines during the 1930s, only to go their separate ways and earn eternal fame as Supreme Allied Commanders in the Atlantic and Pacific Theaters. A career military man, Ike was too young to serve in combat during World War I, but he began a long and productive career collaborating with future military legends George Patton and Douglas MacArthur while serving some of the nation's other famous generals, including George Marshall and John J. Pershing. Amazingly, he had never served in anything but administrative positions before World War II. By 1942, Eisenhower was given the role of appointed Supreme Commander Allied Expeditionary Force in North Africa, and after his success there, Eisenhower oversaw the invasion of Sicily in 1943, which at the time had been the largest amphibious invasion in history. In both campaigns, he had the fortune of commanding George Patton. With those successes, President Roosevelt picked Eisenhower to be the Supreme Allied Commander of the Allied Expeditionary Force, leaving him in charge of Operation Overlord and the defining moment of his military career, D Day. By the time he died in 1969, President Nixon aptly described Eisenhower as the world's most admired and respected man, truly the first citizen of the world. Of all the military men America produced during the 19th and 20th centuries, it's hard to find one as important, successful, and controversial as General Douglas MacArthur. The son of a Civil War veteran, MacArthur rose to become the most instrumental commander in the Pacific Theater during World War II. His legendary return to the Philippines in 1944 made good on one of the war's most famous vows, and it was MacArthur who fittingly oversaw the occupation and reconstruction of Japan following the war. Given his long and celebrated career, MacArthur was the obvious

choice to lead the newly created United Nations troops during the Korean War but his arguments over war strategy and policy eventually led to his controversial firing by President Harry Truman in 1951 After that in his own words he faded away living out his remaining days on the top floor of the Waldorf Hotel until his death in 1964 For many with a conservative disposition he remains a hero who had he been listened to would have prevented the current impasse with the rogue state that is modern North Korea For some liberal thinkers he was dangerously obsessive while wholly ignorant of geopolitics and he has been branded as a general who would have used atomic weapons and potentially triggered the third world war

Coles, Albert K. Weinberg,1986 A documentary history with brief narrative introductions illustrating the evolution of civil affairs policy and practice in the Mediterranean and European theaters Most important of all in World War II soldiers became governors in a much broader sense than ever before so much more than was foreseen that the Army s specialized training proved scant preparation for perhaps the most important phase of their role They became not merely the administrators of civilian life for the Army s immediate needs but at the same time the executors and at times even by force of circumstances the proposers of national and international political policy This broader role arose from the fact that in World War II the Allies strove to realize from the very beginning of occupation political aims that had usually not been implemented during war or if during war at all not until active hostilities had ended Thus in enemy countries civil affairs officials were immediately to extirpate totalitarian governmental and economic systems in liberated countries they were as soon as possible to aid in restoring indigenous systems and authorities and in both types of countries they were to make an all out effort to effect gradual transition toward the envisaged postwar national and international order **United States Army in World War II** United States. Military History, Office of the Chief of,1964 **United States Army in World War II.: The Mediterranean theater of operations** United States. Dept. of the Army. Office of Military History,1947 Allied Commanders of World War 2 ,1990 United States Army in World War II.: The Mediterranean theater of operations Ernest F. Fisher,1977 **Wartime Triumphs** Pasquale De Marco,2025-05-19 General Mark Clark was a complex and controversial figure who played a significant role in World War II and the Cold War This biography tells the story of Clark s life and career from his humble beginnings in Arkansas to his rise to become one of the most important American military leaders of the 20th century Clark was a brilliant strategist and a skilled tactician He commanded the Fifth

Army in the Italian Campaign where he led his troops to victory in several key battles including the Battle of Anzio and the Battle of Monte Cassino. He also played a key role in the planning and execution of Operation Overlord, the Allied invasion of Normandy. After the war, Clark served as the commander of the United Nations Command in Korea. He also served as the United States Ambassador to Italy. Clark retired from the Army in 1954 and died in 1984. Clark's legacy is a mixed one. He was a brilliant military leader who made significant contributions to the Allied victory in World War II. However, he was also a controversial figure who was often criticized for his ambition and his abrasive personality. Nevertheless, he remains one of the most important American military leaders of the 20th century. This biography of Clark is based on extensive research, including interviews with Clark's family, friends, and colleagues. It provides a comprehensive and nuanced portrait of a complex and fascinating man. This book is essential reading for anyone interested in World War II, the Cold War, or American military history. The Oxford Companion to American Military History,

The Allied Defense of the Malay Barrier, 1941-1942 Tom Womack, 2015-12-15. Though few realize it, the Netherlands East Indies were the object of Japan's attack on Pearl Harbor in December 1941. Likewise, their invasions of Guam, Wake Island, and the Philippines were mainly diversionary operations to safeguard their main assault on Dutch and British colonies. Since the end of World War I, Japan had coveted the vast East Indies oil reserves, and the colony had feared invasion since Germany overran Holland in May 1940. Isolated politically, the weakly defended archipelago was a tempting prize. The East Indies government initially maintained a strict policy of neutrality while desperately working to build up its military strength. As Japanese actions pushed the region toward war, the Dutch reluctantly embraced closer ties with America and Britain. For a brief period, the East Indies were key players in Pacific War strategy. This book details for the first time in English the Dutch prewar strategy, their efforts to counter Japanese espionage, and their sizable though largely forgotten military contribution in the early months of the Pacific War.

Warmaking and American Democracy Michael David Pearlman, 1999. While war is most effectively waged as a united effort, the United States has consistently waged military conflict without firm central direction. Throughout our history, observes Michael Pearlman, the waging of war has been subject to continuous bargaining and compromise among competing governments and military factions. What passes for strategy emerged from this process.
