Elizabeth the First Wife Lian Dolan,2013-04-26 Elizabeth Lancaster an English professor at Pasadena City College finds her perfectly dull but perfectly orchestrated life upended one summer by three men her movie star ex husband a charming political operative and William Shakespeare Until now she d been content living in the shadow of her high profile and highly accomplished family Then her college boyfriend and one time husband of seventeen

months A list action star FX Fahey shows up with a job offer that she can't resist and Elizabeth's life suddenly gets a whole lot more interesting She's off to the Oregon Shakespeare Festival for the summer to make sure FX doesn't humiliate himself in an avant garde production of A Midsummer Night's Dream As she did so skillfully with her first novel Helen of Pasadena which spent more than a year on the Los Angeles Times bestseller list Lian Dolan spins a lively smart and very funny tale of a woman reinventing her life in unexpected ways Lian Dolan is also the co author of The Satellite Sisters Uncommon Senses As part of the Satellite Sisters Lian and her four sisters found national acclaim first on NPR then on ABC Radio and XM Satellite Radio She also creates the popular podcast and blog Chaos Chronicles

Liquidity Lost Paul Langley, 2015 The interventions of crisis management during the 2007 to 2011 financial crisis were not simply responses to a set of given developments in markets banking or neo liberal capitalism Nor can those interventions be adequately explained as the actions of sovereign state officials and institutions Instead Langley argues processes of crisis governance are shown to have established six principal technical problems to be acted upon liquidity toxicity solvency risk regulation and debt and that the governance of these technical problems is shown to have been strategically assembled in order to secure the continuation of a particular financialized way of life that depends upon global financial circulations Contributing to interdisciplinary debates in cultural economy and the social studies of finance and grounded in extensive empirical research this book offers an innovative analysis of how the contemporary global financial crisis was governed Through an exploration of the interventions made by central banks treasuries and regulatory authorities in the Anglo American heartland of the crisis between 2007 and 2011 experimental and strategic apparatuses of crisis governance are shown to have emerged These discrete apparatuses established the six technical problems to be acted upon but also shared certain proclivities and preferences Crisis governance assembled discourses and devices of economy in relation with sovereign monetary fiscal and regulatory techniques and elicited an affective atmosphere of confidence It also sought to secure the financialized way of life which turns on the opportunities ostensibly afforded by uncertain financial circulations and gave rise to post crisis technical fixes designed to advance the resilience of banking and the macro prudential regulation of financial stability Thus the consensus that prevails across economics political economy and beyond wherein sovereign state institutions are cast as coming to the rescue of the markets banking or neo liberal capitalism conceals a great deal more than it reveals about the governance of the global financial crisis

THE SEER Elizabeth Marx, 2012-03-12 Fairy tales aren't supposed to be deadly but anything can happen on Halloween night in Salem even a human sacrifice When a supernatural beast murders a sixteen year old girl her soul is reawakened as an OtherWorldly being Now as the Seer she is destined to serve the Order even as she craves retribution Invisible isolated and confused she rejects her calling and seeks solace in the one thing she believes is real her connection to Locke only he can't see her or feel her presence Determined to find some way to warn Locke of the danger he's in the Seer sets out to discover the truth behind the clandestine Order Unfortunately those who are like her fear her and only

one acknowledges her existence Tristan a Guardian sentenced to defend the Order at all costs Soon Tristan discovers something sinister something that cannot only destroy the Seer but every witch in the Order To protect the one she loves and regain the life she lost the Seer must join forces with Tristan and save the thing responsible for taking her away from the world to which she desperately wants to return **Transmedia Storytelling** Jennifer Camden, Kate Faber

Oestreich, 2018-12-14 This volume charts the evolution of Pemberley Digital's transmedia adaptations of nineteenth century novels in order to interrogate the uneasy relationship between transmedia storytelling and consumer culture It first examines two Austen centered films *Lost in Austen* and *Austenland* that present immersive Austen experiences that anticipate Pemberley Digital's transmedia adaptations bridging traditional film adaptations and transmedia's participatory culture Subsequent chapters turn to Pemberley Digital's transmedia adaptations of Austen's and Shelley's novels to argue that although such adaptations may appear feminist in their emphasis on female protagonists their larger narratives expose a subtext of anxiety about unstable gender roles financial vulnerability and the undervaluation of career specific skill sets both for the characters and the production company itself The study provides a robust theoretical framework within which to read transmedia adaptations of classic literature illuminating both the potential of and the challenges facing digital and transmedia storytellers and participants *Teaching about Religions* Emile Lester, 2013-04-16

A Distant Technology J. P. Telotte, 1999 Science fiction films celebrate and critique the impact of a burgeoning technology on the world's cultural political and social milieu The Machine Age roughly delineated by the two decades between World Wars was a watershed period during which modern society entered into an ambiguous embrace with technology that continues today J P Telotte carefully blends film technology cultural and genre studies to illuminate this nearly forgotten era in our cinematic history and to show through analysis of classics like The Invisible Ray Metropolis and Things to Come how technology played a major role as motif actor and producer What he also discovers as he ranges among the American British Russian French and German science fiction cinema as well as mainstream films figures and cultural products such as the New York World's Fair is a fundamental ambivalence embedded in the films themselves about the very machine age ethos they promoted Even as advances in the technical apparatus of filmmaking elevated it from mere entertainment to a medium of general communication and genuine artistic expression Machine Age science fiction films remained curiously distant from and often skeptical of the very machines on which their narratives focus The resulting tensions Telotte writes thus seem to intersect with those implicit in a Western world that was struggling with its own transition into the modern rendering the films task inevitably paradoxical and difficult **American English Idiomatic**
