The Passionate Bride Alan Davey, Elizabeth Davey, 2019-03-25 St Paul s Letter to the Ephesians is a bold declaration of love We were in the ruminations of Abba before the stardust formed into galaxies and the earth coalesced into its present shape Indeed Abba s dream for his people already existed in those primordial days Today we have the opportunity to wake up and embrace his dream with enthusiasm and intentionality As members of his church individually and collectively we want to embrace God s desire for a dynamic people infused with his passionate love The church as the bride of Christ is a powerful metaphor engaging the apostle as he writes his letter Paul s passion becomes ours as we meditate on his words which evoke spiritual desire It is in this relationship of love that the central purpose of our lives is found As we gratefully receive Christ s amity and as his bride returns it so the entire earth is enflamed with the fires of his love At the same time we recognize it is a mystery this love between Abba and his church When we receive and reflect Christ s overtures of love as a community of faith a synergy is created and released through the interconnectedness of our gifts talents and zeal The church contains the spiritual energy of a nuclear explosion and when it detonates it releases a fallout of love mercy and compassion bringing healing to the world and drawing others to the divine presence

Joanna M. Kain (Jones), Murray T. Brown, Marc Lahaye, 2012-12-06 International Seaweed Symposia have been held at three year intervals for nearly 50 years In the early days they formed the only international forum for marine phycologists and although there are now frequent phycological meetings their value has not diminished both because of the increased commercial importance of seaweeds and because of the unique mix of disciplines that the meetings attract Industrialists interact with chemists and biologists with the common aim of understanding seaweeds The main development during the last few decades has been an increase in the cultivation of algae as natural stocks of the useful species become depleted Of the first ten Symposia nine were held in western countries where seaweed cultivation is almost non existent It is appropriate that the last two have been held where algal exploitation is relatively big business The popularity of the Symposia with scientists has meant that the standard of presentation has always been high Many participants from the countries with the highest economic involvement with seaweeds frequently publish in their own languages so their contributions give considerable additional interest to the Proceedings The Philippines with its extensive coastline much of which supports seaweed exploitation and cultivation was an excellent venue for the latest Symposium The papers presented in this volume reflect the

continuing world wide interest in marine algae and range from results using cutting edge laboratory techniques to simple but important field observations Red Leaves and the Living Token - Book 1 - Part 3 Benjamin David Burrell, 2012 Doctors tell Raj that his son Emret won't survive his illness As Raj struggles to prepare himself and Emret for the inevitable he's confronted by Moslin his son's nurse who's been filling Emret's head with fairytales about heroic quests and powerful disease curing miracles Emret now thinks that all he has to do is find the mythical Red Tree from the nurse's stories and he'll live In an attempt to protect his son from further emotional damage Raj asks Moslin to stay away from Emret He returns hours later to find them both missing He searches the fairytales for clues to where they may have gone and stumbles upon stories that strangely he already knows He saw them in a vision just before his son disappeared
