Alterity And Transcendence:

Alterity and Transcendence Emmanuel Lévinas, 1999 This first English translation of a series of twelve essays offers a unique glimpse of Levinas defining his own place in the history of philosophy In today's world where religious conceptions of exalted higher powers are constantly called into question by theoretical investigation and by the powerful influence of science and technology on our understanding of the universe has the notion of transcendence been stripped of its significance In Levinas's incisive model transcendence is indeed alive not in any notion of our relationship to a mysterious sacred realm but in the idea of our worldly subjective relationships to others

The Ethics of Emmanuel Levinas Diane Perpich, 2008 This work offers a new interpretation of what Levinas means when he says that we are infinitely responsible to the other person

Transcendence and Beyond John D. Caputo, Michael J. Scanlon, 2007 A benchmark volume at the intersection of philosophy and religion

Feminist Interpretations of Emmanuel Levinas Tina Chanter, 2010-11 This volume of essays all but one previously unpublished investigates the question of Levinas's relationship to feminist thought Levinas known as the philosopher of the Other was famously portrayed by Simone de Beauvoir as a patriarchal thinker who denigrated women by viewing them as the paradigmatic Other Reconsideration of the validity of this interpretation of Levinas and exploration of what more positively can be derived from his thought for feminism are two of this volume's primary aims Levinas breaks with Heidegger's phenomenology by understanding the ethical relation to the Other the face to face as exceeding the language of ontology The ethical orientation of Levinas's philosophy assumes a subject who lives in a world of enjoyment a world that is made accessible through the dwelling The feminine presence presides over this dwelling and the feminine face represents the first welcome How is this feminine face to be understood Does it provide a model for the infinite obligation to the Other or is it a proto ethical relation The essays in this volume investigate this dilemma Contributors are Alison Ainley Diane Brody Catherine Chalier Luce Irigaray Claire Katz Kelly Oliver Diane Perpich Stella Sandford Sonya Sikka and Ewa Ziarek

Levinas's Rhetorical Demand Ronald C. Arnett, 2017-03-15 This book provides an introduction to the importance of Levinas's work and an explication of the manner in which the practicality of his insights can assist ethical judgment within the human community

Csordas, 2009 This innovative collection examines the transnational movements effects and transformations of religion in the contemporary world offering a fresh perspective on the interrelation between globalization and religion Taken as a whole Transnational Transcendence challenges some widely accepted ideas about this relationship in particular that international contemporary religious manifestations are secondary to the primary economic phenomenon of globalization P 4 of cover

Intentionality and Transcendence Damian Byers, 2002 Damian Byers analyzes the form Husserl gives to the problem of knowledge the way this form influences the development of the phenomenological method and the results of its application In a very clear fashion Byers presents Husserl's understanding of the roles of intentionality idealism temporalization and kinesthesia in the constitution of knowledge Drawing upon all of Husserl's major texts he corrects many misapprehensions about Husserl's doctrines of intentionality and idealism Byers argues that Husserl's transcendental phenomenology is both a philosophy of closure and control and a philosophy of openness and vulnerability

Music and Transcendence Ferdia J. Stone-Davis, 2016-03-03 Music and Transcendence explores the ways in which music relates to transcendence by bringing together the disciplines of musicology philosophy and theology thereby uncovering congruencies between them that have often been obscured Music has the capacity to take one outside of oneself and place one in relation to that which is other This other can be conceived in an absolute sense insofar as music can be thought to place the self in relation to a divine other beyond the human frame of existence However the other can equally well be conceived in an immanent or secular sense as music is a human activity that relates to other cultural practices Music here places the self in

relation to other people and to the world more generally shaping how the world is understood without any reference to a God or gods The book examines how music has not only played a significant role in many philosophical and theological accounts of the nature of existence and the self but also provides a valuable resource for the creation of meaning on a day to day basis

Reconstructing a Christian Theology of Nature Revd Dr Anna Case-Winters,2013-05-28 In the present ecological crisis it is imperative that human beings reconsider their place within nature and find new more responsible and sustainable ways of living Assumptions about the nature of God the world and the human being shape our thinking and consequently our acting Some have charged that the Christian tradition has been more a hindrance than a help because its theology of nature has unwittingly legitimated the exploitation of nature This book takes the current criticism of Christian tradition to heart and invites a reconsideration of the problematic elements its desacralization of nature its preoccupation with the human being to the neglect of the rest of nature its dualisms and elevation of the spiritual over material reality and its habit of ignoring or resisting scientific understandings of the natural world Anna Case Winters argues that Christian tradition has a more viable theology of nature to offer She takes a look at some particulars in Christian tradition as a way to illustrate the undeniable problems and to uncover the untapped possibilities In the process she engages conversation partners that have been sharply critical and particularly insightful feminist theology process thought and the religion and science dialogue The criticisms and insights of these partners help to shape a proposal for a reconstructed theology of nature that can more effectively fund our struggle for the fate of the earth

Light Against Darkness Armin Lange, Eric M. Meyers, Randall Styers,2010-11-17 *Light Against Darkness* is comprised of articles that put on display the power and pervasiveness of dualistic thought Dualism has proved a potent cultural tool for clarifying and ordering reality Particularly in times of social stress and psychological insecurity it can offer a valuable conceptual grid that provides orientation to the world and a clear sense of identity At the same time though there are important questions to be asked about the social effects of binary thinking As history amply illustrates dualistic notions can readily be deployed to legitimate cultural demonization and to rationalize violence At a deeper level a dualist worldview can also obscure the possibilities to be found in multiplicity The articles in this volume treat Dualism across a wide historical spectrum and from multiple methodological perspectives The studies are organized around the religious and cultural contexts of Ancient Judaism and they include contributions from leading voices on ancient Persia Israel Greece and Egypt Experts on modern religious and philosophical thought not only lend context to concepts applied to the ancient world but engage recent European and American experiments in binary thought All of the studies contribute to a richer and more complete portrait of dualism in ancient Judaism

Merleau-Ponty, Interiority and Exteriority, Psychic Life and the World Dorothea Olkowski, James Morley,1999-09-09 Explores Merleau Ponty s approach of taking the phenomenon of the body out of the dualistic constraints of interior and exterior and the consequences thereof

God as Otherwise Than Being Calvin O. Schrag, 2002 Speaking as one of the founders of American Continental philosophy Calvin O Schrag offers an exceptionally clear balanced and informative discussion of a complex questions vexing postmodern currents of philosophical and theological reflection Does the death of the god conceived as a highest being in Western and especially modern traditions open a new space within which to rethink God in terms of a gift or giving that would stand beyond the usual spate of metaphysical categories Schrag draws with grace ease and precision upon the history of Western metaphysics from Plato and Aristotle through Nietzsche and Heidegger Most important to his central question of God as otherwise than Being however are such influential post Heideggerian thinkers as Jean Luc Marion Jacques Derrida and Emmanuel Levinas Schrag's inquiry engages these thinkers at a serious level and also expands recent discussions by relating them to the work of figures hitherto overlooked or underplayed most notably Paul Tillich
