Alternatives In Education Critical Pedagogy For Disaffected Youth Paperback:

Alternatives in Education Greg S. Goodman, 1999 Using critical theory as a foundation Alternatives in Education posits psychology's role in educating at risk youth as the number one ingredient for student success To reach and teach disaffected youth the best psychological practices must be wedded to modern multicultural perspectives Alternatives in Education brings free choice and opportunity to a milieu of students and teachers alienated by competitive and hegemonic school models Blending critical theory into the actual stories of the Wonalancet Alternative School Alternatives in Education speaks to practicing educators of at risk youth

Pedagogy of Humanization Chelda Smith Kondo, 2024-03-30 The purpose of Pedagogy of Humanization Preparing Teachers for Culturally Sustaining Classrooms is to build a critical mass of educators who know how to employ the principles of critical pedagogy in elementary classrooms This includes attention to the various knowledge skills and dispositions required of critical pedagogues in their curricula instruction assessment classroom environment and relationships From Critical Race Theory CRT to restorative justice oriented classroom management the theoretical is made practical Moreover the structure of the book follows the curriculum of a traditional teacher education program making it complementary to any teacher education course The Pedagogy of Humanization is the first book to bring together the practice how and theory what and why of inclusive and asset based teaching In this book a group of teacher educators across disciplines explore their personal and professional identities to reveal the potential for applying each tenet of culturally relevant pedagogy in their respective fields Filled with anecdotes exercises user friendly theories and examples readers will learn how teachers can humanize themselves to have the capacity to be effective teachers of children who have been dehumanized and underserved by traditional teaching and schooling Pre service teachers will read this book so that they can connect the material they study in teacher education courses to the daily work of being an educator who aims to be justice oriented However this is not a foolproof guide or how to manual that could be completed without direct support from mentors and colleagues Instead readers will practice the sort of engagement in individual and community growth that ignites the possibility of teaching as a force for social change In many ways chapters of the text could be used through a flipped classroom approach whereby faculty invert the typical cycle of content acquisition and application The book will prove to be a valuable resource as a teaching text in classrooms devoted to critical pedagogy Critical Race Theory social justice and other topics necessary to produce teachers who are prepared to maximize their effectiveness in educating today's students

Bringing Criminological Theory to Life Emily Turner, Rose Broad, Caroline Miles, Shadd Maruna, 2025-08-14 Taking a unique approach to bring the theories of desistance and of development criminology to life the chapters in this book are framed around a single individual's life story which have inspired rigorous evidence based and scholarly chapters on key issues in criminology
