Foucault, Crime and Power Christian Borch, 2014-11-13 This book presents a Foucauldian problematisation analysis of crime with a particular focus on the twentieth century It considers how crime has been conceived as problem and by scrutinising the responses that have been adapted to deal with crime demonstrates how a range of power modalities have evolved throughout the twentieth century Christian Borch shows how the tendency of criminologists to focus on either disciplinary power or governmentality has neglected the broader complex of Foucault's concerns ignoring its historical underpinnings whilst for the most part limiting studies to only very recent developments without giving sufficient attention to their historical backdrop The book uses developments in Denmark developments that can be readily identified in most other western countries as a paradigmatic case for understanding how crime has been problematised in the West Thus Foucault Crime and Power Problematisations of Crime in the Twentieth Century demonstrates that a Foucauldian approach to crime holds greater analytical potentials for criminological research than have so far been recognized

Cutting the Edge Jeffrey Ian Ross, 2011-12-31 Understanding crime criminals and criminal justice from a radical critical perspective is indispensable in today's academic applied research and policy sectors Neglect of this approach leads to narrow mindedness and the probability of repeating past mistakes or reinventing the wheel Cutting the Edge by Jeffrey Ian Ross will encourage individuals and organizations especially students and instructors to innovatively identify ways of experimenting with new policy initiatives designed to improve not only criminal justice but social and human justice as well Ross has significantly changed this volume to include six new chapters and three revised ones as well The studies chosen demonstrate the difference between critical criminology and other approaches used to study and explain criminological phenomena The authors do not approach the inequalities of the criminal justice system as phenomena that

should be studied but as wrongs that must be righted Cutting edge critical criminology combines concerns about fairness in punishment tools of class analysis and the insights of feminism postmodernism and ethnography The authors included here wield these newer tools with elegance and enthusiasm Written with passion by experts in the field the book engages the mind as fully as it engages the emotions
