Altiero Spinelli:

The Legacy of Altiero Spinelli Mario Albertini, Altiero Spinelli, 2006

Politische Theorien der Europäischen Integration Andreas Grimm, Cord Jakobeit, 2009-08-31 Trotz einiger Rückschlüsse besteht weiterhin ein großes Interesse an der wissenschaftlichen Erfassung und Erklärung des europäischen Integrationsprozesses. Man kann auf eine Vielzahl von Theorien zurückgreifen, die grundlegend für das Verständnis der europäischen Einigung sind und auf die neuere Ansätze immer wieder Bezug nehmen. Dieser Band enthält bedeutende politikwissenschaftliche Primärtexte, die eingehend erläutert und didaktisch aufbereitet sind. Neben den Klassikern Föderalismus, Neofunktionalismus, Transaktionalismus und Intergouvernementalismus werden auch neuere Ansätze wie dialektischer Neofunktionalismus, Fusionsthese und Europäische Mehrebenenpolitik thematisiert. Dieses Text- und Lehrbuch ist sowohl für die seminarbegleitende Lektüre als auch für das Selbststudium sowie als Nachschlagewerk gleichermaßen geeignet.

The Ashgate Research Companion to Federalism Ann Ward, 2016-04-01 This comprehensive research companion examines the theory, practice and historical development of the principle of federalism from the ancient period to the contemporary world. It provides a range of interpretations and integrates theoretical and practical aspects of federalism studies more fully than is usually the case. The volume identifies and examines nascent conceptions of the federal idea in ancient and medieval history and political thought before considering the roots of modern federalism in the ideas of a number of important European political theorists of the sixteenth through eighteenth centuries. The contributors focus on the development and institutionalization of the principle of federalism in the American Republic and examine the historical development and central policy debates surrounding European federalism. The final sections investigate contemporary debates about theories of federalism and regional experiences of federalism in a global context including Africa, India, Australia, the Middle East and North and South America. The scope and range of this volume is unparalleled; it will provide the reader with a firm understanding of federalism as issues of federalism promise to play an ever more important role in shaping our world.

Living as Equals Paul Barker, 1998 This is a collection of essays by six prominent social scientists on the ideal of economic and social equality and the ways in which public action can help to achieve it. Amartya Sen offers an overview of how equality can be furthered by public action. A. B. Atkinson proposes an official poverty line in Britain as a way to focus public debate and political action. E. J. Hobsbawm explores the tensions within the rival demands of language, nation and culture. Dorothy Wedderburn argues the case for the superiority of public action in relation to the National Health Service. Albert O. Hirschman scrutinizes the rhetorical devices used to counter proposals for reform. Ronald Dworkin demonstrates that liberty and equality are not as some argue in conflict.

Towards and Beyond the Italian Republic Davide Cadeddu, 2021-07-12 This book examines the historical process that led to the foundation of the Italian Republic and its constitution, viewed through the personal experiences and political reflections of Adriano Olivetti between 1919 and 1960, general manager and president of the well-known typewriter manufacturer Ing. C. Olivetti & C. An.

unbroken line of reasoning linked his maturing political reflections during the two post war periods The historical context of the 1950s did not prove to be very propitious but the guidelines dispersed throughout the Italian cultural and political world from the movement that Olivetti founded were certainly seminal generating a legacy of ideas that has only in part been recognized What makes this study distinctive is the original approach to reading the history of Italy through Adriano Olivetti's eyes and thoughts far from the more common Christian Democratic or Communist perspective of those years It is simply another view of what the Italian Republic could be and was not

Theory and Reform in the European Union Dimitris N. Chrysoschoou, 1999-06-12 Completely updated and newly available in paperback this book examines the relationship between theory and reform in the European Union in the light of the Amsterdam Treaty [The European Union and its Political Leaders](#) David Ramiro Troitiño, Ricardo Martín de la Guardia, Guillermo A. Pérez Sánchez, 2022-04-05 This book focuses on the impact of political leaders on the integration process led by the European Union It aims at a better understanding of the European Union through the actions contributions and ideas of these outstanding characters to European integration and disintegration By doing so the book offers an entirely new perspective presenting the actions of the main actors involved their background their historical time their challenges and problems and how they influenced the European Union's development The authors in detail discuss different ideas connected to leaders such as Jean Monnet and neo functionalism Spinelli and federalism or Churchill and the idea of cooperation Furthermore the book examines major policies and events like the Common Agricultural Policy the creation of the Euro as a consequence of the German reunification and Mitterrand's reactions or Brexit and its connection to the impact of Margaret Thatcher The global essence of the book makes it a must read for students researchers and scholars interested in a better understanding of the European Union's integration process

Shades of Blue Félix Krawatzek, Friedemann Pestel, Rieke Trimcev, Gregor Feindt, 2025-02-15 In *Shades of Blue* Félix Krawatzek Friedemann Pestel Rieke Trimcev and Gregor Feindt investigate the political project of Europe as it oscillates between the extremes of expectations of an ever wider integration and fear of disintegration The authors interrogate and chart the space between these polarities by tracking the many competing conceptions of Europe in European public discourse and relate these meanings to national regional and ideological divisions Based on qualitative discourse analyses of newspaper articles from six European Union member states between 2004 and 2023 *Shades of Blue* shifts how we think about Europe's integration and disintegration and offers a new perspective on Europeanization With twelve debates chronicling Europe's past and discussing the implications for Europe's future these authors uncover how politicians intellectuals and journalists negotiate European senses of belonging *Shades of Blue* moves beyond the binaries of hope and despair to uncover a more nuanced picture of Europe [The Road to a United Europe](#) Ann-Christina L. Knudsen, 2009 Papers from the Second International RICHIE Conference held in Copenhagen Denmark in December 2006 *Democracy, Federalism, the European Revolution, and Global Governance* Andrea Bosco, 2020-06-10 The

European Union is facing today the greatest crisis since its creation Brexit could mean not only the reversal of its steady enlargement from 6 to 28 member states but also the beginning of an inexorable decline leading to its disintegration However few today seem to recollect that it was precisely the British who were the first to promulgate the political culture which inspired the European Union's construction democracy and federalism and the first who tried to realise in June 1940 a European federation on the basis of an Anglo French union This volume traces the fundamental stages of the European unification process placing it in relation to the wider process of world economic and political integration In particular it analyses the historical significance of the European Revolution which is identified in the overcoming of the nation state namely the modern political formula which institutionalised the political division of mankind and the birth of the first truly international state The universal historical significance of the European Revolution lies in its exportability as for the other great European revolutions and therefore its potential as progressively extensible to all the states of the planet Europe was indeed the first region of the world where the barriers between national states fell and a post national political identity emerged complementary to national political identities It is in fact in the context of the European Union that democracy beyond the borders of the nation state has first been realized constituting a guiding principle for global governance

Narrating Europe Michael Gehler, Maria Eleonora Guasconi, Francesco Pierini, 2022-10-26 Die Autorinnen und Autoren dieses Bandes haben eine Reihe von Reden von Spitzenpolitikern zur europäischen Integration aus einer großen Zeitspanne 1946-2020 analysiert wobei sie jede Rede in ihren zeitgeschichtlichen Kontext gestellt und in den biographischen Hintergrund des Redners eingeordnet haben Die vergleichende Analyse zeigt dass es notwendig ist wieder zu entdecken dass das Ideal des europäischen Einigungswerks genauso spannend sein kann wie andere nationale geschichtliche Kontroversen Angesichts eines grassierenden Euroskeptizismus kann eine historische Einordnung und Kontextualisierung der Rolle der Kommunikation der europäischen Integration ein nützliches Instrumentarium sein um die Bedeutung der europäischen Einigung und ihrer Werte zu erklären und zu verstehen Mit Beiträgen von Dr Andrea Becherucci Prof Frédéric Bozo Prof Elena Calandri Prof Andrea Catanzaro Prof Sante Cruciani Dr Deborah Cuccia Prof Elena Dundovich Prof Laura Fasanaro Dr Eva Garau Prof Dr Michael Gehler Prof Piero Graglia Prof Giorgio Grimaldi Prof Gilles Grin Prof Maria Eleonora Guasconi Prof Giuliana Laschi Prof Guido Levi Prof Antonio Moreno Juste Prof Mara Morini Prof Marinella Neri Gualdesi Dr Jean Marie Palayret Prof Simone Paoli Prof Daniele Pasquinucci Prof Laura Piccardo Prof Francesco Pierini Prof Ilaria Poggiolini Prof Daniela Preda Prof Sabine Russ Sattar Prof Carlos Sanz Diaz Prof Jan Van der Harst Prof Antonio Varsori und Laura Wolf

Italy in the International System from Détente to the End of the Cold War Antonio Varsori, Benedetto Zaccaria, 2017-11-10 This edited collection offers a new approach to the study of Italy's foreign policy from the 1960s to the end of the Cold War highlighting its complex and sometimes ambiguous goals due to the intricacies of its internal system and delicate position in the fault line of the East West and North South divides According to received opinion during the Cold War

era Italy was more an object rather than a factor in active foreign policy limiting itself to paying lip service to the Western alliance and the European integration process without any pretension to exerting a substantial international influence Eleven contributions by leading Italian historians reappraise Italy's international role addressing three complex and intertwined issues namely the country's political diplomatic dimension the economic factors affecting Rome's international stance and Italy's role in new approaches to the international system and the influence of political parties cultures in the nation's foreign policy

Education and Training Politics in Europe Philipp Assinger, 2020-09-11 In the past seventy years education and training have evolved from side issues of political cooperation to political priorities of the EU For three decades within this period they were promoted implicitly to enable the mobility of workers in the internal market Later on a European dimension of education and training has developed through mobility and cooperation programs and through the lifelong learning discourse Today a European policy space of education and training is unfolding which the EU is coordinating by the means of soft governance arrangements

The Federal Future of Europe Dusan Sidjanski, 2000 The history current state and likely future of the European Union

Europe Without Borders Isaac Stanley-Becker, 2025-01-14 The contested creation of free movement for people and goods in the Schengen area of Europe Europe is a place of free movement among nations or is it The Schengen area established in 1985 and today encompassing twenty nine European countries allows people goods and capital to cross borders without restraint Schengen transformed European life advancing both a democratic project of transnational citizenship and a neoliberal project of international free trade But the right of free movement always excluded non Europeans especially migrants of color from former colonies of the Schengen states In *Europe without Borders* Isaac Stanley Becker explores the contested creation of free movement in Schengen from treaty-making at European summits and disputes in international courts to the street protests of undocumented immigrants who claimed free movement as a human right Schengen laid the groundwork for the making of a single market and the founding of the European Union Yet its emergence is one of the great untold stories of modern European history one hidden in archives long embargoed Stanley Becker is among the first to have access to records of the treaty-making such as letters between France's François Mitterrand and West Germany's Helmut Kohl and *Europe without Borders* offers a pathbreaking account of Schengen's creation Stanley Becker argues that Schengen gave a humanist cast to a market paradigm but even in pairing the border crossing of human beings with the principles of free market exchange this vision of free movement was hedged by alarm about foreign migrants Meanwhile these migrants the sans papiers saw in the promise of a borderless Europe only a neocolonial enterprise

Ripensare il federalismo Silvio Berardi, Giangiacomo Vale, 2013

There are Two German States and Two Must Remain? Deborah Cuccia, 2019 In the night of 9 November the images of thousands of Eastern Germans pouring into Berlin security checkpoints at Bernauerstraße and West Berliners knocking the first brick out of the Wall literally travelled around the world More than any other frontier the division of Berlin as its physical representation epitomized in people's mind the

ultimate sign of the division of Europe into spheres of influence More than any other event in Central Eastern Europe the Berlin Walls demolition contributed to reshape both geographical maps and ideological camps It is therefore not in the least surprising that these events captured the attention of millions of Europeans ranging from present day observers to prominent experts Still throughout the years the main research focus has been either on the inner German dynamics or on the role played by the Superpowers With the 30th anniversary of the fall of the Wall in the offing and an apparent creeping estrangement between Italy and Germany making the front page the time is ripe for providing deeper insights into the reactions arising in Italy from the German events How did the Italian vision of the German Question evolve How did Rome perceive and react to the process leading to German unity What kind of tools had the European integration process and the evolution of the Italian German relations How did Rome cope with the challenge issued by this acceleration of history In answering these questions the book goes far beyond the limitations imposed by a traditional diplomatic and foreign policy approach embracing also the economic and cultural levels as well as the mass media The year 1989 was a test of the level of maturity attained by the Italian German couple which casts a long shadow that goes far beyond their respective national borders

Politics and Culture in Post-war Italy Linda Risso, Monica Boria, 2006 Features articles by British Irish and Italian young researchers working on various aspects of Italian Studies defined since the end of World War II This volume offers insights into several aspects of post war Italian culture and introduces perspectives on literature women s studies cinema history and politics

Shifting Sovereignties Moritz Mihatsch, Michael Mulligan, 2025-01-27 Shifting Sovereignties explores practical manifestations of sovereignty from antiquity to the Anthropocene Taking a global history perspective and centring Africa the Middle East and Asia it destabilises overly neat theoretical notions of the concept Shifting Sovereignties shows that in practice sovereignty is far from absolute perpetual indivisible or supreme rather it is fuzzy compromised fragmented and layered From these observations the authors derive a historical conceptualisation which makes change and contingency core aspects of the understanding of sovereignty Rather than understanding sovereignty as a characteristic of individual states Mihatsch and Mulligan propose the notion of sovereignty regimes frameworks of legitimation enforced through mutual recognition These regimes are created and managed by more or less institutionalised structures which embody what the authors call system sovereignty Sovereignty regimes and system sovereignty are like sovereignty itself continuously changing and contingent This process of change forms the core of the book Shifting Sovereignties thus contributes a practical historical perspective on a concept which is foundational in political science international relations and international law

Federalism and European Union Michael Burgess, 1989 One of the most frequent criticisms levelled at the European Community is the discrepancy between federalist rhetoric and the intergovernmental response between its ideological aspirations and contemporary political reality The federalist heritage of the European Community has become discredited by contemporary political thinkers and yet it still forms an important part of the community s ideological

foundations Within this book the contrasting theories of Spinelli and Monnet are subjected to rigorous criticism examining the benefits and pitfalls of their proposals for a unified Europe and the probability of the gap between theory and actuality ever being bridged in the future
