Complete Work Karl Fleig,Elissa Aalto,2014-08-20 Alvar Aalto born 1898 in Kuortane in Finland is one of the last of the
works personalities of the twentieth century architecture generation His buildings from urban planning to simple residential
buildings function as a single organism He was never interested in formal architectural theories The path of each building is
fascinating from the first fleeting sketches to the completed work handed over to the client and strongly defined by the
personality of the architect Everything remains alive and in motion seems casual and natural as if it grew naturally out of the
surroundings The unique sense for the importance of individual components and construction phases makes it possible to
identify a complex of individual style even in modest construction tasks Hence Aalto s designs and experiments result in
furniture lamps curtains and many other things that make a house habitable The central theme of his work is the unity of
idea form and way of life *Alvar Aalto: Das Gesamtwerk* Alvar Aalto,1995-10-01 Es ist die gro e Leistung dieses Buches das
