*Harnessing Official Statistics* Deana Leadbeter, 2000 An examination of the range of sources of official statistics relevant

to healthcare and the benefits and potential pitfalls of using them in research and in everyday clinical work It highlights the issues that need to be considered when accessing and using data and shows how the reader can transform data from being on a system to something that is of practical use The contributors include John Charlton Steve Price Sheila Anderson Gillian Matthews and Colin Cryer      *Neonatal Nursing* Doreen Crawford, Maryke Morris, 2013-11-11 There are many books on the care of the sick infant and some are excellent Most however are written with medicine in mind This book is written mainly by experienced neonatal nurses although some chapters have been written by the appropriate specialists It is intended primarily for nurses who look after sick infants and is not intended to be an exhaustive reference but to address some of the issues and concepts of neonatal care in the 1990s Nursing models are an important part of neonatal care in the 1990s but this book has not been written within this framework There are several reasons for this arguably no current model is ideally suited to neonates and the favouring of one particular model might restrict the book's applicability Also as contributors from other disciplines were invited to contribute we were anxious that these chapters did not stand out as oddities Additionally much neonatal care overlaps and were a framework to be used in its entirety for each nursing care chapter we felt that there could be some repetition conversely if a framework was fragmented in some chapters to cover specific areas of care we were concerned that the overall effect would have been better We felt that such treatment of nursing models would have been unjustifiable In this book the terms infant and baby are used interchangeably and where the term he is used the term she is equally appropriate      **The Sociology of Healthcare** Alan Clarke, 2013-09-13 The Sociology of Healthcare Second Edition explores the impact of current social changes on health illness and healthcare and provides an overview of the fundamental concerns in these areas This new edition features a brand new chapter entitled End of Life which will help health and social care workers to respond with confidence to one of the most difficult and challenging areas of care The End of Life chapter includes information on changing attitudes to death theories of death and dying and palliative care All chapters have been thoroughly updated to address diversity issues such as gender ethnicity and disability In addition expanded and updated chapters include Childhood and Adolescence and Health Inequalities The text is further enhanced through the use of case studies that relate theory to professional practice and discussion questions to aid understanding Links to websites direct the reader to further information on health social wellbeing and government policies This book is essential reading for all students of healthcare including nursing medicine midwifery and health studies and for those studying healthcare as part of sociology social care and social policy degrees In an age when health policy follows an individualist model of personal responsibility this book by Alan Clarke demonstrates with a vast array of evidence just how much there is such a thing as society An excellent overall book Dr Stephen Cowden Senior Lecturer in Social Work Coventry University      Mayes' Midwifery - E-Book Sue Macdonald, Gail Johnson, 2023-05-23 Mayes Midwifery is a core text for students in the UK known and loved for its in depth approach and its close alignment with curricula and practice in this country The sixteenth edition has

been fully updated by leading midwifery educators Sue Macdonald and Gail Johnson and input from several new expert contributors ensures this book remains at the cutting edge. The text covers all the main aspects of midwifery in detail including the various stages of pregnancy possible complexities around childbirth and psychological and social considerations related to women's health. It provides the most recent evidence along with detailed anatomy and physiology information and how these translate into practice. Packed full of case studies, reflective activities and images and accompanied by an ancillary website with 600 multiple choice questions and downloadable images, Mayes Midwifery makes learning easy for nursing students entering the profession as well as midwives returning to practice and qualified midwives working in different settings in the UK and overseas. Expert contributors include midwifery academics and clinicians, researchers, physiotherapists, neonatal nurse specialists, social scientists and legal experts. Learning outcomes and key points to support structured study. Reflective activities to apply theory to practice. Figures, tables and breakout boxes help navigation and revision. Associated online resources with over 600 MCQs, reflective activities, case studies, downloadable image bank to help with essay and assignment preparation. Further reading to deepen knowledge and understanding. New chapters addressing the issues around being a student midwife and entering the profession. More detail about FGM and its legal implications as well as transgender binary individuals in pregnancy and childbirth. New information on infection and control following from the COVID 19 pandemic. Enhanced artwork program.

### **Rennie & Robertson's Textbook of Neonatology**

**E-Book** Janet M. Rennie, 2012-09-03. Thoroughly revised and updated, the New Edition of this definitive text explains how to care for neonates using the very latest methods of diagnosis and treatment. Rennie & Robertson's Textbook of Neonatology, 5th Edition, represents the state of the art on neonatal care, providing not only detailed pathophysiology and clinical chapters on every condition of the neonate but also comprehensive chapters on the psychosocial aspects of neonatology such as handling perinatal death and ethical and legal aspects of neonatal care. Contributions from Fetal Medicine experts and Obstetricians provide valuable peripheral information essential to the practice of neonatology. Rennie & Robertson's Textbook of Neonatology, 5th Edition, is the gold standard for neonatal care and will be an invaluable tool for everyone involved in the care of the neonate. It serves as an authoritative reference for practitioners, a valuable preparation tool for neonatal certification exams and a useful resource for the entire neonatal care team. Improved illustration program throughout: color figures, line drawings. Will facilitate quick review and enhance comprehension. Major changes have been made to the chapters on genomics, screening and a range of neurologic, respiratory and cardiovascular disorders including resuscitation and ventilation, chronic lung disease, periventricular leukomalacia. This book continues to provide the user with the latest clinically relevant applications in diagnosis and management to enable the user to derive appropriate differential diagnosis and management plans. Latest advances in imaging techniques included CT, cranial ultrasonography, MRI. There has been tremendous growth in the pace of development and refinement of imaging techniques. This book will ensure that the user is fully aware of their clinical

applications Incorporates the latest guidelines on clinical governance as recommended by RCPCH Helps ensure implementation of appropriate management plans Selected key references now included at end of each chapter Experts carefully select the most important articles for further reading to facilitate further understanding research *Marking Short Lives* Ewan R. Kelly, Ewan Kelly, 2007 This book explores theologically the practice of hospital chaplains seeking to meet the spiritual needs of parents bereaved by baby death in utero The lived experience of bereaved parents gathered through a series of in depth interviews informs such an exploration Parents describe the trauma of late miscarriage and stillbirth as still being shrouded by silence myth and misunderstanding in contemporary society Up to date theoretical understandings of grief are also re examined in light of parents stories of living with baby death This book offers suggestions as to how the actual spiritual needs of parents may be met and their grief sensitively facilitated through the sharing of rituals co constructed by parents and chaplain which seek to have theological integrity yet be relevant in our postmodern age In our prevalent culture of caring where increasingly ongoing professional and personal development are regarded as normative recommendations are made which may aid reflection on current or shape future practice for chaplains pastors students and various healthcare professionals **Mortality Statistics** ,1983 **Birth Statistics** Great Britain.
