Birth Of A Mother:

The Birth Of A Mother Daniel N. Stern, Nadia Bruschweiler-Stern, 1998-12-03 As you prepare to become a mother you face an experience unlike any other in your life Having a baby will redirect your preferences and pleasures and most likely will realign some of your values As you undergo this unique psychological transformation you will be guided by new hopes fears and priorities In a most startling way having a child will influence all of your closest relationships and redefine your role in your family s history The charting of this remarkable new realm is the subject of this compelling book Renowned psychiatrist Daniel N Stern has joined forces with pediatrician and child psychiatrist Nadia Bruschweiler Stern and journalist Alison Freeland to paint a wonderfully evocative picture of the psychology of motherhood At the heart of *The Birth of a Mother* is an arresting premise Just as a baby develops physically in utero and after birth so a mother is born psychologically in the many months that precede and follow the birth of her baby The recognition of this inner transformation emerges from hundreds of interviews with new mothers and decades of clinical experience Filled with revealing case studies and personal comments from women who have shared this experience this book will serve as an invaluable sourcebook for new mothers validating the often confusing emotions that accompany the development of this new identity In addition to providing insight into the unique state of motherhood the authors touch on related topics such as going back to work fatherhood adoption and premature birth During pregnancy mothers to be talk about morning sickness and their changing bodies and new mothers talk about their exhaustion the benefits of nursing or bottle feeding and the dilemma of whether or when they should return to work And yet they can be strangely mute about the dramatic and often overwhelming changes going on in their inner lives Finally with *The Birth of a Mother* these powerful feelings are eloquently put into words
