Birth Of Israel 1945 1949:

The Birth of Israel, 1945-1949 Joseph Heller, Yosef Heller, 2000 Joseph Heller tells the story of the complex and often conflicting political calculations that led directly to the founding of the independent Jewish state of Israel in the aftermath of World War II and the Holocaust Examining the positions of many competing parties he explains how and why the charismatic David Ben Gurion prevailed by shrewdly manoeuvring between radical extremes on the left and on the right he says Ben Gurion managed to steer a successful middle of the road policy in favour of partition

Israel at Sixty Efraim Karsh, Rory Miller, 2013-10-23 Sixty years after the birth of Israel this fascinating and original book of essays brings together a number of the leading experts on Zionism and Israel to examine the domestic and international context of Israel's transition from community to state in 1948 With contributions on a wide range of historically important topics that are no less relevant now than they were six decades ago the book examines how countries as diverse as France the United States Turkey Britain and Ireland viewed the partition of Palestine in 1947 and the subsequent establishment of Israel in 1948 It also looks at the involvement of the UN Zionist and Arab leaders in the events immediately preceding Israel's birth While controversial issues such as the role of the Holocaust in the creation of Israel and the attitude of the Zionist movement to Palestinian Arabs from its onset to the 1948 war are examined in order to set the record straight after decades of mistaken and misleading research This book was previously published as a special issue of *Israel Affairs*

Israel in History Derek Penslar, 2007-01-24 This collection of essays provide a comparative historical analysis of Israel's history In particular they tackle the often contentious issues of the nature of Zionism whether Israel is a colonial state historiography and antisemitism as well social and cultural developments

Cross on the Star of David Uri Bialer, 2005-10-26 The official establishment of the State of Israel in May 1948 constituted the realization of the Zionist vision but military victory left in its wake internal and external survival issues that would threaten this historic achievement for decades to come The refusal of the international community to recognize the political geographic and demographic results of the War of Independence presented Israel with a permanent regional security threat while isolating and alienating it in the international arena One of the most formidable problems Israeli foreign

policy faced was the stance of the Christian world toward the new state. Attitudes ranged from hostility and categorical non-recognition by the Catholic Church through Protestant ambivalence to Evangelical support. Cross on the Star of David presents the first scholarly analysis based on newly declassified documents of Israeli policymaking on this issue. Uri Bialer focuses on the impact that modes of thinking rooted in the historical tradition of Jewish-Christian interactions had on Israeli policymakers and concludes that they were not innocent of the perceptions and biases that influenced the Christian world's behavior toward Israel. The result is a fine-grained original interpretation of an important dimension of Israeli foreign policy from the founding of the State to the 1967 War. *Nahum Goldmann* Mark A. Raider, 2009-03-18 The life career and legacy of Nahum Goldmann 1895-1982 one of the most colorful and important Zionist leaders of the twentieth century are fully revealed in this illuminating collection of essays. American Israeli and European scholars speak to the many sides of Goldmann including his upbringing, rise in the international public arena as a premier advocate for Jewish life and the Zionist enterprise and his role as an elder statesman in the 1960s and 1970s. Often ahead of his time, Goldmann proved highly influential at several critical historical junctures: on the eve of the creation of the Jewish state he played a key role articulating Israel's relationship with diaspora Jewry, postwar Germany and the Arab world. This volume captures Goldmann in all his complexity while making this important figure and his time accessible to researchers, students and interested readers. [Encyclopedia of the Palestinians](#) Philip Mattar, 2005 Presents the history of modern Palestine and biographies of important Palestinians. **The Process of Israeli Decision Making: Mechanisms, Forces and Influences** Karim El-Gendy, 2018-12-16 Al Zaytouna Centre has published the second edition of *The Process of Israeli Decision Making* by Karim El-Gendy. The 272-page book is an attempt to understand the Israeli decision-making process and to bridge the literature gap by relating domestic factors with decision making and foreign policy. El-Gendy aims to discuss the Israeli decision-making process from three different viewpoints: The decision makers and the formal relationship between them; the structural forces and influences inherent in the decision-making mechanism; and the external factors that influence the decision-making process. The author explains how elements and forces within the labyrinth of the Israeli society exert influence on the decision-making mechanism and on how foreign policy and national security decisions are made. He expands on a number of external forces or forces external to the decision-making process that are powerful enough to influence it. El-Gendy discusses the influence of five forces: the military, the advisors, two religious groups, the relationship with the United States, and the relationship with the Jewish Diaspora. This book attempts to take a holistic approach to the decision-making process and avoid focusing its attention solely on decision making in crisis situations. **Diamonds and War** David De Vries, 2010-04 Based on previously unexamined historical documents found in archives in Belgium, England, Israel, the Netherlands, and the United States, this book is the first in English to tell the story of the formation of one of the world's main strongholds of diamond production and trade in Palestine during the 1930s and 1940s. The history of the diamond cutting

industry characterized by a long standing Jewish presence is discussed as a social history embedded in the international political economy of its times the genesis of the industry in Palestine is placed on a broad continuum within the geographic and economic dislocations of Dutch Belgian and German diamond cutting centers In providing a micro historical and interdisciplinary perspective the story of the diamond industry in Mandate Palestine proposes a more nuanced picture of the uncritical approach to the strict boundaries of ethnic based occupational communities

The Birth of the Palestinian Refugee Problem Revisited Benny Morris, 2004-01-05 Benny Morris The Birth of the Palestinian Refugee Problem was published in 1988 Its startling revelations about how and why 700 000 Palestinians left their homes and became refugees during the Arab Israeli war in 1948 undermined traditional interpretations as to whether they left voluntarily or were expelled as part of a systematic plan This book represents a revised edition of the earlier work compiled on the basis of newly opened Israeli military archives While the focus remains the 1948 war and the analysis of the Palestinian exodus the new material contains more information about what happened in Jerusalem Jaffa and Haifa and how events there led to the collapse of Palestinian urban society It also sheds light on the battles and atrocities that resulted in the disintegration of rural communities The story is a harrowing one The refugees now number four million and their existence remains a major obstacle to peace

The Israel-Palestine Conflict Neil Caplan, 2019-09-11 One of the 10 Must Read Histories of the Palestine Israel Conflict Ian Black Literary Hub on the 100th anniversary of the Balfour Declaration The new edition of the acclaimed text that explores the issues continuing to define the Israeli Palestinian conflict Numerous instances of competing sometimes incompatible narratives of controversial events are found throughout history Perhaps the starkest example of such contradictory representations is the decades long conflict between Israel and Palestine For over 140 years Israelis Palestinians and scores of peacemakers have failed to establish a sustainable mutually acceptable solution The Israel Palestine Conflict introduces the historical basis of the dispute and explores both the tangible issues and intangible factors that have blocked a peaceful resolution Author Neil Caplan helps readers understand the complexities and contradictions of the conflict and why the histories of Palestine and Israel are so fiercely contested Now in its second edition this book has been thoroughly updated to reflect the events that have transpired since its original publication Fresh insights consider the impact of current global and regional instability and violence on the prospects of peace and reconciliation New discussions address recent debates over two state versus one state solutions growing polarization in public discourse outside of the Middle East the role of public intellectuals and the growing trend of merging scholarship with advocacy Part of the Wiley Blackwell Contested Histories series this clear and accessible volume Offers a balanced non polemic approach to current academic discussions and political debates on the Israel Palestine conflict Highlights eleven core arguments viewed by the author as unwinnable Encourages readers to go beyond simply assigning blame in the conflict Explores the major historiographical debates arising from the dispute Includes updated references and additional maps Already a standard text

for courses on the history and politics of the Middle East The Israel Palestine Conflict is an indispensable resource for students scholars and interested general readers The Israeli Settler Movement Sivan Hirsch-Hoefler, Cas Mudde, 2020-12-03 The first systematic analysis and explanation of the political success of the Israeli settler movement Based on a comprehensive original theoretical framework and rich empirical analysis this book provides key new insights for the study of both Israeli politics and social movements in general *In Search of Israel* Michael Brenner, 2018-03-13 A major new history of the century long debate over what a Jewish state should be Many Zionists who advocated the creation of a Jewish state envisioned a nation like any other Yet for Israel s founders the state that emerged against all odds in 1948 was anything but ordinary Born from the ashes of genocide and a long history of suffering Israel was conceived to be unique a model society and the heart of a prosperous new Middle East It is this paradox says historian Michael Brenner the Jewish people s wish for a homeland both normal and exceptional that shapes Israel s ongoing struggle to define itself and secure a place among nations In Search of Israel is a major new history of this struggle from the late nineteenth century to our time When Theodor Herzl convened the First Zionist Congress in 1897 no single solution to the problem of normalizing the Jewish people emerged Herzl proposed a secular liberal New Society that would be home to Jews and non Jews alike East European Zionists advocated the renewal of the Hebrew language and the creation of a distinct Jewish culture Socialists imagined a society of workers collectives and farm settlements The Orthodox dreamt of a society based on the laws of Jewish scripture The stage was set for a clash of Zionist dreams and Israeli realities that continues today Seventy years after its founding Israel has achieved much but for a state widely viewed as either a paragon or a pariah Brenner argues the goal of becoming a state like any other remains elusive If the Jews were the archetypal other in history ironically Israel which so much wanted to avoid the stamp of otherness has become the Jew among the nations **Professor of Apocalypse** Jerry Z. Muller, 2024-05-14 The controversial Jewish thinker whose tortured path led him into the heart of twentieth century intellectual life Scion of a distinguished line of Talmudic scholars Jacob Taubes 1923 1987 was an intellectual impresario whose inner restlessness led him from prewar Vienna to Zurich Israel and Cold War Berlin Regarded by some as a genius by others as a charlatan Taubes moved among yeshivas monasteries and leading academic institutions on three continents He wandered between Judaism and Christianity left and right piety and transgression Along the way he interacted with many of the leading minds of the age from Leo Strauss and Gershom Scholem to Herbert Marcuse Susan Sontag and Carl Schmitt Professor of Apocalypse is the definitive biography of this enigmatic figure and a vibrant mosaic of twentieth century intellectual life Jerry Muller shows how Taubes s personal tensions mirrored broader conflicts between religious belief and scholarship allegiance to Jewish origins and the urge to escape them tradition and radicalism and religion and politics He traces Taubes s emergence as a prominent interpreter of the Apostle Paul influencing generations of scholars and how his journey led him from crisis theology to the Frankfurt School and from a radical Hasidic sect in Jerusalem to the center of

academic debates over Gnosticism secularization and the revolutionary potential of apocalypticism Professor of Apocalypse offers an unforgettable account of an electrifying world of ideas focused on a charismatic personality who thrived on controversy and conflict

Arab Christians in British Mandate Palestine Noah Haiduc-Dale,2013-03-18 Recent conflict in the Middle East has caused some observers to ask if Muslims and Christians can ever coexist History suggests that relations between those two groups are not predetermined but are the product of particular social and political circumstances This book examines Muslim Christian relations during an earlier period of political and social upheaval and explores the process of establishing new forms of national and religious identification Palestine s Arab Christian minority actively engaged with the Palestinian nationalist movement throughout the period of British rule 1917 1948 Relations between Muslim and Christian Arabs were sometimes strained yet in Palestine as in other parts of the world communalism became a specific response to political circumstances While Arab Christians first adopted an Arab nationalist identity a series of outside pressures including British policies the rise of a religious conflict between Jews

and Muslims and an increase in Islamic identification among some Arabs led Christians to adhere to more politicized religious groupings by the 1940s Yet despite that shift Christians remained fully nationalist insisting that they could be both Arab and Christian
