Bitter Paradise Ross Pennie, 2020-05-26 Fans of Bones and Coroner will love Dr Zol Szabo a doctor who is out to solve medical mysteries before it's too late After weeks of torture at the hands of Syria's secret police the bombing of his villa in the ancient city of Aleppo and the murder of his daughter trauma surgeon Dr Hosam Khousa flees his fractured homeland with his wife and son They make their way to Canada as refugees where Hosam is forced to trade his prestigious scalpel for a barber's humble clippers Though he aches to regain his once prominent surgical career cutting hair in Hamilton Ontario seems a safe way to make a living until a fellow Syrian is slashed to death in the barbershop The ensuing gangland vendetta entangles Hosam and threatens his family At the same time epidemic investigators Dr Zol Szabo and Natasha Sharma are battling an outbreak of vaccine resistant polio that has struck the city with terrifying fury When Hosam visits a friend clinging to life in the intensive care unit he spots something that might help the investigation but will ruin his chance of retaking his place in the operating theater The Great White North is not the sanctuary he expected but it's a bitter paradise he must learn to navigate *The Bitter Prescription* Dr. Jennifer Stagg, 2020-06-30 In *The Bitter Prescription* Dr Stagg outlines the core elements for optimal health as we age using bitter bioactive foods to improve digestion and metabolism the bitter truth about how your dietary needs change with age and how getting rid of bitter feelings will set you up for your greatest potential Armed with this knowledge she provides you with a bioactive rich dietary plan that is not only an excellent source of nutrition but also has the added bonus of helping you absorb more of those nutrients from your food and improve metabolism As we get older our digestive function and metabolism slows making us more likely to suffer from deficiencies that can make our systems sluggish What may have worked in our twenties seems to no longer benefit us If you are eating well and not seeing results this book is for you While most books and diet plans out there may do a good job of outlining a food plan they lack the tools to make the program long lasting and accentuate the latest fad diet As food and health conscious individuals know it is much easier to start a plan than it is to sustain it In *The Bitter Prescription* Dr Stagg also maps out how to utilize mindset and emotional health to make these changes last a lifetime *The Bitter Cry of the Children* John Spargo, 2023-11-11 John Spargo's *The Bitter Cry of the Children* is a groundbreaking exposé on child labor in America during the early 20th century With a compelling mix of investigative journalism and poignant storytelling Spargo documents the appalling conditions faced by child workers in factories and mines shedding light on a dark chapter of American history The book echoes the sentiments of the progressive movement of the time calling for social reform and labor laws to protect the most vulnerable members of society Spargo's writing style is both evocative and informative making this book a must read for those interested in labor history and social justice issues John Spargo a prominent socialist and reformer was deeply involved in the labor movement and social activism of his time His personal experiences and passionate advocacy for social

change undoubtedly influenced his decision to write *The Bitter Cry of the Children*. As a respected authority on labor issues, Spargo's book served as a catalyst for legislative changes and public awareness about child labor practices. I highly recommend *The Bitter Cry of the Children* to anyone interested in the history of labor rights, social reform, and the impact of investigative journalism. Spargo's powerful expose remains relevant today, reminding us of the ongoing need to protect the rights and well-being of all children.

A Bitter Living Sheilagh C. Ogilvie, 2003. Women were key to the changes in the European economy between 1600 and 1800 that led the way to industrialization. But we still know little about this female shadow economy and nothing quantitative or systematic. This text aims to illuminate women's contribution to the pre-industrial economy.

Bitter-Sweet Democracy? Louise Knops, Karen Celis, Virginie Van Ingelgom, Heidi Mercenier, François Randour, 2024-09-06. Discussions about the crisis of representative democracy have dominated scholarly and public discourse for some time now. But what does this phrase actually entail and what is its relevance today? How do citizens themselves experience, feel, and respond to this crisis? *Bitter-Sweet Democracy* grapples with the complexities of these questions in the context of citizens' relations to politics in Belgium, a nation that has experienced political instability and protests as well as social mobilization and democratic vitality in recent years. This timely and compelling volume offers new empirical evidence on the state of trust, democracy, and representation in Belgium; it further introduces an innovative methodological and conceptual framework to study this crisis specifically by developing the concept of political resentment. The essays in this collection span diverse topics: from citizens' conceptions of democracy itself and the expression of political resentment among socioeconomically disadvantaged groups to the influence of different emotional dimensions of resentment on protest behaviours. By adopting a distinctive affective lens and by building upon the specific case of Belgium, this volume contributes to the broader conversation on political resentment and the critical role of emotions in contemporary politics. *Bitter-Sweet Democracy* will be invaluable for scholars researching the relationship between emotions and politics, political representation and democracy, and citizen-led conceptualizations of politics. It will also appeal to decision makers and citizens seeking to understand the challenges facing democracy, as well as a wider audience of academics and students in the fields of political science, political psychology, and sociology.

Arrogantly Shabby Clara C. Bitter, 2016-06-17. Learn about Pawleys Island, its beginnings, and its legends. Georgetown and the Georgetown Mill, Murrells Inlet, Oliver's, the ubiquitous head boat, and Mickey Spillane Brookgreen Gardens and O.D. and the Carolina Shag. See all these through the eyes of the Bitter family as they made it their vacation home for years. Meet the indomitable matriarch Dammo, whose mineral rights to several Kentucky mines suddenly spat out a royalty check for 30,000 for the first time in thirty years. With lots of cash and lots of family, the idea of a multi-generational get-together appealed. Watch family members create entertaining schtick: the invention of the Pawley Dog, Bloody Marys on the porch, burying teens up to their neck in sand, impersonating popular actors, sculpting award-worthy sand castles, foraging at an age-damaged mom and pop grocery.

Dove,2021-02-23 A seminal anthropological work on the paradoxical relationship between human consciousness and the environment This book asks an age old question about the relationship between human consciousness and the environment How do we think about our own thoughts and actions How can we transcend the exigencies of daily life How can we achieve sufficient distance from our own everyday realities to think and act more sustainably To address these questions Michael R Dove draws on the results of decades of research in South and Southeast Asia on how local cultures have circumvented the curse of consciousness the paradox that we cannot completely comprehend the ecosystem of which we are part He distills from his ethnographic ecological and historical research three principles perspectivism seeing oneself from outside oneself metamorphosis becoming something that one is not and mimesis copying something that one is not which help a society to transcend the hubris and myopia of everyday existence and achieve greater insight into its ecosystem **Bitter Water**

Malcolm D. Benally, 2011-05-15 Many know that the removal and relocation of Indigenous peoples from traditional lands is a part of the United States colonial past but few know that in an expansive corner of northeastern Arizona the saga continues. The 1974 Settlement Act officially divided a reservation established almost a century earlier between the Din Navajo and the Hopi and legally granted the contested land to the Hopi. To date the U S government has relocated between 12 000 and 14 000 Din from Hopi Partitioned Lands and the Din both there and elsewhere continue to live with the legacy of this relocation. *Bitter Water* presents the narratives of four Din women who have resisted removal but who have watched as their communities and lifeways have changed dramatically. The book based on 25 hours of filmed personal testimony features the women's candid discussions of their efforts to carry on a traditional way of life in a contemporary world that includes relocation and partitioned lands encroaching Western values and culture and devastating mineral extraction and development in the Black Mesa region of Arizona. Though their accounts are framed by insightful writings by both Benally and Din historian Jennifer Nez Denetdale, Benally lets the stories of the four women elders speak for themselves. Scholars, media and other outsiders have all told their versions of this story but this is the first book that centers on the stories of women who have lived it in their own words in Navajo as well as the English translation. The result is a living history of a contested cultural landscape and the unique worldview of women determined to maintain their traditions and lifeways which are so intimately connected to the land. This book is more than a collection of stories; poetry and prose. It is a chronicle of resistance as spoken from the hearts of those who have lived it.

Bitter Choices Ellen Israel Rosen, 1990-03-23 Ellen Israel Rosen presents a compelling portrait of married women who work on New England's assembly lines while they also maintain their homes and marriages. With skill and sympathy she documents the reasons these women work, their experiences on the job, in the union and at home, the sources of their job satisfaction and their management of the double day. The major issue for this segment of the labor force, Rosen suggests, is not whether to work but the availability and quality of jobs. Rosen argues that deindustrialization, plant closings and job displacement confronts blue collar women, factory workers with a bitter choice between work at lower and lower wages or no work at all. Drawing on quantitative and qualitative data from interviews with more than two hundred such women, factory workers, Rosen traces the ways in which women who do unskilled factory work have gained in self esteem as well as financial stability from holding paid jobs. Throughout, Rosen explores the relationship between public work experiences and private family life. She analyzes the dynamics of two paycheck working class families, clarifies relationships between class and gender and explores the impact of patriarchy and capitalism on working class women. At the same time, Rosen places women's job loss within the broader economic context of global industrial transformations, demonstrating how international capital shifts to cheaper labor in developing countries as well as technological progress are changing the shape of the entire American labor force and are beginning to undermine the material and symbolic gains of the American female factory worker, the promise of market equality and progressive working

A Bitter Aftertaste Mr. Luis Brandão-Marques, Hasan H Toprak, 2024-12-16 Industrial policy is once again at the forefront of the policy debate around the world However state aid is a contentious issue in the European Union given the need to maintain a level playing in its single market This paper estimates the effects of state aid between 2016 and 2023 on listed nonfinancial firms in Belgium France Germany the Netherlands Spain and the United Kingdom until 2020 using a high frequency identification approach to address endogeneity It finds that firms that receive state aid increase employment and revenue but not investment or labor productivity Moreover it finds that there are adverse spillover effects to competing firms that significantly undo any positive own effects These findings suggest that should there be a case for providing state aid to firms in the European Union this should be done at the European level instead of the member state level to mitigate adverse spillovers Pooling resources and competitively allocating aid across the Union could preserve market competition encourage firm entry and ensure a more efficient distribution of funds
