Lesson 9 – Introduction to Managerial Accounting and Budgeting

Financial vs. Managerial Accounting

- Financial Accounting
 - External users
 - GAAP; IFRS
 - Financial
- Managerial Accounting
 - Internal Users
 - Financial and Non-Financial

Nature of Managerial Accounting

	Financial Accounting	Managerial Accounting
1. Users and decision makers	External: investors, creditors, and others outside of the organization's managers	Internal: Managers, employees, and decision makers inside the organization
2. Purpose of information	Help external users make investment, credit, and other decisions	Help managers make planning and control decisions
3. Flexibility of reporting	Structured and often controlled by GAAP	Relatively flexible (no GAAP constraints)
4. Timeliness of information	Often available only after an audit	Available quickly without an audit
5. Time dimension	The past; historical information with some predictions	The future; many projections and estimates, with some historical information
6. Focus of information	The whole organization	An organization's projects, processes, and divisions
7. Nature of information	Monetary information	Mostly monetary; some nonmonetary

Types of Cost Classifications

Fixed versus Variable

- Cost behavior refers to how cost will change, in total, with changes in the volume of activity
 - **Total Fixed Costs:** do not change when activity changes (rent, insurance, salary, etc.)

National Research Council, Division of Behavioral and Social Sciences and Education, Commission on Behavioral and Social
Sciences and Education, Committee on National Statistics, Panel to Evaluate Microsimulation Models for Social Welfare
Programs, 1991-02-01 This book reviews the uses and abuses of microsimulation models large complex models that produce
estimates of the effects on program costs and who would gain and who would lose from proposed changes in government
policies ranging from health care to welfare to taxes Volume 1 is designed to guide future investment in modeling and
analysis capability on the part of government agencies that produce policy estimates It will inform congressional and
executive decision makers about the strengths and weaknesses of models and estimates and will interest social scientists in
the potential of microsimulation techniques for basic and applied research as well as policy uses The book concludes that a
second revolution is needed to improve the quality of microsimulation and other policy analysis models and the estimates
they produce with a special emphasis on systematic validation of models and communication of validation results to decision
makers **Administration of Federal Health Benefit Programs** United States. Congress. House. Committee on

Accounting Education Richard M.S. Wilson, F. Elizabeth Gray, Lynn Hamilton, 2016-04-14 Accounting often described as the
language of business requires a diverse set of written listening and oral communication skills if those who practise it are to
be effective Given the pace of change relating to for example the evolution of international accounting standards and the
demands for greater transparency accountants must be clear responsive and audience focussed communicators Employers of
accountants consistently comment on the need for their new graduate recruits and trainees to have strong written oral and
interpersonal communication skills In this light accounting educators face the challenge of designing and delivering
programmes that reflect professional expectations on the part of employers and clients and educating students on how to
make informed communication choices in order to achieve desired results and to build good working relationships The
chapters in this book deal with such topics as accounting students perceptions of oral communication skills competence
based writing skills and the development of listening skills This book was originally published as *Accounting Education* an
international journal *InfoWorld*, 1986-07-14 *InfoWorld* is targeted to Senior IT professionals Content is segmented into
Channels and Topic Centers *InfoWorld* also celebrates people companies and projects *Supply Chains* Ioannis
