Alliances And American Foreign Policy:

Alliances and American Foreign Policy Robert Endicott Osgood, 1968 **Entangling Alliances with None** Lawrence S. Kaplan, 1987 The essays included in this volume develop one central theme the completion of American isolationism in the formative years of the nation Isolationism in Kaplan's view is not to be taken as economic or cultural independence but as abstention from political or military obligations to Europe from alliance or from purposeful entanglement in the European balance of power This study focuses on the assertion that Thomas Jefferson was central to the making of American foreign policy from the Revolution to 1803 But Kaplan's view is not always supportive of Jefferson In fact Kaplan believes the collection has a Hamiltonian flavor although he does not necessarily consider himself a Hamiltonian either Kaplan is critical of Jefferson and points clearly to the error his belief that France could be a counterweight to British power In the short run Hamilton appears more realistic but in the long run Jefferson's vision for the country proved wiser and sounder From publisher's description **American Foreign Policy** various, 2013-01-11 Complete set Since 1961 the Adelphi Papers have provided some of the most informed accounts of international and strategic relations Produced by the world renowned International Institute of Strategic Studies each paper provides a short account of a subject of topical interest by a leading military figure policy maker or academic The project reprints the first forty years of papers arranged into thematic sets The collection as a whole provides a rich and insightful account of international affairs during a period which spans the second half of the Cold War the fall of the communist bloc and the emergence of a new regime with the United States as the sole superpower There is a wealth of global coverage Four volumes on east and southeast Asia as well as individual volumes on China Japan and Korea Particular attention is given to the Middle East with volumes addressing internal sources of instability geo politics and the role of the superpowers the Israel Palestine conflict and the Iran Iraq War and the first Gulf War There is also a volume on oil and insecurity There are also two volumes on Africa the site of most of the world's wars during the period The IISS has obviously made a particular contribution to the understanding of military strategy and this is reflected with material on topics such as urban and guerrilla warfare nuclear deterrence and the role of information in modern warfare Volumes on military strategy are complemented by approaches from other disciplines such as defence economics Key selling points Early papers were only distributed by the IISS and will have achieved limited penetration of the academic market A host of major authors on a range of different subjects eg Gerald Segal on China Michael Leifer on Southeast Asia Sir Lawrence Friedman on the revolution in military affairs Raymond Vernon on multinationals and defence economics Individual volumes will have a strong appeal to different markets eg the volume on defence economics for economists various volumes for Asian Studies etc **Alliances in U.S. Foreign Policy** Alan Ned Sabrosky, 2019-03-04 This volume addresses a selected set of issues that appear to be especially salient with regard to alliances in U S foreign policy in general and to North Atlantic Treaty Organization in particular presenting questions about alliance purpose and cohesion that demand a response

Miglietta, 2002-01-01 American Alliance Policy in the Middle East provides a stimulating new look at a U.S. Cold War foreign policy gripped by anticommunist paranoia Through case studies of America's relationships with Iran Israel and Saudi Arabia John P. Miglietta reveals how an overriding fear of global communism led to the overcommitment of U.S. security resources to the region The perceived need to preserve Middle East stability rendered U.S. policy ineffectual and unresponsive to changing local conditions drastically altering the patron-client paradigm to the detriment of American strategic interests This superb analysis of American foreign policymaking illustrates how Cold War anticommunist ideology prevented the evolution of traditional military alliances into broader based relationships and perpetuated authoritarian regimes that mired the Middle East in a cycle of poverty and despotism **The Mood/Interest Theory of American Foreign Policy** Jack E.

Holmes, 2014-07-15 In 1952 Frank L. Klingberg's article on introvert and extrovert American foreign policy moods projected an American turn toward introversion in the late 1960s After this came to pass Jack Holmes began to develop a theory of how these moods might work in a more specific sense His mood interest theory points to a basic conflict between politico-military interests and the foreign policy moods of the American electorate Holmes presents a pioneering account of the overwhelming impact of public moods on foreign policy Policy making structures executive-legislative relations presidential personality pragmatism moralism elitism conservatism international economics and humanitarianism are related to the mood interest pattern Major points are illustrated with examples from 1776 to the present Holmes's analysis indicates that American moods are continuing unabated according to past patterns so that American foreign policy may undergo some surprising changes in the next decade One of the author's hopes is that emphasis on the importance of national moods will help avoid future extremes This book is bold in its assertions and points to major problems in the analysis of American
