**Alone on a Desert Island** Ginny McReynolds, **A Lonely Desert Island** Carole Petcher, Raymond Petignat, 2006-10-19 Against ignorance the suppressed reality of mental illness and the consequences for those affected and their families by Carole Petcher only you can judge if we are over ambitious Although we touch on the subject of the obsessive compulsive disorder the main theme of our book concerns schizophrenia and manic depression bipolar disorder These are serious but and this may be a source of amazement to many treatable illnesses if the patient meets certain requirements and adequate resources are available The stories that follow show that this is unfortunately not always the case particularly when the picture is distorted by the idea of the family and environment as causative factors It must also be said that immense steps have been achieved in the last twenty years with regard to the treatment of the patient and in the approach of the medical profession to the family Schizophrenia and this often goes unrecognised is the most expensive illness of all as it results in not only direct but also indirect costs such as inability to work pensions financial support by the families In summary this book primarily confronts the often grim experiences of relatives with the inadequate knowledge of a major section of the broader population concerning the existence of mental illnesses and the social problems involved Secondly it aims to provide some basic information on the current thinking about mental illness and to offer some practical advice on dealing with it Thirdly it challenges the professional world with the still existing divisions between medical knowledge and everyday practice Early diagnosis with conscientious preliminary investigations and the education of young parents in this field seem to us to be particularly necessary In short we do not aim to alleviate the situation of the relatives but to improve the living conditions and perspectives of people that suffer from a serious mental illness The equation is eminently simple when this is achieved the relatives will also benefit Alone on a Desert Island Quest Learning File Staff, 1982-05

**Survive on a Desert Island** Patrick Perish, 2016-08-01 Being stranded on a desert island is a classic survival situation of countless books movies and cartoons But would you know where to find water or how make fire if it happened to you Young readers can learn these skills and more in this high interest title of ultimate survival *The Online Self* Soraj Hongladarom, 2016-07-27 This book investigates the emerging phenomenon of the self as it exists in the online world It argues for an externalist conception of self and identity one that does not depend on the continuity of consciousness of the subject It also offers an analysis of related phenomenon such as online friendship and games based on this analysis An outstanding feature of social networking sites such as Facebook and MySpace is that it allows for the user to put forward their selves or their identity onto the Internet and use the online self as an anchor to connect with any number of friends each of whom also has their own online selves A number of questions then arise which are deeply conceptual and philosophical in nature What is the metaphysical nature of this emerging online self Is it the same or fundamentally different from the offline self with which we are already familiar Since increasing numbers of people are connected to the online world

this world itself seems to be taking on a reality of its own This much has been appreciated by a number of scholars in the field However there seems to be lacking a systematic study of the philosophical and metaphysical nature of the self that has become a key element in cyberspace a key topic which this volume addresses Apart from the problem of constitution of the online self this volume addresses related questions concerning personal identity in the online world and scrutinizes computer games and the characteristics that they share with social networking sites Unlike the majority of the existing literature which discusses the topic from a more social scientific perspective this volume fills the lacuna of a philosophical and theoretical study of the online world

**with May Sarton** May Sarton, 1991 With increasing candor and openness May Sarton's conversations have given an intimate view of her honest courageous inner life Best known to her many readers as a novelist and keeper of journals Sarton sees herself pre eminently as a poet In the interviews collected here she speaks forthrightly about herself her independence and her writing Although born in Belgium Sarton is quintessentially American in her choice of solitude on which her personal well being and writing depend She is a modernist who has defined herself as an artist with the occasionally painful recognition that all else must finally be subordinated to her writing Her journal *After the Stroke* makes clear that when she cannot write she stands on the edge of the abyss of nonbeing These interviews offer Sarton's readers the model of a woman who has supported herself as a writer of achievement who has made her way without the comforts of academic tenure grants or bestseller listings
