Delve through a unique exploration of the philosophy underlying The Wheel of Time The Wheel of Time turns and ages come and pass leaving memories that become legend Legend fades to myth and even myth is long forgotten Robert Jordan s The Wheel of Time is a story of mythic proportions following Rand al Thor the Dragon Reborn as he marches toward Tarmon Gai don the last battle between the forces of good and evil Male and Female channelers wield complementary halves of the one power some for good others in service to the Dark One But in a world of polar opposites there is ambiguity Rand alongside his comrades must navigate a complex world where anybody may be a Darkfriend and even dreams may be lethal all while learning to become the heroes of legend they thought only existed in gleeman s tales Drawing from both the beloved book series and the Amazon Prime adaptation 18 scholars and fans provide readers with a deeper understanding of the ideas woven throughout the rich world of The Wheel of Time Covering wide ranging themes from magic rooted in biological sex and the meaning of gender to Wolf brothers and humanity s connection to the animal world from slavery and servitude to pacifism and polyamory these authors tackle issues paramount to understanding the human condition Substantial yet accessible chapters address philosophical questions including Could there be a world without evil Who is the author of a work Should we prefer existence to nothingness Does fate determine our future and does it matter When if ever is war justified Featuring contributions from scholars with expertise in philosophy literature and media studies The Wheel of Time and Philosophy A Portion of Wisdom is ideal a must read for fans philosophy students and scholars alike who wish to explore the deeper intellectual currents running through The Wheel of Time      The Story of the Peasant-boy Philosopher, Or, "The Child Gathering Pebbles on the Sea-shore" Henry Mayhew, 1873      *Wheel of Time: The Great Hunt #4* Rik Hoskin, 2024-02-28 In this exciting adaptation of Robert Jordan s Wheel of Time series adapted by writer RIK HOSKIN and artist MARCIO ABREU readers will explore the momentous events of The Great Hunt and follow the young hero Rand al Thor and his compatriots as they seek out the Horn of Valere In Chapter Four The Shadow in Shienar factions of the Aes Sedai maneuver in Fal Dara as Moiraine Sedai s relationship with a captive Darkfriend comes under scrutiny Who is this servant of the Dark One and where are the three young men who escorted Moiraine into the city Meanwhile the Amyrlin Seat has a vision that reveals the identity of the champion of light prompting Moiraine to finally voice her conviction that Rand al Thor will soon stand before the world as the Dragon Reborn      Poole's Index to Periodical Literature William Isaac Fletcher, Franklin Osborne Poole, 1897      **Poole's Index to Periodical Literature** William Frederick Poole, 1897

On Metaphorical Thought, Experientiality and Imagination in Archaeology** Paul Bouissac, Dragoş Gheorghiu, 2015-02-27 Recent years have witnessed a search for new sources for archaeological inspiration within areas which until recently have not been imagined

as a source for science Archaeology has become more anthropologized and as such is becoming increasingly influenced by the Zeitgeist although some European schools are yet to recognize this The process of scientific research that archaeologists have always considered to be an objective approach has been revealed to be the result of different subjective cognitive processes forming part of the contemporary humanistic paradigm a fact confirmed by new tendencies in contemporary archaeology Consequently this book considers the question how does the archaeologist think today Beginning with simple analogies issued from archaeological experiments or from ethnography the structure of the contemporary archaeological thought is increasingly complex working today with concepts that only yesterday were a subject of study This book considers these new types of approaches through a series of personal narratives provided by archaeologists describing their working methods in the process of imagining the past
