Heitner,2024-04-22 This book examines the names by which we refer to the letters of the English alphabet arguing that these letter names provide unrivalled insights into the phonological structure of English present and past as well as the many peculiarities of English pronunciation and spelling Classified either as contronyms ambonyms or tautonyms the modern phonological profiles of our ancient Semitic letter names reveal what is unique to English what is fundamental to language and how letter names emerge as the semiotic product of interchanging languages combined with intralanguage change This volume promises a much more extensive and deeper linguistic treatment of English letter names than has previously been attempted It will be of particular interest to students and scholars of historical linguistics phonology and orthography the history of English semiotics and language and literacy teaching Rabelais's Carnival Samuel Kinser,2024-03-29 How is it possible after four centuries that a major episode in

Rabelais's novels remain systematically misread. The episode which playfully and grotesquely treats the relation of Carnival to Lent occurs in Rabelais's Fourth Book, his last and most artfully crafted novel. Samuel Kinser argues that the text has been distorted because critics have not attended to the episode's performative as well as literary contexts, overlooking the innovative use Rabelais made in his work of his immediate world. In this original interpretation of the Fourth Book, Kinser evokes the gestures, games, and visual/oral bodily semantics of Carnival and Lent as they were performed in Rabelais's day. He also underscores the importance to Rabelais of the invention of printing, an innovation which revolutionized the relationships of author and reader. Understanding this and fearing it, Rabelais adopted an extraordinary set of disguises as an author, disguises which in their bewildering interplay constitute the truest sense of his carnival. On the Death of the Pilgrim: The Postcolonial Hermeneutics of Jarava Lal Mehta Thomas B. Ellis, 2012-11-28 This searching examination of the life and philosophy of the twentieth-century Indian intellectual Jarava Lal Mehta details, among other things, his engagement with the oeuvres of Martin Heidegger, Hans Georg Gadamer, and Jacques Derrida. It shows how Mehta's sense of

cross cultural philosophy and religious thought were affected by these engagements and maps the two key contributions Mehta made to the sum of human ideas First Mehta outlined what the author dubs a postcolonial hermeneutics that uses the ethnotrope of the pilgrim to challenge the philosophical hermeneutic emphasis on supplementation and augmentation For Mehta the hermeneutic encounter ruptures rather than supplements the self Secondly Mehta extended this concept of hermeneutics to interrogate the Hindu tradition arriving at the concept of the negative messianic In contrast to Derrida s emphasis on the one to come Mehta shows how the Hindu bhakti model represents the very opposite that is the withdrawn other identifying thereby the ethical pitfalls of deconstructivism s emphasis on the messianic tradition This is the only full length study in English of this high profile Hindu philosopher *January 15, 28, 29, 30; February 3, 4, and 5, 1969* United States.
