Gorski,Nana Osei-Kofi,Jeff Sapp,Kristien Zenkov,2023-07-03 Frustrated by the challenge of opening teacher education students to a genuine understanding of the social justice concepts vital for creating an equitable learning environment Do your students ever resist accepting that lesbian gay bisexual transgender or queer people experience bias or oppression or that their experiences even belong in a conversation about diversity multiculturalism or social justice Recognizing these are common experiences for teacher educators the contributors to this book present their struggles and achievements in developing approaches that have successfully guided students to complex understandings of such threshold concepts as White privilege homophobia and heteronormativity overcoming the bottlenecks that impede progress toward bigger learning goals and understandings The authors initiate a conversation one largely absent in the social justice education literature and the discourse about the common content and pedagogy related challenges that social justice educators face in their work particularly for those doing this work in relative or literal isolation where collegial understanding cannot be found down the hall or around the corner In doing so they hope not only to help individual teachers in their practice but also strengthen social justice teacher education more systemically Each contributor identifies a learning bottleneck related to one or two specific threshold concepts that they have struggled to help their students learn Each chapter is a narrative about individual efforts toward sometimes profound pedagogical adjustment about ambiguity and cognitive dissonance and resistance about trial and error and about how these educators found ways to facilitate foundational social justice learning among a diversity of education students Although this is not intended to be a how to manual or to provide five easy steps to enable straight students to get heteronormativity each chapter does describe practical strategies that teachers might adapt as part of their own practice **Note from Your Teacher (eBook)** Kimberly Colen,1995-03-01 More than 450 messages to help you communicate effectively with students parents and administrators Outstanding NEW messages for report cards and assessments also requests invitations thank yous notes of encouragement letters about discipline and much more **ENC Focus** ,2002 Teacher Education: Concepts, Methodologies, Tools, and

Establishing a Yearlong Teacher Residency Christopher J. Sloan, Sarah Beal, 2024-09-23 This book outlines a model

for a teacher residency and how to establish a yearlong residency within an educator preparation program. It describes the four-year experiences of stakeholders at Tarleton State University but can be used as a step-by-step guide in whole or in part to transforming teacher preparation at any university. After a brief description of the traditional clinical model and why a university may look to make a change, the book offers a roadmap for the entire process of moving to a residency model. The chapters provide detailed explanations of how to build mutually beneficial partnerships with school districts, utilize co-teaching models, and create revised roles for cooperating teachers, teacher residents, university and district leaders, and site coordinators. Contributing authors also cover change processes, successes and failures, funding models, scaling, sustainability, data collection, and evidence of effectiveness. Based on Tarleton's recognition as one of the fastest scaling residency programs and most complete transformations to date, the tools presented offer any teacher prep program the opportunity to make the leap to a residency model. This resource is also ideal for school district leaders seeking guidance on building or enhancing existing partnerships with universities and for in-service teachers interested in discovering new co-teaching models.
