Birdwatching For The Under Tens:

Birdwatching for the Under Tens Bill Oddie,1991-01-01 Ten Thousand Birds Tim Birkhead,Jo Wimpenny,Bob Montgomerie,2014-02-16 A beautifully illustrated history of modern ornithology *Ten Thousand Birds* provides a thoroughly engaging and authoritative history of modern ornithology tracing how the study of birds has been shaped by a succession of visionary and often controversial personalities and by the unique social and scientific contexts in which these extraordinary individuals worked This beautifully illustrated book opens in the middle of the nineteenth century when ornithology was a museum based discipline focused almost exclusively on the anatomy taxonomy and classification of dead birds It describes how in the early 1900s pioneering individuals such as Erwin Stresemann Ernst Mayr and Julian Huxley recognized the importance of studying live birds in the field and how this shift thrust ornithology into the mainstream of the biological sciences The book tells the stories of eccentrics like Colonel Richard Meinertzhagen a pathological liar who stole specimens from museums and quite likely murdered his wife and describes the breathtaking insights and discoveries of ambitious and influential figures such as David Lack Niko Tinbergen Robert MacArthur and others who through their studies of birds transformed entire fields of biology *Ten Thousand Birds* brings this history vividly to life through the work and achievements of those who advanced the field Drawing on a wealth of archival material and in depth interviews this fascinating book reveals how research on birds has contributed more to our understanding of animal biology than the study of just about any other group of organisms **Birding** ,1992 **Best 100 Birdwatching Sites in Australia** Sue Taylor,2013-10-01 Where can you see 400 000 breeding pairs of rockhopper penguins Where is the best place in Australia to observe Yellow Chats And where is the only place in Australia you can have a close encounter with nesting Lesser Noddies Well known birder and author of *How Many Birds Is That* Why Watch Birds and John Gould s *Extinct and Endangered Birds of Australia* Sue Taylor will make you want to pack your binoculars and hit the road as she takes you on a tour of her top 100 Australian birdwatching sites from suburban parks to remote off shore islands British Birds ,1992 Birdwatching in Maine Derek J. Lovitch,2024-02-12 This book fills an important niche for the birdwatching community by offering comprehensive entries detailing the best locations for finding birds throughout the state for enthusiasts of all levels of skill and interest It contains descriptions of 201 birding sites in Maine with explicit directions on how to get there for all sixteen of the state s counties several as large as other New England states Each chapter features a county map a brief overview by Derek J Lovitch numerous specific site guides and a list of rarities The book also contains a detailed and useful species accounts guide for finding the most sought after birds **Who's who in Ornithology** John E. Pemberton,1997 **Ten Thousand Campfires** Rex Ellis,2012 You have probably seen Rex Ellis on TV He is constantly turning up on the box with his team of camels and his adventurous urban guests hanging on for dear life somewhere in the sandy wastes of the Red Heart maybe near Birdsville Or traversing Lake Eyre full of water and pelicans in his beloved tinny Rex lives a nomadic desert life out there that you and I

can only dream about For a desert wanderer he is pretty talkative and has a mad sense of humour but when he does do his block with a recalcitrant safari guest or a stubborn camel he gets volcanic Ellis has the knack of extracting the ridiculous or the absurd essence wherever he travels He is an observer of the human condition and focuses by inclination on the farcical Perhaps his lifetime of observing outback wildlife gives him an excellent basis for a comparative study of crazy human behaviour He has always taken paying guests on his outback adventures and his colourful and varied descriptions of their shenanigans will bring great satisfaction to the superior armchair adventurer And of course every evening there is the campfire Ellis sees the campfire as the quintessence of the freedom of the outback the relaxation after a hard day s yakka the yarn spinning the chai yacking and the camaraderie that develops so easily while you all stare at the mysterious inspiring flames rather than at a mind deadening TV set This is the very essence of outback travelling and Ellis s highly emotional introduction leaves no doubt about the way he feels about these magic evenings So folks it s still not too late If you can t get out there straightaway then read the book *Ten Thousand Campfires* leaves no doubt that there is still plenty of the real old fashioned Australia in the Red Heart and it is pretty easy to distinguish it from what the author refers to as the sanitized metropolitan Australia

Birding at Point Pelee Henrietta O'Neill, 2006-10-03 A birder s history of one of Canada s most famous birding spots Birding at Point Pelee traces Point Pelee s story from the 1870s to the national park s establishment in 1918 to present day when as many as 50 000 birders visit the park in May during spring migration The book portrays the backdrop against which the park was evolving the scientific discoveries and changes in ornithological methods through the decades early specimen collecting bird banding the development of binoculars and telescopes the growth of nature photography the shift from birding as science to birding as hobby as well as philosophical shifts and debates about amateur versus professional credentials and the balance to strike between conservation and recreation Thoroughly researched and lively the story takes readers from the earliest days when the birders were few but fervent to today s international tourism phenomenon
