Nathan Birnbaum and Jewish Modernity Jess Olson,2013-01-09 This book explores the life and thought of one of the most important but least known figures in early Zionism Nathan Birnbaum Now remembered mainly for his coinage of the word Zionism Birnbaum was a towering figure in early Jewish nationalism Because of his unusual intellectual trajectory however he has been written out of Jewish history In the middle of his life in the depth of World War I Birnbaum left his venerable position as a secular Jewish nationalist for religious Orthodoxy an unheard of decision in his time To the dismay of

his former colleagues he adopted a life of strict religiosity and was embraced as a leader in the young growing world of Orthodox political activism in the interwar period one of the most successful and powerful movements in interwar central and eastern Europe Jess Olson brings to light documents from one of the most complete archives of Jewish nationalism the Nathan and Solomon Birnbaum Family Archives including materials previously unknown in the study of Zionism Yiddish based Jewish nationalism and the history of Orthodoxy This book is an important meditation on the complexities of Jewish political and intellectual life in the most tumultuous period of European Jewish history especially of the interplay of national political and religious identity in the life of one of its most fascinating figures

Slavic Prosody Christina Y. Bethin, 1998-07-13 In Slavic Prosody first published in 1998 Professor Bethin gives a coherent account of the Slavic languages at the time of their differentiation and relates these developments to issues in phonological theory First Professor Bethin argues that the syllable structure of Slavic changed before the fall of the jers and suggests that intrasyllabic and intersyllabic reorganization in Late Common Slavic was far more significant for Slavic prosody than the loss of weak jers She then makes a case for the existence of a bisyllabic prosodic domain in Late Common Slavic and trochaic metrical organization Finally she explores the implications of Slavic data for phonological theory discussing sonority skeletal structure the representation of length and prominence and language typology in some detail

Economic Governance and the Challenge of Flexibility in East Asia Frederic C. Deyo, Richard F. Doner, Eric Hershberg, 2002-05-30 This book analyzes the institutional underpinnings of East Asia's dynamic growth by exploring the interplay between governance and flexibility As the challenges of promoting and sustaining economic growth become ever more complex firms in both advanced and industrializing countries face constant pressures for change from markets and technology Globalization heightened competition and shorter product cycles mean that markets are increasingly volatile and fragmented To contend with demands for higher quality quicker delivery and cost efficiencies firms must enhance their capability to innovate and diversify Achieving this flexibility in turn often requires new forms of governance arrangements that facilitate the exchange of resources among diverse yet interdependent economic actors Moving beyond the literature's emphasis on developed economies this volume emphasizes the relevance of the links between governance and flexibility for understanding East Asia's explosive economic growth over

the past quarter century In case studies that encompass a variety of key industrial sectors and countries the contributors emphasize the importance of network patterns of governance for facilitating flexibility in firms throughout the region Their analyses illuminate both the strengths and limitations of recent growth strategies and offer insights into prospects for continued expansion in the wake of the East Asian economic crisis of the late 1990s Contributions by Richard P Appelbaum Lu lin Cheng Stephen W K Chiu Frederic C Deyo Richard F Doner Dieter Ernst Eric Hershberg Tai Lok Lui Rajah Rasiah David A Smith and Poh Kam Wong **Environmental Health Perspectives** ,1994 *History of the Literary Cultures of East-Central Europe* Marcel Cornis-Pope,John Neubauer,2007-07-18 The third volume in the History of the Literary Cultures of East Central Europe focuses on the making and remaking of those institutional structures that engender and regulate the creation distribution and reception of literature The focus here is not so much on shared institutions but rather on such region wide analogous institutional processes as the national awakening the modernist opening and the communist regimentation the canonization of texts and censorship of literature These processes which took place in all of the region s cultures were often asynchronous and subjected to different local conditions The volume s premise is that the national awakening and institutionalization of literature were symbiotically interrelated in East Central Europe Each national awakening involves a language renewal an introduction of the vernacular and its literature in schools and universities the creation of an infrastructure for the publication of books and journals clashes with censorship the founding of national academies libraries and theaters a re construction of national folklore and the writing of histories of the vernacular literature The four parts of this volume are titled 1 Publishing and Censorship 2 Theater as a Literary Institution 3 Forging Primal Pasts The Uses of Folk Poetry and 4 Literary Histories Itineraries of National Self images Power, Money, and Media Jinqian Li,2000 This text explores a broad range of media related topics as they pertain to China The chapters provide detailed analyses of such issues as the increasing influence of advertisers the efforts of the Communist party to direct editorial content and the impact of Hong Kong television on Guanggzhou *Identity by Design* Georgia Butina-Watson,Ian Bentley,2007-06-07 In a world of increasing globalisation where one high street becomes interchangeable with the next Identity by Design addresses the idea of place making and the concept of identity looking at how these things can be considered as an integral part of the design process Structured around a series of case studies including Prague Mexico Malaysia and Boston the authors discuss an array of design approaches to explain and define the complex interrelated concepts The concluding sections of the book suggest ideas for practical application in future design processes With full colour images throughout this book takes the discussion of place identity to the next level and will be valuable reading for all architects urban designers planners and landscape architects
