Bishop And Chapter In Twelfth Century England A Study Of The Mensa Episcopalis:

Bishop and Chapter in Twelfth-Century England Everett U. Crosby, 2003-10-30 This book is the first detailed examination on a comparative basis of the economic and political relations between the bishops and their cathedral clergy in England during the century and a half after the Conquest In particular it is a study of the structure and historical development of the mensal endowments and the redistribution of wealth which led in the course of time to the establishment of the chapter as a largely independent body with substantial political power A description of the constitutional importance of the mensa and its treatment in recent scholarly writing is followed by a discussion of property rights and liberties in the church and the role of the bishop in ecclesiastical and civil government The core of the book consists of an analysis based on contemporary sources of the episcopal and capitular organisation in each of the ten monastic and seven secular sees *Uncertain Refuge*

Elizabeth Allen, 2021-10-22 An examination of sanctuary seeking in the literature of medieval England between the twelfth and the seventeenth centuries **Cities, Texts and Social Networks, 400-1500** Caroline Goodson, Anne E. Lester, Carol Symes, 2017-05-15 Cities Texts and Social Networks examines the experiences of urban life from late antiquity through the close of the fifteenth century in regions ranging from late Imperial Rome to Muslim Syria Iraq and al Andalus England the territories of medieval Francia Flanders the Low Countries Italy and Germany Together the volume s contributors move beyond attempts to define the city in purely legal economic or religious terms Instead they focus on modes of organisation representation and identity formation that shaped the ways urban spaces were called into being used and perceived Their interdisciplinary analyses place narrative and archival sources in communication with topography the built environment and evidence of sensory stimuli in order to capture sights sounds physical proximities and power structures Paying close attention to the delineation of public and private spaces and secular and sacred precincts each chapter explores the workings of power and urban discourse and their effects on the making of meaning The volume as a whole engages theoretical discussions of urban space its production consumption memory and meaning which too frequently misrepresent the evidence of the Middle Ages It argues that the construction and use of medieval urban spaces could foster the emergence of medieval public spheres that were fundamental components and by products of pre modern urban life The resulting collection contributes to longstanding debates among historians while tackling fundamental questions regarding medieval society and the ways it is understood today Many of these questions will resonate with scholars of postcolonial or non Western cultures whose sources and cities have been similarly marginalized in discussions of urban space and experience And because these essays reflect a considerable geographical temporal and methodological scope they model approaches to the study of urban history that will interest a wide range of readers Hereford Cathedral Gerarld Alymer, 2000-07-07 Unique in its possession of a chained library and of the Mappa Mundi Hereford Cathedral is remarkable for its architecture its long history and its musical tradition Hereford Cathedral is the definitive account of its history from Anglo Saxon times to the present and of its

architecture fittings musical tradition archives and library Substantial parts of the structure date from Norman times but the building has been modified in many ways over the years In the middle ages Hereford was the centre of pilgrimage to the shrine of St Thomas Cantilupe bishop of Hereford d 1282 It survived the Reformation relatively intact but was damaged during the Civil War Its west end collapsed disastrously in 1786 leading to the renewal and reworking of the exterior by James Wyatt Little was changed in the interior until the striking Victorian rationalisation by George Gilbert Scott The Afterlife of St Cuthbert Christiania Whitehead,2020-12-17 This book surveys the textual representation of Cuthbert the premier northern English saint from the seventh to fifteenth centuries *Cathedrals, Communities and Conflict in the Anglo-Norman World* Paul Dalton,Charles Insley,Louise J. Wilkinson,2011 The true importance of cathedrals during the Anglo Norman period is here brought out through an examination of the most important aspects of their history Cathedrals dominated the ecclesiastical and physical landscape of the British Isles and Normandy in the middle ages yet in comparison with the history of monasteries theirs has received significantly less attention This volume helps to redress the balance by examining major themes in their development between the eleventh and thirteenth centuries These include the composition life corporate identity and memory of cathedral communities the relationships sometimes supportive sometimes conflicting that they had with kings e g King John aristocracies and neighbouring urban and religious communities the importance of cathedrals as centres of lordship and patronage their role in promoting and utilizing saints cults e g that of St Thomas Becket episcopal relations and the involvement of cathedrals in religious and political conflicts and in the settlement of disputes A critical introduction locates medieval cathedrals in space and time and against a backdrop of wider ecclesiastical change in the period Contributors Paul Dalton Charles Insley Louise J Wilkinson Ann Williams C P Lewis RichardAllen John Reuben Davies Thomas Roche Stephen Marritt Michael Staunton Sheila Sweetinburgh Paul Webster Nicholas Vincent

Constructing History Across the Norman Conquest Francesca Tinti,David A. Woodman,2022 An investigation into the hugely significant works produced by the Worcester foundation at a period of turmoil and change From the mid eleventh to the mid twelfth century Worcester was a monastic community of unparalleled importance Not only was it home to many of the most famous bishops and monks of the period including Bishop Wulfstan II it was also a centre of notable and ambitious scholarly production Under Wulfstan s guidance a number of Worcester brethren undertook historical research that resulted in the writing of such renowned texts as Hemming s Cartulary and the Worcester Chronica Chronicarum Significantly these historical endeavours spanned the political chasm of the Norman Conquest The essays collected here aim to shed new light on different aspects of the Worcester historical workshop whose literary output was in several respects pioneering in contemporary European scholarship Several chapters address the different ways in which the monks organised and updated their archives of documents both via their sequence of cartularies with a special focus on the narrative parts of Hemming s Cartulary and via an interesting and previously unedited prose account of the foundation of the see Others focus on the

famous Worcester Chronica Chronicarum attributed both to Florence and to John investigating the major model for its composition and structure the work of Marianus Scotus the stages in which it was completed and its connections with Welsh chronicles as well as the related and fascinating abbreviated version written mostly in the hand of John himself and known as the Chronicula The volume thus elucidates how the Worcester monks navigated the period across the Conquest through the composition of different genres of texts and how these texts shaped their own institutional memory

Making Agreements in Medieval Catalonia Adam J. Kosto, 2001-05-03 This study examines the role of written agreements in eleventh and twelfth century Catalonia and how they determined the social and political order By tracing the fate of these agreements or convenientiae from their first appearance to the late twelfth century it is possible to demonstrate the remarkable stability of the fluid structures which they engendered in what is generally thought of as feudal society The process of documentary change reveals the true nature and pace of the transformation of the year 1000 Analysis of the convenientia as an instrument of power and its interaction with oral practices contributes to a deeper understanding of the role of the written word in medieval societies Finally a broad historiographical context establishes the significance of this study of Catalonia for a more general appreciation of the medieval Mediterranean world

God's Peace and King's Peace Bruce R. O'Brien, 2015-08-12 Sometime before the middle of the twelfth century an anonymous English writer composed the Leges Edwardi a treatise purporting to contain the laws that had been in force under the Anglo Saxon King Edward the Confessor 1042-1066 cousin of William the Conqueror The laws were said to have been spoken to William shortly after the Conquest by English nobles who were wise men and learned in their law recounting the rules of their laws and customs for the invading Norman king When they had finished the king wondered whether it might not be better for all of them to live under the law of his Viking ancestors the English however protested that they preferred to live by their own pre-conquest laws The king acquiesced and thus goes the story were the laws of King Edward the Confessor authorized Looking through the lens of this important if spurious treatise God's Peace and King's Peace offers the first ground level view of English law

during the century in which the common law was born Bruce R O Brien compares the Leges Edwardi to other memorials of legal policy and practice from before and after 1066 in both Normandy and England and advances conclusions about the treatises reliability on specific points of law He also shows how the Laws of Edward the Confessor taken as a record of English law at the conquest came to be used as authoritative evidence behind the Magna Carta that the king was under the law and how it was eventually declared a notorious forgery by seventeenth century antiquaries and Enlightenment historians
