Bishop Goes To The University:

The Bishop Goes to the University Andrew M. Greeley, 2025-08-22 The irrepressible Bishop Blackwood Ryan returns as his Cardinal dispatches Blackie to The University on the South Side of Chicago to investigate a baffling locked room mystery Someone has assassinated a Russian Orthodox monk in his office at the Divinity School despite the fact that the door of his office was bolted shut from the inside and no killer was found within Who shot Brother Semyon Ivanovich Popov There were only four professors in the building on the night of the shooting a feminist theologian a distinguished scripture scholar an expert on the Talmud and a young tenure seeking professor whom Blackie compares to a silverback gorilla It turns out that the mystery of the locked room is simple compared to the international intrigue that swiftly develops around the case Intelligence agents from diverse nations seem to be involved as well as both the Sicilian and Russian mobs Blackie soon finds himself the target of threats and actual bullets as he seeks to unravel the deepening mystery surrounding the murdered monk whose murky secrets may stretch all the way to the Vatican itself Murder is more than academic in yet another delightful whodunit by one of America's most popular storytellers At the Publisher's request this title is being sold without Digital Rights Management Software DRM applied **Falling into Grace: the Fiction of Andrew Greeley** R. W.

Carstens, 2008-10-07 *Falling into Grace* is a study of Andrew Greeley's fiction and the message behind his words revealing many timeless political and theological ideas Professor R W Carstens shares the findings of his deep exploration into Greeley's novels as evidence of a set of ancient values and key political ideas that are needed today more than ever As a great storyteller Greeley's message is significant that grace sustains us unites us comforts us and sometimes overwhelms us but it is also evidence of our freedom Carstens' careful examination into the deeper meaning behind the stories demonstrates that Greeley's characters and the world in which they live portray life as acts of faith hope and love and prove that God is alive and well in the hearts of many in the world As Carstens discusses Greeley's imagination and his political and theological concepts he develops his own theories about how these ideas can be applied in today's world by creating freedom limiting authority and building communities where people are united by common goals In the end Carstens' study demonstrates that Greeley's fiction shows us a way to go home to the images that appeal to the best in us and therefore tell us what might be

Bishop's University, 1843-1970 Christopher Nicholl, *Bishop's University*, 1994 In this detailed and revealing chronicle Christopher Nicholl brings his experience as principal of Bishop's to the task of recounting the university's development from its founding as an Anglican college in 1843 to its battle for survival amid the radical reforms introduced into Quebec's system of higher education during the 1960s *Going the Distance* David R. Jarraway, 2003-01-01 This bold new theoretical study explores dissident subjectivity that is the struggle for unique authorial identity in American literary discourse that has existed according to David Jarraway since the Romantics From Emerson's *Experience* remarking upon the focal distance within the actual horizon of human life to Toni Morrison's Nobel Prize address sanctifying the artist's sophisticated privileged space

American literature has continuously recognized a necessary distance the gap between culturally accepted ideas of selfhood and the intractable reality of the self's never completed construction in time Jarraway's fascinating examination of modernist poets shows that engaging with this artistic space or going the distance empowers writers and their readers to create and perceive identities that resist the frozen certainties of conventional gender sexual and social roles Employing this theory with grace and precision Jarraway ranges through the dissident process in Gertrude Stein the cultural criticism of William Carlos Williams the deferred racialism of Langston Hughes the queer perversities of Frank O'Hara and the spectral lesbian poetics of Elizabeth Bishop Bolstered further by insights from the pragmatism of William James through the cultural critique of Theodor Adorno to the queer theory of Judith Butler the author challenges his audience with politically engaged insistence on the life affirming potentialities of human subjectivity in literature His passionate conclusion demonstrates the liberating fluidity of self made possible by feminist chartings of modern identity's depths Lucidly composed theoretically sophisticated and up to the minute *Going the Distance* painstakingly recovers the dissident American subjective in modernist literary discourse within its fullest cultural context Jarraway's readings are a major contribution to poetry scholarship and to cultural studies that will provoke further investigations into the history of subjectivity in American literature as a whole

A Shark Going Inland Is My Chief Patrick Vinton Kirch, 2012-08-06 Tracing the origins of the Hawaiians and other Polynesians back to the shores of the South China Sea archaeologist Patrick Vinton Kirch follows their voyages of discovery across the Pacific in this fascinating history of Hawaiian culture from about one thousand years ago Combining more than four decades of his own research with Native Hawaiian oral traditions and the evidence of archaeology Kirch puts a human face on the gradual rise to power of the Hawaiian god kings who by the late eighteenth century were locked in a series of wars for ultimate control of the entire archipelago This lively accessible chronicle works back from Captain James Cook's encounter with the pristine kingdom in 1778 when the British explorers encountered an island civilization governed by rulers who could not be gazed upon by common people Interweaving anecdotes from his own widespread travel and extensive archaeological investigations into the broader historical narrative Kirch shows how the early Polynesian settlers of Hawai'i adapted to this new island landscape
