Schechner, Willa Appel, 1990-05-25 The field of performance studies embraces performance behaviour of all kinds and in all contexts from everyday life to high ceremony. This volume investigates a wide range of performance behaviour: dance, ritual, conflict, situation, sports, storytelling and display behaviour in a variety of circumstances and cultures. It considers such issues as the relationship between training and the finished performance, whether performance behaviour is universal or culturally specific, and the relationships between ritual, aesthetics, popular entertainment and religion, and sports and theatre and dance. The volume brings together essays from leading anthropologists, artists and performance theorists to provide a definitive introduction to the burgeoning field of performance studies. It will be of value to scholars, teachers and students of anthropology, theatre, folklore, semiotics and performance studies. *2025-26 RRB JE Electronics & Allied Engineering Study Material* 496 995 E.
