join the birds in their aerial ballet Turtles talked about the amazing places they could visit if they had wings and the amazing things that were beyond the woods and meadows They fantasized about how exciting it would be to see the world from above how free it would be to fly and all the exciting things that would happen in the sky That they all had the same dream brought them together and gave their daily lives more meaning and energy Even though there were clear problems the Green Meadows turtles kept going after their dream Even though they would never be able to fly like birds they thought there might be other ways for them to feel like they were flying The trip of a lifetime began with this thought this glimmer of hope It pushed them to be creative think outside the box and go on a trip that would test their skills and show how powerful friendship determination and the unwavering spirit of a dreamer can be It was clear to the turtles that their trip would be hard but they were ready to face the problems together Before their dream of flying had been just a fantasy Now it was going to come true and everyone in Green Meadows would be inspired Chapter 2 The Idea In the middle of the calm and lively Green Meadows a young turtle named Timmy found something that got his friends really excited Dreams were blowing around like leaves in the wind On a normal day with normal trips and events Timmy s sharp eyes saw something out of the ordinary He discovered an old worn out book tucked away under a thick layer of lush plants and next to the roots of an old oak tree This book was different from all the others because it was full of pictures of planes stories about people going around the world and stories about the sky Timmy s big interested eyes couldn t believe what he was seeing He asked himself out loud What if we could fly too His voice was full of wonder and hunger The turtles responded with great excitement to the simple but deep question At first the idea seemed silly or even impossible How could animals that move so slowly and have such heavy bodies hope to fly But the more they thought about it the more likely it seemed that it could be done The old book turned out to be a valuable find that gave them motivation and hope As they crowded around it their heads were full of ideas and possibilities The dream of flying which had always seemed just out of reach became real all of a sudden It took a lot of guts and determination for them to start working on building experimental planes that would let them fly When I made this choice the beginning of an amazing journey began The turtles worked together to reach a shared goal Each turtle had its own special skills and abilities They read the whole book and learned about aerodynamics designing airplanes and how they work during flying They used what they found in the woods and fields to make a workshop Very carefully pieces of sticks leaves and even petals were gathered possibly to use as parts of their flying designs
