Improving Teaching, Learning, Equity, and Success in Gateway Courses Andrew K. Koch,2018-01-24 Gateway courses college credit bearing and or developmental education courses that enroll large numbers of students and have high rates of Ds Fs withdrawals and incompletes are a ubiquitous part of the undergraduate experience in the United States As long as there have been U S colleges and universities there have been entry courses that pose difficulties for students courses that have served more as weeding out rather than gearing up experiences for undergraduates This volume makes the case that the weed out dynamic is no longer acceptable if it ever was Contemporary postsecondary education is characterized by vastly expanded access for historically underserved populations of students and this new level of access is coupled with increased scrutiny of retention and graduation outcomes Chapters in this volume define and explore issues in gateway courses and provide various examples of how to improve teaching learning and outcomes in these foundational components of the undergraduate experience Back cover **Transforming the Gateway Course Experience** Andrew K. Koch,2024-12-13

Serving as a call to action for educators to recognize and address inequities in gateway courses this book offers an evidence based model for improving teaching learning and student success within the foundational college classroom Gateway courses often reflect broader societal cultural and economic issues this book argues that inequitable outcomes result from specific practices and policies rather than occurring naturally Using data and examples from his work with various colleges and universities Andrew K Koch highlights the systemic issues that perpetuate inequality in higher education He examines how and why race and class divisions are reinforced through current practice and the impact that these courses have on students sense of belonging By giving suggestions for policy changes on how to combat high failure rates and challenging myths such as grade inflation and curve grading this text seeks to critique and ultimately dismantle the toxic culture of weeding out students This accessible book is for any college instructor who wants to transform gateway courses into true opportunities for student success ultimately advancing higher education s broader equity and social justice goals *Launch Courses That Truly Change Lives: Student Results As Your Business Engine* Ahmed Musa,2025-05-31 Courses are everywhere but transformation is rare In an age where anyone can package content into a course real impact is what sets your offer apart Launch Courses That Truly Change Lives is for creators teachers and experts who want to design learning experiences that not only sell but stick This book flips the script on course creation It s not about cramming more into your modules It s about simplifying for clarity guiding for outcomes and building a business model that prioritizes student success above all Because when people get results they talk They refer They come back And that s what drives long term scalable growth You ll learn how to identify the core transformation your audience needs how to build a learning path that removes friction and how to structure your course for completion not just consumption Forget information overload This is about building real learning momentum When your course creates change your business becomes magnetic You don t have to chase testimonials they come to you You don t have to discount it s worth every penny You don t have to guess it works because it s built for outcomes not optics The best marketing for your course isn t ads It s results Course to Cash Leo Jake Collins,2025-04-10 Transform Your Expertise into Evergreen Income In a world where knowledge is power your expertise holds the keys to a prosperous future Imagine turning your skills into a lifelong income creating a legacy that not only enriches your life but also the lives of countless others With Course to Cash Create Once Sell Forever you re invited to step into the thriving world of online courses where your unique insights can generate everlasting financial reward Dive into the realm of online courses with confidence as you explore the foundational elements of creating content that captivates and converts Uncover the secrets to identifying profitable course ideas structuring engaging content and mastering delivery platforms that amplify your reach Each chapter is a treasure trove of strategies tailored to turn your vision into reality making your knowledge an unstoppable force Feel the excitement of launching a course that practically sells itself Discover cutting edge marketing techniques to build anticipation and leverage social media like a pro Navigate the e learning landscape with ease utilizing

automation and analytics tools that transform your course into a well oiled revenue generating machine Whether you re an industry veteran or a curious newcomer this book equips you with the necessary tools to build your brand as an expert and maximize profit Unlock the full potential of your capabilities and take action to create a course that stands the test of time Course to Cash is your ultimate guide to overcoming challenges managing finances and fostering community engagement Aspire to elevate your career by adopting the strategies within these pages and ensure your course content remains fresh relevant and lucrative Make the first move towards lifelong learning and lasting success today *Data Use in the Community College* Linda Serra Hagedorn,2012-05-07 This volume speaks of the multiplicity of data required to tell the community college story The authors explore and detail how various sources workforce data market data state level data federal data and of course institutional data such as transcript files all have something to say about the life of a community college Back cover **Technical Report** ,1953 *EMOOCs 2023* Christoph Meinel,Stefanie Schweiger,Thomas Staubitz,Robert Conrad,Carlos Alario Hoyos,Martin Ebner,Susanna Sancassani,Agnieszka Żur,Christian Friedl,Sherif Halawa,Dilrukshi Gamage,Jeffrey Cross,May Kristine Jonson Carlon,Yves Deville,Michael Gaebel,Carlos Delgado Kloos,Karen von Schmieden,2023-11-14 From June 14 to June 16 2023 Hasso Plattner Institute Potsdam hosted the eighth European MOOC Stakeholder Summit EMOOCs 2023 The pandemic is fortunately over It has once again shown how important digital education is How well prepared a country was could be seen in our schools universities and companies In different countries the problems manifested themselves differently The measures and approaches to solving the problems varied accordingly Digital education whether micro credentials MOOCs blended learning formats or other e learning tools received a major boost EMOOCs 2023 focusses on the effects of this emergency situation How has it affected the development and delivery of MOOCs and other e learning offerings all over Europe Which projects can serve as models for successful digital learning and teaching Which roles can MOOCs and micro credentials bear in the current business transformation Is there a backlash to the routine we knew from pre Corona times Or have many things become firmly established in the meantime e g remote work hybrid conferences etc Furthermore EMOOCs 2023 has a closer look at the development and formalization of digital learning Micro credentials are just the starting point Further steps in this direction would be complete online study programs or full online universities Another main topic is the networking of learning offers and the standardization of formats and metadata Examples of fruitful cooperations are the MOOChub the European MOOC Consortium and the Common Micro Credential Framework The learnings derived from practical experience and research are explored in EMOOCs 2023 in four tracks and additional workshops covering various aspects of this field In this publication we present papers from the conference s Research Experience Track the Business Track and the International Track Department of State News Letter United States. Department of State,1969 **Language MOOCs** Elena Martín-Monje,Elena Bárcena,2015-01-29 Language MOOCs or LMOOCs are dedicated Web based online courses for second languages with unrestricted access and potentially unlimited

participation They are generating interest and expectation in the contexts of university education lifelong learning and online training in general This pioneering book presents an initial analysis of the theoretical and methodological issues underlying LMOOCs and presents empirical evidence of their potential for the development of language communicative competences based upon previously unpublished research It provides a mosaic like view of LMOOC research not only with respect to the geographical and institutional origin of its authors but also to the heterogeneous nature of their respective academic backgrounds and suggests directions for future development As in other types of online language courses the integration of the results of multidisciplinary research projects and teaching experiences related to LMOOCs is fundamental to make the field advance steadily and respond to some of the real challenges and problems faced by individuals working and living in competitive plurilingual societies today   Examining the Impact of Community Colleges on the Global Workforce Jones, Stephanie J.,Smith, Dimitra Jackson,2015-08-04 In an effort to create a more educated workforce in the United States many community colleges are implementing new practices and strategies to assist under prepared students These efforts will ultimately support a stronger and more resilient global workforce Examining the Impact of Community Colleges on the Global Workforce provides relevant theoretical and conceptual frameworks best practices and emerging empirical research about new approaches being employed in community colleges to prepare students for their post collegiate careers Featuring recent initiatives in educational settings this publication is a critical reference source for higher education practitioners policymakers and graduate students in higher education administration programs interested in the innovative practices utilized by community colleges to educate underserved students   **Delivering on the Promise of High-Impact Practices** John Zilvinskis,Jillian Kinzie,Jerry Daday,Ken O'Donnell,Carleen Vande Zande,2023-07-03 Research shows that enriching learning experiences such as learning communities service learning undergraduate research internships and senior culminating experiences collectively known as High Impact Practices HIPs are positively associated with student engagement deep and integrated learning and personal and educational gains for all students particularly for historically underserved students including first generation students and racially minoritized populations While HIPs potential benefits for student learning retention and graduation are recognized and are being increasingly integrated across higher education programs much of that potential remains unrealized and their implementation frequently uneven Colleges are eager to use the HIP nomenclature for recruitment promoting equity for traditionally underserved student populations and preparing lifelong learners and successful professionals However HIPs defy easy categorization or standardized implementation They rely on fidelity quality and consistency being done well to achieve their learning outcomes and above all require attention to access and equity if they are to fulfill their promise of benefitting all student populations equally The goal of Delivering on the Promise of High Impact Practices is to provide examples from around the country of the ways educators are advancing equity promoting fidelity achieving scale and strengthening assessment of their own local high impact practices Its chapters bring

together the best current scholarship methodologies and evidence based practices within the HIPs field illustrating new approaches to faculty professional development culture and coalition building research and assessment and continuous improvement that help institutions understand and extend practices with a demonstrated high impact For proponents and practitioners this book offers perspectives data and critiques to interrogate and improve practice For administrators it provides an understanding of what s needed to deliver the necessary support   *Community College Mathematics* Brian Cafarella,2022-06-29 This book explores the rich history of community college math with a specific focus on gatekeeper math classes Gatekeeper math classes include courses such as college algebra introduction to statistics and all developmental math classes For community colleges successful completion of these classes is imperative for student retention This book presents a decade by decade analysis of the history of community college mathematics The author employs a mix of conceptual empirical and quantitative research The empirical research stems from interviews with 30 community college faculty members from seven community colleges From the 1970s to the pandemic in the early 2020s the book explores math curricula as well as trends initiatives teaching practices and mandates that have impacted community college math The positives and negatives of such trends initiatives and mandates are presented along with suggestions on how to apply such knowledge going forward The author addresses the key questions How can we build a future model for community college gatekeeper math classes that is both successful and sustainable Additionally how can we learn from the past and the present to build such a model This book will be ideal for students in graduate programs focusing on community college leadership or developmental education leadership as well as all those hoping to improve success rates in community college mathematics programs   *Web-Based Education: Learning from Experience* Aggarwal, Anil K.,2002-07-01 Successful use of information and communication technologies depends on usable designs that do not require expensive training accommodate the needs of diverse users and are low cost There is a growing demand and increasing pressure for adopting innovative approaches to the design and delivery of education hence the use of online learning also called E learning as a mode of study This is partly due to the increasing number of learners and the limited resources available to meet a wide range of various needs backgrounds expectations skills levels ages abilities and disabilities The advances of new technology and communications WWW Human Computer Interaction and Multimedia have made it possible to reach out to a bigger audience around the globe By focusing on the issues that have impact on the usability of online learning programs and their implementation Usability Evaluation of Online Learning Programs specifically fills in a gap in this area which is particularly invaluable to practitioners   *Successful Teacher Education: Partnerships, Reflective Practice and the Place of Technology* Mellita Jones,Josephine Ryan,2014-09-11 This volume presents distinctive innovative models of teacher education from Australia discusses their successful elements and considers possibilities for successful teacher education in the twenty first century Each model is couched within the international teacher education concerns of the theory practice nexus school university

partnerships reflective practice and the role of technology The contributing authors drawn from different contexts and locations around Australia each offers research based perspectives on successful teacher education Responses to teacher education challenges in rural and regional contexts metropolitan areas among low socio economic populations and Indigenous communities are considered Ways in which technology and in particular mobile technology can be used to support learning across these diverse contexts are illustrated as is the role of reflective practice to encourage critical reflection for improving teacher learning Collectively the authors present a range of directions that can guide the future of teacher education both nationally and internationally demonstrating that context partnerships reflection and technology are critical elements in the provision of successful teacher education   **15-day course to success** Rodolfo C. Torres,1973

Resources in Education ,2000-10   **Learning Transformed** Eric C. Sheninger,Thomas C. Murray,2017-06-06 With all that we know about how students learn the nature of the world they will face after graduation and the educational inequities that have existed for centuries maintaining a traditional one size fits all approach to teaching and learning is tantamount to instructional malpractice International security the success of global economies and sustainability as a global society all depend on the success of our education system in the years to come It s our obligation to prepare our students for their future not our past Authors Eric C Sheninger and Thomas C Murray outline eight keys each a piece of a puzzle for transforming the K 12 education system of teaching and learning to intentionally design tomorrow s schools so today s learners are prepared for success and stand ready to create new industries find new cures and solve world problems The traditional model of schooling ultimately prepares students for the industrial model of the past If we want our students to become successful citizens in a global society we must dramatically shift to a more personal approach Failure is not an option We can no longer wait Let Learning Transformed show you how you can be a part of the solution The authors encourage you to use the hashtag LT8Keys to continue the discussion online
