The Social Integration of Science Gotthard Bechmann,2009      *Oedipal Experiences in Same-Sex Families* Yifat

Eitan-Persico,2024-04-18 This book updates the Oedipus complex for a contemporary audience in the light of social and cultural changes and explores its implications for psychoanalytic treatment and our understanding of queer families Growing evidence during the past few decades indicates that children who grow up in same sex families adapt well These findings which do not conform to the predictions of Oedipal theory expose the theory's biases and call for reexamination of its premises This book based on ground breaking research and pursues a methodical investigation of the characteristics of the same sex families that defy the expectations of Oedipal theory Furnished with vivid illustrations it invites the reader to engage actively in the interpretive effort and presents a diverse and complex story about kinship opening a window onto a rich world of infantile phantasies and parents psychological conflicts at the fascinating intersection of the personal and the social Oedipal Experiences in Same Sex Families will appeal to psychoanalysts psychotherapists educators and policymakers same sex parents and parents who were assisted by gamete donation      **Introducing the New Sexuality Studies** Steven

Seidman,Nancy L. Fischer,Chet Meeks,2011-02-25 Breaking new ground both substantively and stylistically this book offers students academics and researchers an accessible engaging introduction and overview of the emerging field of sexuality studies      The New Arab Man Marcia C. Inhorn,2012-03-25 Middle Eastern Muslim men have been widely vilified as

terrorists religious zealots and brutal oppressors of women The New Arab Man challenges these stereotypes with the stories of ordinary Middle Eastern men as they struggle to overcome infertility and childlessness through assisted reproduction Drawing on two decades of ethnographic research across the Middle East with hundreds of men from a variety of social and religious backgrounds Marcia Inhorn shows how the new Arab man is self consciously rethinking the patriarchal masculinity of his forefathers and unseating received wisdoms This is especially true in childless Middle Eastern marriages where contrary to popular belief infertility is more common among men than women Inhorn captures the marital moral and material commitments of couples undergoing assisted reproduction revealing how new technologies are transforming their lives and religious sensibilities And she looks at the changing manhood of husbands who undertake transnational egg quests set against the backdrop of war and economic uncertainty out of devotion to the infertile wives they love Trenchant and emotionally gripping The New Arab Man traces the emergence of new masculinities in the Middle East in the era of biotechnology      *Reproduction and Society: Interdisciplinary Readings* Carole Joffe,Jennifer Reich,2014-09-04 A collection of essays framed with original introductions Reproduction and Society Interdisciplinary Readings helps students to think

critically about reproduction as a social phenomenon Divided into six rich and varied sections this book offers students and instructors a broad overview of the social meanings of reproduction and offers opportunities to explore significant questions of how resources are allocated individuals are regulated and how very much is at stake as people and communities aim to determine their own family size and reproductive experiences This is an ideal core text for courses on reproduction sexuality gender the family and public health      Reproduction Reconceived Sara Matthiesen,2021-10-26 The landmark case Roe v Wade helped cement a redefinition of family it is now commonplace for Americans to treat having children as a choice But the historic decision coincided with what would become a decades long trend of widening inequality ensuring that many families still struggle to obtain even basic necessities Reproduction Reconceived examines how family making actually became harder after the arrival of choice as different families confronted incarceration for profit and racist medical care disease poverty and a welfare state in retreat Drawing on diverse archival sources and interviews Sara Matthiesen illustrates how the last fifty years of state neglect have ensured that for most families meaningful choice is nowhere to be found

*Single by Chance, Mothers by Choice* Rosanna Hertz,2006-10 A unique window on the future of the family this book offers a gold mine of insight and reassurance for any woman contemplating having children outside of marriage      Undoing Motherhood Katherine M. Johnson,2023-04-14 In 1978 the world's first test tube baby was born from in vitro fertilization IVF effectively ushering in a paradigm shift for infertility treatment that relied on partially disembodied human reproduction Beyond IVF the ability to extract fertilize and store reproductive cells outside of the human body has created new opportunities for family building but also prompted new conflicts about rights to and control over reproductive cells In collaborative forms of reproduction that build on IVF technologies such as egg and embryo donation and gestational surrogacy multiple women may variously contribute to conception gestation birth and the legal and social responsibilities for rearing a child creating intentionally fragmented maternities Undoing Motherhood examines the implications of such fragmented maternities in the post IVF reproductive era for generating maternity uncertainty an increasing cultural ambiguity about what does and should constitute maternity Undoing Motherhood explores this uncertainty in the social worlds of reproductive medicine and law      **Judaism in Motion** Sibylle Lustenberger,2020-11-17 In Israel where the Orthodox rabbinate wields historically sanctioned influence over the legal definitions of marriage and parenthood same sex parenthood raises important questions such as what constitutes belonging to the national collective who has the authority to define the norms of reproduction and where the boundaries of Orthodox Judaism begin and end Judaism in Motion addresses these questions from a transgenerational perspective that pays heed to how religiously informed rules norms and practices of transferring material properties names and societal belonging are adopted and transformed It presents a detailed ethnographic account of the dynamic interaction between kinship religion and the state that complicates the commonly held assumption that places same sex parenthood in a radically secular sphere that stands in stark opposition to Orthodox Judaism

Taking same sex parenthood as a prism through which society at large is reflected this volume further explores how transformations of societal structures take place and what flexibility and leeway exist in organized religions *Reproductive Politics* Rickie Solinger, 2013-05-09 A concise comprehensive guide to reproductive politics in America **Transnational Reproduction** Daisy Deomampo, 2016-09-27 Public health and assisted reproduction in India Making kinship othering women Egg donation and exotic beauty The making of citizens and parents Physician racism and the commodification of intimacy Medicalized birth and the construction of risk Constrained agency and power in surrogates everyday lives

**Beyond Expectation** Jacquelyne Luce, 2010-01-01 An in depth study of lesbian bi and queer women s experiences of thinking about and trying to become a parent Beyond Expectation draws on eighty two narrative interviews conducted during the late 1990s in British Columbia Jacquelyne Luce chronicles these women s experiences which took place from 1980 to 2000 during a period that saw significant changes to the governance of assisted reproduction and the status of lesbian gay bisexual and transgender parents and same sex partners Beyond Expectation looks closely at the changing contexts in which women s experiences occurred and draws attention to complex issues such as contracting relationships mediating understandings of biology and genetics and decision making amidst various social legal and medical developments Luce skillfully juxtaposes the stories of her interviewees with the wider public discourses about lesbian bi queer parenting and reproductive technology and highlights gaps in existing legislative reforms Most importantly Beyond Expectation foregrounds the lived experiences of lesbian bi and queer women as they negotiate kinship at the intersection of reproduction technology and politics Random Families Rosanna Hertz, Margaret K. Nelson, 2019 The ready availability of donated sperm and eggs has made possible an entirely new form of family Children of the same donor and their families with the help of the internet can now locate each other and make contact Sometimes this network of families form meaningful connections that blossom into longstanding groups and close friendships This book is about unprecedented families that have grown up at the intersection of new reproductive technologies social media and the human desire for belonging Random Families asks Do shared genes make you a family What do couples do when they discover that their children shares half their DNA with a dozen or more other offspring from the same sperm donor What do kids find in common with their donor siblings What becomes of these chance networks once parents and donor siblings find one another Based on over 350 interviews with children ages 10 28 and their parents from all over the U S Random Families chronicles the chain of choices that couples and single mothers make from what donor to use to how to participate or not in donor sibling networks Children reveal their understanding of a donor the donor s spot on the family tree and the meaning of their donor siblings Through rich first person accounts of network membership the book illustrates how these extraordinary relationships woven from bits of online information and shared genetic ties are transformed into new possibilities for kinship Random Families offers down to earth stories from real families to highlight just how truly distinctive these contemporary new forms of family are

**Revolutionizing Women's Healthcare** Hannah Dudley-Shotwell, 2020-03-13 Winner of the 2021 Frances Richardson Keller Sierra Prize from the Western Association of Women Historians WAWH Revolutionizing Women's Healthcare is the story of a feminist experiment the self help movement This movement arose out of women's frustration anger and fear for their health Tired of visiting doctors who saw them as silly little girls suffering shame when they asked for birth control seeking abortions in back alleys and holding little control over their own reproductive lives women took action Feminists created self help groups where they examined each other's bodies and read medical literature They founded and ran clinics wrote books made movies undertook nationwide tours and raided and picketed offending medical institutions Some performed their own abortions Others swore off pharmaceuticals during menopause Lesbian women found at home ways to get pregnant Black women used self help to talk about how systemic racism affected their health Hannah Dudley Shotwell engagingly chronicles these stories and more to showcase the creative ways women came together to do for themselves what the mainstream healthcare system refused to do

Reproductive Disruptions Marcia C. Inhorn, 2007-10-01 Nominated for the 2007 Book Prize by the Council on Anthropology and Reproduction AAA Reproductive disruptions such as infertility pregnancy loss adoption and childhood disability are among the most distressing experiences in people's lives Based on research by leading medical anthropologists from around the world this book examines such issues as local practices detrimental to safe pregnancy and birth conflicting reproductive goals between women and men miscommunications between pregnant women and their genetic counselors cultural anxieties over gamete donation and adoption the contested meanings of abortion cultural critiques of hormone replacement therapy and the globalization of new pharmaceutical and assisted reproductive technologies This breadth with its explicit move from the local to the global from the realm of everyday reproductive practice to international programs and policies illuminates most effectively the workings of power the tensions between women's and men's reproductive agency and various cultural and structural inequalities in reproductive health

Unhitched Judith Stacey, 2011-05-02 A leading expert on the family Judith Stacey is known for her provocative research on mainstream issues Finding herself impatient with increasingly calcified positions taken in the interminable wars over same sex marriage divorce fatherlessness marital fidelity and the like she struck out to profile unfamiliar cultures of contemporary love marriage and family values from around the world Built on bracing original research that spans gay men's intimacies and parenting in this country to plural and non marital forms of family in South Africa and China Unhitched decouples the taken for granted relationships between love marriage and parenthood Countering the one size fits all vision of family values Stacey offers readers a lively in person introduction to these less familiar varieties of intimacy and family and to the social political and economic conditions that buttress and batter them Through compelling stories of real families navigating inescapable personal and political trade offs between desire and domesticity the book undermines popular convictions about family gender and sexuality held on the left right and center Taking on prejudices of both

conservatives and feminists Unhitched poses a powerful empirical challenge to the belief that the nuclear family whether straight or gay is the single best way to meet our needs for intimacy and care Stacey calls on citizens and policy makers to make their peace with the fact that family diversity is here to stay
