Surviving Miscarriage In the Arms of an Angel is my personal and professional journey through miscarriage It is a touching and sensitive look at one woman s journey my journey I am a qualified doctor of clinical psychology who has travelled into the darkness of a world void of understanding about the real anguish of miscarriage and all my training skills and insights did not ease the pain or simplify my experience The effect on my family is captured in diary notes and albums I miss you Xavier you wood sic have bin sic the best brother Love from Lincoln captures the hole left in the lives of existing children siblings of the unborn baby Drawing from my personal experience I invite the reader to meet my unborn babies Emerson Xavier Charlie and Co I share the healing journey that I travelled so that I can survive and comfort other parents in their survival Silent SIDS is a term I coined to capture the societal misconceptions fears and absence of support for families who have lost a baby Miscarriage is likened to the social silence that often surrounds sudden infant death syndrome SIDS in that a baby has died suddenly and from unknown causes and whose death is surrounded by silence the muteness of family and friends society and the medical profession You will hear my husband himself a medical surgeon referring to our baby s corpse as Interesting pathology museum specimen but not our baby I bring the reader face to face with my story of grief and the isolation that surrounded my miscarriage of Xavier s pregnancy in Hong Kong where English was not the first language a trained English speaking Australian obstetrician was near impossible to find in a private hospital and my husband Tony as well as my own private obstetrician were back home in Australia The ugliness of grief is shared in all its nakedness the plea I want to die to be with Xavier the aimless staring without thought or motivation and the horror of tearing the baby in half will tug at the heartstrings of even the toughest of readers And later an embryo is created in the lab Is that science fiction Or is it a desperate willingness to do anything humanly scientifically and medically possible to have a baby The journey through in vitro fertilisation began and six precious cells were made at the start of life An obsessive drive to fill the cavernous aching void in my heart was IVF Then along came the fear of loving William in case he too left me Miscarriage is the startling outcome of one in four pregnancies Why I interrogated God for answers I demanded to know why a baby is created and given only to be torn away I asked if it is some cruel sick joke The professional audience is also invited to view some of the most up to date grief and loss theories to promote a better understanding of the miscarriage experience My intention is that the professional support of women and their families in this situation will become real and meaningful instead of sterile and insensitive Beautiful ideas about gardens and pastel drawings poems and jewellery are offered to women to help them acknowledge their baby bring their baby to life and keep their memory alive Personal photographs and diary entries are shared with the reader to comfort and validate the experience of miscarriage The exclusive club that no one really wants to join because the joining fee your baby has to die is very expensive and has no perks like other clubs no discounts no Christmas party only shared pain and sadness Occasionally though the club s members offer support and comfort to each other and in that regard

it's worth joining if you meet the eligibility criterion The book also provides a special look at how fathers grieve and the difference where women cope by talking and crying and men cope by working and providing practical support **Infertility Counseling** Sharon N.
