Backward Classes The New Social Order:

The Backward Classes and the New Social Order André Beteille, 1981 This Is A Somewhat Expanded Version Of The Paper Presented At The Ambedkar Memorial Lectures In The University Of Bombay In 1980 It Tries To Explore The Implications Of The Position In Society Visualized For The Backward Classes In Our Constitution Cover Slightly Shopsoiled Text Clean Condition Ok Caste, Society and Politics in India from the Eighteenth Century to the Modern Age Susan

Bayly, 2001-02-22 The phenomenon of caste has probably aroused more controversy than any other aspect of Indian life and thought Susan Bayly's cogent and sophisticated analysis explores the emergence of the ideas experiences and practices which gave rise to the so called caste society from the pre colonial period to the end of the twentieth century Using an historical and anthropological approach she frames her analysis within the context of India's dynamic economic and social order interpreting caste not as an essence of Indian culture and civilization but rather as a contingent and variable response to the changes that occurred in the subcontinent's political landscape through the colonial conquest The idea of caste in relation to Western and Indian orientalist thought is also explored **Identity, Gender, and Poverty** Maya

Unnithan-Kumar, 1997 Most studies of the so called tribal communities in India stress their social economic and political differences from communities that are organized on the basis of caste It was this apparent contrast between tribal and caste lifestyle and moreover the paucity of material on tribal groups that motivated the author to undertake this study of a poor tribal community the Girasia in northwestern India While carrying out her fieldwork the author soon became aware that the traditional tribe caste categories needed to be revised in fact she found them more often than not to be constructs by outsiders mostly academic Of greater importance for an understanding of the Girasia was the wider and more complex issue of self perception and identification by others that must be seen in the context of their poverty as well as in the strategic and shifting use of kinship gender and class relations in the region **Dalits Development and Change** Ramesh P.

Mohanty, 2003 Contents Introduction Socio Economic Background of the Study Villages Development Process and Dalits The Bauris Development Impact on the Bauri Beneficiaries Consequential Changes Quality of Life Summary and Conclusion

Constructing Post-Colonial India Sanjay Srivastava, 2005-09-27 An interdisciplinary and engaging book which looks at the nature of Indian society since Independence and unpacks what post colonialism means to Indian citizens Using the case study of the Doon School a famous boarding school for boys and one of the leading educational institutions in India the author argues that to be post colonial in India is to be modern rational secular and urban In placing post colonialism in this concrete social context and analysing how it is constructed the author renders a complex and often rather abstract subject accessible *Population Dynamics in Contemporary South Asia* Anuradha Banerjee, Narayan Chandra Jana, Vinod Kumar Mishra, 2020-03-16 This book discusses the sequential development of population research in India focusing on contemporary issues like demography population studies geography sociology urban studies and many more It describes the problems

related to the underdeveloped regions in India Nepal and Bangladesh and includes tabular representations of the analyzed data as well as visual representations illustrations in the form of graphs and maps Further it features fascinating case studies on primary field research experiences Presenting interdisciplinary contributions the book is divided into four sections the first part examines social issues related to health while the second explores social sustainability lifestyles and cultural aspects The third and fourth sections address migration and quality of life respectively The book is of interest to students studying demography as well as researchers and policymakers in the fields of population studies geography and sociology

The Backward Classes in Contemporary India André Béteille,1992 Should quotas in education and employment be treated as matters of policy and not of right Is the individual or groups of the community the fundamental bearer of rights and capacities Can past disparities be adequately redressed The author begins to address these issues with a sociological critique of the equality provisions in the Constitution of India He argues that the problem is not simply of the contradiction between the principle of equality and the practice of inequality but also of the tensions between divergent concepts of equality He focuses on the problem of balancing the principle of equal opportunities with the principle of redress citing disparities between groups that were such a striking feature of traditional India The author argues that if caste quotas are treated as matters of right and extended indefinitely there will be irreparable damage to institutions such as universities hospitals and banks that are governed by principles that are radically different from those governing the relations between castes

Culture Change in India B. K. Nagla,Kameshwar Choudhary,2024-03-05 This book studies the different dimensions of culture change in India It covers important strands of the ancient and modern intellectual traditions of India and the socio cultural changes that the country underwent during the colonial post independence modernization and globalization periods in the country In this context the authors examine some of the major aspects of culture change observed at the institutional level across the country They also touch upon cultural diversity and multiculturalism in India and Europe as well as the dilemmas faced by diasporic Indians in North America Lucid and topical this book will be an essential read for students and scholars of sociology sociology of culture history political science cultural anthropology Indian sociology social anthropology cultural studies and South Asian studies

Agrawal, Larry R. Symes, 1994 **The Ideology of Religious Studies** Timothy Fitzgerald, 2003-10-16 In recent years there has been an intensifying debate within the religious studies community about the validity of religion as an analytical category In this book Fitzgerald sides with those who argue that the concept of religion itself should be abandoned On the basis of his own research in India and Japan and through a detailed analysis of the use of religion in a wide range of scholarly texts the author maintains that the comparative study of religion is really a form of liberal ecumenical theology By pretending to be a science religion significantly distorts socio cultural analysis He suggest however that religious studies can be re represented in a way which opens up new and productive theoretical connections with anthropology and cultural and literary studies A Panorama of Indian Culture K. the most oppressed Conceived in dialogue with economists Ground Down by Growth reveals the impact of global capitalism on their lives It shows how capitalism entrenches rather than erases social difference and has transformed traditional forms of identity based discrimination into new mechanisms of exploitation and oppression Through studies of the working poor migrant labour and the conjugated oppression of caste tribe region gender and class relations the social inequalities generated by capitalism are exposed

Citizenship and Its Discontents Niraja Gopal Jayal, 2013-02-15 The idea of citizenship in India has evolved from legal status to rights to identity over the past century Early optimism for a true republic of equals is challenged today Once seen as an anomaly India is where every major theoretical debate about citizenship is being enacted and a place no global discussion of citizenship can afford to ignore

Dr. B.R. Ambedkar's Xavier Pfockrehe Mao, Subhash C. Arya, 2021-01-01 Bhim Rao Ambedkar 1891 1956 is undoubtedly one of the greatest personalities of modern India His stupendous contribution to the socio political transformation of the modern Indian societies towards unimaginable greater social inclusion and unprecedented egalitarian social justice is well documented in this book His writings and speeches are a clear reflection of the rational liberal articulation of the centuries of rigidly caste ridden Indian societies His thoughts and ideas on the emancipation of the oppressed castes and class particularly Scheduled Caste and women are powerful inspiration for creative social deconstruction and reconstruction towards liberal just and egalitarian society However his life and message as a monumental contribution to the modern Indian society is not adequately recognized and appreciated Even though Bharat Ratna was conferred on him posthumously but perhaps due to the deep seated caste prejudices he suffered immensely in his lifetime so also even after death subtle biases and prejudices persisted against his works Against this background the book is a tribute for him
