Bad Judgment:

Emerging Perspectives on Judgment and Decision Research Sandra L. Schneider, James Shanteau, 2003-06-16 Table of contents

Making the Best of a Bad Decision Erwin W. Lutzer, 2011-05-18 Maybe you worry you've married the wrong person. Maybe you're carrying the burden of a secret or have gone down a dangerous road. Maybe you've made a life choice that's hurt someone else so badly you feel the relationship can never be restored. But there's good news: you have the opportunity to clear your conscience, make things right with God and others, and get to a place of grace and new beginnings. Join pastor and bestselling author Erwin Lutzer as he shows you how to make the best of even your worst decisions and move forward into a better future.

The Choice Russell Coray, 2012-10 Enter into the life of Robert Murphy as he learns to battle with life-changing issues. Since he styles himself as being a person that has successfully lived a life of serious struggles, when he decides to share his knowledge with other people, he is surprised to find that other people's lives can be filled with challenges that far surpass his own difficulties. Follow Robert as he discovers that he still has a lot to learn to perfect the ability to help other people make choices that he thinks will lead them to happiness. Whatever life situation people have been dealt, Rob decides that happiness may be where it is found but not necessarily where we are looking.

The Violence of Victimhood Diane Enns, 2015-08-06 We know that violence breeds violence. We need look no further than the wars in the western Balkans, the genocide in Rwanda, or the ongoing crisis in Israel and Palestine. But we don't know how to deal with the messy moral and political quandaries that result when victims become perpetrators. When the line between guilt and innocence wavers and we are confronted by the suffering of the victim who turns to violence, judgment may give way to moral relativism or liberal tolerance, compassion to a pity that denies culpability. This is the point of departure in *The Violence of Victimhood*, and the impetus for its call for renewed considerations of responsibility, judgment, compassion, and nonviolent politics. To address her provocative questions, Diane Enns draws on an unusually wide-ranging cast of characters from the fields of feminism, philosophy, peacebuilding, political theory, and psychoanalysis. In the process, she makes an original contribution to each enriching discussion that is otherwise constricted by disciplinary boundaries and an arid distinction between theory and practice.

Healing the Scars of Emotional Abuse Gregory L. Jantz, Ann McMurray, 2009-02 This helpful guide reveals how those who have been emotionally abused can overcome the past and rebuild their self-image.

Petrie,2012-08 Hugh Petrie the author of the chapters in this anthology spent his entire professional life as a philosopher philosopher of education and educational administrator fascinated by the questions of how we learn and how we know what we learn The chapters in this anthology are selected from the articles and book chapters he published during his career They include critiques of behaviorism and its supposed relevance to educational practice analyses of the issues involved with interdisciplinary education the nature of conceptual change the role of metaphor as an essential component in learning anything radically new a thorough going examination of current educational testing dogma and several discussions of the importance of ways of knowing for various educational policy issues The works are informed throughout by the insights of evolutionary epistemology and Perceptual Control Theory These two under appreciated approaches show how an adaptation of thought and action to the demands of the natural and social world explain how learning and coming to know are possible These insights are as relevant today as they were when the chapters were first written **Straight Choices** Ben R. Newell,David A. Lagnado,David R. Shanks,2015-06-12 Should I have this medical treatment or that one Is this computer a better buy than that one Should I invest in shares or keep my money under the bed We all face a perplexing array of decisions every day Thoroughly revised and updated throughout the new edition of Straight Choices provides an integrative account of the psychology of decision making and shows how psychological research can help us understand our uncertain world Straight Choices emphasises the relationship between learning and decision making arguing that the best way to understand how and why decisions are made is in the context of the learning and knowledge acquisition which precedes them and the feedback which follows The mechanisms of learning and the structure of environments in which decisions are made are carefully examined to explore their impact on our choices The authors then consider whether we are all constrained to fall prey to cognitive biases or whether with sufficient exposure we can find optimal decision strategies and improve our decision making Featuring three completely new chapters this edition also contains student friendly overviews and recommended readings in each chapter It will be of interest to students and researchers in cognitive psychology behavioral economics and the decision sciences as well as anyone interested in the nature of decision making Hearings United States.
