Aircrew Memories Collected World War II Memories Of Members Of Aircrew Association:

Aircrew Memories Michael O'Hagan,1999 **Unsung Heroes of the RCAF** Cynthia J. Faryon,2014-02-01 More than 250 000 courageous men and women were enlisted in the Royal Canadian Air Force during World War II These Canadians fought valiantly in every major air operation from the Battle of Britain to the bombing of Germany Thousands lost their lives Those who survived to tell their stories were forever changed Here are some of their incredible stories **The Great Escape** Ted Barris,2013-09-16 One night in 1944 eighty airmen escaped a German POW compound in Poland The event became known as The Great Escape Ted Barris writes of the planners task leaders and key players in the escape attempt those who got away those who didn't and their families at home *Flying against Fate* S. P. MacKenzie,2017-08-04 During World War II Allied casualty rates in the air were high Of the roughly 125 000 who served as aircrew with Bomber Command 59 423 were killed or missing and presumed killed a fatality rate of 45.5% With odds like that it would be no surprise if there were as few atheists in cockpits as there were in foxholes and indeed many airmen faced their dangerous missions with beliefs and rituals ranging from the traditional to the outlandish Military historian S P MacKenzie considers this phenomenon in *Flying against Fate* a pioneering study of the important role that superstition played in combat flier morale among the Allies in World War II Mining a wealth of documents as well as a trove of published and unpublished memoirs and diaries MacKenzie examines the myriad forms combat fliers' superstitions assumed from jinxes to premonitions Most commonly airmen carried amulets or talismans lucky boots or a stuffed toy a coin whose year numbers added up to thirteen counterintuitively a boomerang Some performed rituals or avoided other acts e.g. having a photo taken before a flight Whatever seemed to work was worth sticking with and a heightened risk often meant an upsurge in superstitious thought and behavior MacKenzie delves into behavior analysis studies to help explain the psychology behind much of the behavior he documents not slighting the large cohort of crew members and commanders who demurred He also looks into the ways in which superstitious behavior was tolerated or even encouraged by those in command who saw it as a means of buttressing morale The first in depth exploration of just how varied and deeply felt superstitious beliefs were to tens of thousands of combat fliers *Flying against Fate* expands our understanding of a major aspect of the psychology of war in the air and of World War II **Canadian Books in Print. Author and Title Index** ,1975 **God Bless the Prince of Wales** David Fowler,2008-06-08 *God Bless the Prince of Wales* is the story of the town of Scarborough and the Prince of Wales and other hotels in the town during WWII Hotels were requisitioned to train RAF aircrew Some of the 6 000 aircrew who trained in the town recall their training and what they went on to do Blackouts rationing evacuees queuing for silk stockings young men who rowed across the North Sea to assist our War effort heroism air raids incendiaries injury and death are mentioned and there are many touches of humour Also mentioned is the Lancaster bomber which buzzed the town the Lysander plane which crashed killing both pilots pilot training on Oliver's Mount for clandestine operations bravery and heroism in the air and on

the ground the Resistance in Italy near Monte Cassino and did Hitler really instruct the Luftwaffe not to bomb the Grand Hotel as he wanted to make it his Reich Chancellery had he won the war With 240 pages and many photographs this book is a fascinating read Women Military Pilots of World War II Lois K. Merry, 2014-01-10 More than 2000 women in the United States Great Britain and the Soviet Union flew military airplanes in organized units during World War II yet their stories are largely unknown These pilots ferried aircraft flew targets for ground artillery practice tested airplanes and equipment and many of them flew in combat The women pilots proved that they could manage bombers and fighters as well as their male counterparts and several later remarked that the airplanes didn't care who flew them Topics covered include the training of female pilots how female flight units were developed and structured the hazards of conflict and how these women reintegrated into civilian life following the war **Canadian Books in Print 2002** Edited by Butler Marian, Marian Butler, 2002-02 Containing more than 48000 titles of which approximately 4000 have a 2001 imprint the author and title index is extensively cross referenced It offers a complete directory of Canadian publishers available listing the names and ISBN prefixes as well as the street e mail and web addresses Canadian Books in Print 2002 Marian Butler, 2002-02
