Aitolian Prosopographical Studies:

Aitolian Prosopographical Studies John D. Grainger, 2018-07-17 This aim of this work is to provide part of the basis for the study of a widely misunderstood people of Ancient Greece the Aitolians It is the people of any society who are its constituents and only when we know who they were and what they did can that society be properly investigated By accumulating a list of all known Aitolians their origins parentage their place in the society and any other details discoverable it is possible to reconstitute Aitolian families and to study various sections and aspects of their society The prosopography and the studies based on it form part of the essential background for the author's history of The League of the Aitolians published by Brill earlier in 1999 and they also form a contribution to the study of the society which was Ancient Greece

The League of the Aitolians John D. Grainger, 2018-07-17 The Aitolians have had a bad press regarded as pirates and brigands and their state as a pirate state built on terrorist tactics This book treats them as what they really were a normal Hellenistic state They constructed an original and successful polity which provided peace and prosperity for its inhabitants and played a major part in Greek history for a century and a half The approach is chronological beginning with the origin and formation of the league and its early expansion and then dealing with its long duel with Macedon and concluding with its destruction by Rome This is the first full account of the history of the league which approaches it as an independent state rather than as the enemy of other states and peoples It complements the standard histories of the other Hellenistic states

figures and illustrations are included There is a comprehensive analytical index

The Roman War of Antiochos the Great John D. Grainger, 2017-09-18 This is the first detailed study of the collision of the two greatest powers of the Hellenistic world The Roman Republic victorious over Carthage and Macedon met the Seleukid kingdom which had crushed Ptolemaic Egypt The preliminary diplomatic sparring was complicated by Rome's attempts to control Greece and by the military activities of Antiochos the Great and ended in war Despite well meaning attempts on both sides to avoid and solve disputes areas of disagreement could not be removed Each great power was hounded by the ambitions of its subsidiary clients When the Aitolian League deliberately challenged Rome and Rome seemed not to respond Antiochos moved into Greece to take Rome's place The Roman reaction produced the war and a complex campaign by land and sea resulted in another Roman victory

Josephus and the Politics of Historiography Gottfried Mader, 2017-07-31 Although Josephus debt to the traditions of Greco Roman historiography is widely recognized the classical elements in his *Bellum Judaicum* are still often dismissed as just formal ornatus This study reconsiders Josephus intellectual affiliation to his predecessors in the genre and argues that the work's classical complexion and in particular its distinctive color Thucydideus are integral to the intellectual and ideological design of BJ Deployed typically at crucial points where Josephus deals with the motives of the Jewish insurgents the classical elements directly subserve the work's apologetic and polemical tendencies subtly predisposing the reader to a particular interpretation by applying the rationalist and psychological categories of scientific Greek historiography In this sense the classical form of BJ is interpreted in light of the historian's partisan political agenda

Narrators, Narratees, and Narratives in Ancient Greek Literature René Nünlist, Angus M. Bowie, Irene de Jong, 2017-07-31 This is the first in a series of volumes which together will provide an entirely new history of ancient Greek narrative literature Its organization is formal rather than biographical It traces the history of central narrative devices such as the narrator and his narratees time focalization characterization description speech and plot It offers not only analyses of the handling of such a device by individual authors but also a larger historical perspective on the manner in which it changes over time and is put to different uses by different authors in different genres The first volume lays the foundation for all volumes to come discussing the definition and boundaries of narrative and the roles of its producer the narrator and recipient the narratees

The Orator in Action and Theory in Greece and Rome Cecil Wooten, 2017-09-18 This volume is a collection of essays written by authorities in the field on many aspects of ancient rhetoric These essays deal both with the theory of rhetoric and the practice of oratory and are quite diverse both in tone and audience envisioned Some of them deal with very basic questions such as how good an orator should appear to be others deal with very technical matters such as theoretical considerations of issue theory or figured speeches Some are focussed on the actual practice of oratory in speeches such as those of Cicero and Caesar others deal with manifestations of oratory in historical works such as the *Histories* of Herodotus or reflections on the nature of oratory in works like the *Dialogus* of Tacitus One considers parallel

developments in rhetorical and artistic treatments of the legend of Busiris The Role of the Physical Environment in Ancient Greek Seafaring Jamie Morton, 2017-09-18 In this study of the world of ancient Greek mariners the relationship between the natural environment and the techniques and technology of seafaring is focused upon An initial description of the geology oceanography and meteorology of Greece and the Mediterranean is followed by discussion of the resulting sailing conditions such as physical hazards sea conditions winds and availability of shelter and environmental factors in sailing routes sailing directions and navigational techniques Appendices discuss winter and night sailing ship design weather prediction and related areas of socio maritime life such as settlement religion and warfare Wide ranging sources and illustrations are used to demonstrate both how the environment shaped many of the problems and constraints of seafaring and also that Greek mariners understanding of the environment was instrumental in their development of a highly successful seafaring tradition **A Commentary on Quintus of Smyrna, Posthomeric V** Alan James, Kevin Lee, 2017-09-18 The Posthomeric of Quintus of Smyrna is the only surviving Greek epic that gives a full narrative of the Trojan War between the Iliad and the Odyssey Book V covers the contest between Ajax and Odysseus over the armour of Achilles leading to Ajax madness suicide and funeral The book gives balanced treatment to matters of text language literary qualities and sources An introduction discusses the poem's main features The commentary is punctuated by introductions to sections There are indexes of subjects ancient and mediaeval literature and Greek words The work's major areas of interest are influence of the Homeric epics Quintus use of later sources the Trojan War in Greek and Latin literature and Greek cultural history under the Roman Empire This is the first full length commentary on the book Sophrosyne and the Rhetoric of Self-Restraint Adriaan Rademaker, 2017-07-31 While of paramount importance to Ancient Greek society sophrosyne the value of self restraint constitutes a notoriously complex concept and provides the speaker of Ancient Greek with a subtle instrument for verbal persuasion This study provides a new description of the semantics of sophrosyne in Archaic and Classical Greek based on a model from the field of cognitive linguistics Besides the volume shows how such a semantic description can contribute to the analysis and study of our sources it investigates how speakers in our texts use the term to achieve their ends covering most of the main texts and culminating in a chapter on the dialogues of Plato **Ovid Heroides 11, 13 and 14** James Reeson, 2017-09-18 The volume provides a full literary and textual commentary on three of the verse epistles Heroides by the Roman poet Ovid 43 BC AD 17 the letter of Canace to her brother lover Macareus of Laodamia to the war hero Protesilaus and of Hypermestra to Lynceus the cousin whose life she recently spared These three poems together with the letters of Medea recently the subject of a commentary in the same series and Sappho formed the last of Ovid's three books of heroine letters The introduction discusses Ovid's innovative use both of his sources and of the epistolary form A text with selective apparatus is provided for each of the three poems and the detailed commentary is fully indexed Apollonius of Perga's Conica Michael Fried, Sabetai Unguru, 2017-09-18 This volume takes a new look at one of the greatest works of Hellenistic

mathematics Apollonius of Perga's *Conica* It provides a long overdue alternative to H G Zeuthen's *Die Lehre von den Kegelschnitten im Altertum* The central part of the volume contains a historically sensitive analysis and interpretation of the entire *Conica* both from the standpoint of its individual books and of the text as a whole Particular attention is given to Books V-VII which have had scant treatment until now Two chapters in the volume concern historiographic issues connected with the *Conica* in particular and Greek mathematics in general Although the volume is intended primarily for historians of ancient mathematics its approach is fresh and engaging enough to be of interest also to historians philosophers linguists and open minded mathematicians

The Challenge of Epic Robert Shorrock, 2017-09-18 Nonnus once vied with Homer for popularity today his *Dionysiaca* languishes in obscurity *The Challenge of Epic* offers a literary critical rehabilitation of Nonnus fifth century AD poem It argues that modern neglect stems from a failure to appreciate the central position of allusion in late antique poetry Attention first focuses on intertextual allusion It is argued that the poet draws on a plethora of allusions to the cycle of Greek mythology in order to imbue his specific narrative with a universal significance Focus then shifts to metapoetic allusion the way in which Nonnus alludes self consciously to the process of writing and develops parallels between himself and his subject Dionysus Through an appreciation of Nonnus allusive strategies the modern reader can again engage with the mind bending challenge of the *Dionysiaca*

Oral Performance and Its Context Chris Mackie, 2017-07-31 This volume is concerned with aspects of orality and literacy in the ancient world It arises from the tremendous contemporary interest among scholars in questions of how literacy and orality co exist and interact in the ancient world The contents of the book are refereed papers originally presented at the fifth biennial *Orality and Literacy in ancient Greece* held at The University of Melbourne in 2002 Papers are offered by scholars from Britain the USA Canada and Australia which deal with a range of periods and genres in antiquity from Homer through to Roman literature The book will be of great interest to students and scholars of the ancient world

Valerius Flaccus, Argonautica, Book I Aad Kleywegt, 2017-07-31 This work provides a full commentary on the first book of Valerius Flaccus *Argonautica* an epic which has received increased attention in the last few decades as may be seen from two recent editions 1997 and 2003 Its first aim is to clarify the text which is sometimes rather difficult and in places still not established with certainty Apart from this philological aspect the literary merits of the poem have also been taken into account
