*The Path to Authentic Leadership* Manfred F. R. Kets de Vries,2022-10-10 The unprecedented challenges of today a world wide pandemic climate disruption on a global scale and an economic instability that knows no boundaries require a leadership grounded in a profound and unflinching awareness of our interconnectedness and the existential stakes before us *The Path to Authentic Leadership* frames the dilemmas of leadership within the insights provided by the Ouroboros the mythic snake willing to destroy parts of itself so that it can be renewed Like the Ouroboros today s leaders must be prepared to enter into a dynamic uncertain and ever changing environment with the capacity to reflect adapt let go of what is no longer working and create solutions that are not only renewing but

sustainable Drawing from his decades of training in psychoanalysis and the systems psychodynamic method Kets de Vries discusses the effects of the pandemic in the context of the seven deadly sins the impact of shame evil the lure of charisma and even the perils of procrastination Also he explores the inner theatre of white collar criminals and the super rich He comments on the role of magic in management and the paradoxical role of koans serving as catalysts for change From there he goes on to outline a path toward organizational transformation turning again to the self renewing process presented by the Ouroboros This dynamic is applied to his 7C sequence for organizational transformation Context Confrontation Clarification Crystallization Cascading Consolidation and Continuity Its enactment is brought to life through the story of a troubled CEO and the careful step by step advice offered by an experienced executive consultant Throughout Kets de Vries reminds us that the path to authentic leadership will be meaningless unless it is guided by a deeply held commitment to serve as a force for good

Unfinished Business Julia Staffel, 2025-03-04 Explaining how people reason is central to understanding ourselves as human beings Complex deliberations that take unexpected turns are central to many good detective stories but they are also ubiquitous in everyday life and academic research While philosophers have studied both ends of complex deliberations learning new information and reaching justified conclusions little has been said about our states of mind when we are in the middle of thought Yet this stage of intellectual limbo is where we often produce genuine insight *Unfinished Business* advances a new theory of the transitional stages of complex deliberation integrating theoretical research in philosophy with empirical results from cognitive science It postulates a new attitude type transitional attitudes that we hold towards potential answers to the question at hand while we're deliberating Transitional attitudes possess their own rationality conditions that differ from the norms of rationality typically applied to conclusions of reasoning The resulting abstract framework reveals deep structural similarities among such varied intellectual pursuits as determining the significance of a historical artefact deciding on a person's guilt in court deliberating about a philosophical problem or searching for a mathematical proof It can help us make progress on difficult philosophical questions such as how we should respond to misleading higher order evidence how we should formally model logical learning and how confident we can rationally be in our own philosophical positions In this book Julia Staffel makes a novel contribution to the study of reasoning and rationality Most of the theorizing in these areas either studies the nature of simple inferences or the conditions under which we can reach justified conclusions *Unfinished Business*

examines how we should theorize about the attitudes we have towards possible answers to a question of interest while our reasoning is ongoing It focuses on complex reasoning processes that don't necessarily progress towards an answer in a linear way Based on both philosophical arguments and empirical research Staffel argues that there is a previously unrecognized attitude type transitional attitudes that play a key role in carrying out complex deliberations *The Possibility of Weakness of Will* Robert Dunn, 1987-01-01 The book reveals a rare blend of virtues a mastery of the literature a lucidity of mind a rigor of argument and a robust sense of psychological realism It soars yet rarely loses sight of the terrain Bela Szabados Canadian Philosophical Review *Free at Last* Jennifer Wolsing, 2005 **Love among the Ruins** Victoria Wohl, 2009-02-09 Classical Athenian literature often speaks of democratic politics in sexual terms Citizens are urged to become lovers of the polis and politicians claim to be lovers of the people Victoria Wohl argues that this was no dead metaphor Exploring the intersection between eros and politics in democratic Athens Wohl traces the private desires aroused by public ideology and the political consequences of citizens most intimate longings Love among the Ruins analyzes the civic fantasies that lay beneath but not necessarily parallel to Athens's political ideology It shows how desire can disrupt politics and provides a deeper at times disturbing insight into the democratic unconscious of ancient Athens The Athenians imagined the perfect citizen as a noble and manly lover But this icon conceals a multitude of other possible figures sexy tyrants potent pathics and seductive pervers Through critical re-readings of canonical texts Wohl investigates these fantasies which seem so antithetical to Athens's manifest ideals She examines the interrelation of patriotism and narcissism the trope of politics as prostitution the elite suspicion of political pleasure and the status of perversion within Athens's sexual and political norms She also discusses the morbid drive that propelled Athenian imperialism as well as democratic Athens's paradoxical fascination with the joys of tyranny Drawing on contemporary critical theory in original ways Wohl sketches the relationship between citizen psyche and political life to illuminate the complex frequently contradictory passions that structure democracy ancient and modern
