History Jose Rabasa,2010-06-27 On December 22 1997 forty five unarmed members of the indigenous organization Las Abejas The Bees were massacred during a prayer meeting in the village of Acteal Mexico The members of Las Abejas who are pacifists pledged their support to the Zapatista Army of National Liberation a primarily indigenous group that has declared war on the state of Mexico The massacre has been attributed to a paramilitary group composed of ordinary citizens acting on their own although eyewitnesses claim the attack was planned ahead of time and that the Mexican government was complicit In Without History Jose Rabasa contrasts indigenous accounts of the Acteal massacre and other events with state attempts to frame the past control subaltern populations and legitimize its own authority Rabasa offers new interpretations of the meaning of history from indigenous perspectives and develops the concept of a communal temporality that is not limited by time but rather exists within the individual community and culture as a living knowledge that links both past and present Due to a disconnection between indigenous and state accounts as well as the lack of archival materials many of which were destroyed by missionaries the indigenous remain outside of or without history according to most of Western discourse The continued practice of redefining native history perpetuates the subalternization of that history and maintains the specter of fabrication over reality Rabasa recalls the works of Marx Lenin and Gramsci as well as contemporary south Asian subalternists Ranajit Guha and Dipesh Chakrabarty among others He incorporates their conceptions of communality insurgency resistance to hegemonic governments and the creation of autonomous spaces as strategies employed by indigenous groups around the globe but goes further in defining these strategies as millennial and deeply rooted in Mesoamerican antiquity For Rabasa these methods and the continuum of ancient indigenous consciousness are evidenced in present day events such as the Zapatista insurrection

Construction of Maya Space Thomas H. Guderjan,Jennifer P. Mathews,2023-11-07 Construction of Maya Spaces sheds new light on how Maya society may have shaped and been shaped by the constructed environment Moving beyond the towering pyramids and temples often associated with Maya spaces this volume focuses on how those in power used features such as walls roads rails and symbolic boundaries to control those without power and how the powerless pushed back Through fifteen engaging chapters contributors examine the construction of spatial features by ancient historic and contemporary Maya elite and nonelite peoples to understand how they used spaces differently Through cutting edge methodologies and case studies chapters consider how and why Maya people connected and

divided the spaces they used daily in their homes in their public centers in their sacred places such as caves and across their regions to inform us about the mental constructs they used to create their lives and cultures of the past Contributors Elias Alcocer Puerto Alejandra Alonso Olvera Traci Ardren Jaime J Awe Alejandra Badillo S nchez Nicolas C Barth Grace Lloyd Bascop Adolpho Iv n Bat n Alpuche Elizabeth Beckner M Kathryn Brown Bernadette Cap Miguel Covarrubias Reyna Juan Fernandez Diaz Alberto G Flores Colin Thomas H Guderjan C Colleen Hanratty H ctor Hern ndez lvarez Scott R Hutson Joshua J Kwoka Whitney Lytle Aline Magnoni Jennifer P Mathews Stephanie J Miller Shawn G Morton Holley Moyes Shannon Plank Dominique Rissolo Patrick Rohrer Carmen Rojas Sandoval Justine M Shaw J Gregory Smith Travis W Stanton Karl A Taube Daniel Vallejo C liz
