Alabama And The Borderlands From Prehistory To Statehood:

Alabama and the Borderlands Reid Badger, Lawrence A. Clayton, 1985 Alabama and the Borderlands R. Reid Badger, Lawrence A. Clayton, 2003-04-24 Prehistory and early history of Alabama and the southeastern US Born of a concern with Alabama's past and the need to explore and explain that legacy this book brings together the nation's leading scholars on the prehistory and early history of Alabama and the southeastern US Covering topics ranging from the Mississippian Period in archaeology and the de Soto expedition and other early European explorations and settlements of Alabama to the 1780 Siege of Mobile this is a comprehensive and readable collection of scholarship on early Alabama CONTRIBUTORS Jeffrey P. Brain William S. Coker Chester B. DePratter James B. Griffin Charles Hudson Richard A. Krause Eugene Lyon Michale C. Scardaville Bruce D. Smith Marvin T. Smith Wilcomb Washburn Alabama and the Borderlands from Prehistory to Statehood University of Alabama. College of Arts and Sciences. Sesquicentennial Symposium, 1981 **Settling the Mississippi Territory** Mike Bunn, Clay Williams, 2025-03-04 The Territory That Built Two States The Mississippi Territory existed as a political entity for nearly two decades It stretched from the Tennessee border southward to the Gulf of Mexico and was bounded on the east by the state of Georgia and the west by the mighty Mississippi River This enormous swath of America's southwestern frontier in 1817 was divided into the state of Mississippi and the Alabama Territory Two years later Alabama entered the Union as a state Between 1798 and 1817 the territory transitioned from a sparsely inhabited backwoods frontier to a thriving and dynamic centerpiece in one of the fastest developing regions of the country Mike Bunn and Clay Williams chronicle that story in a richly illustrated introduction and guide to discovery of this pivotal era Expedition of Hernando de Soto West of the Mississippi, 1541-1543: Symposia (p) Gloria A. Young Michael P. Hoffman, 1993 **From Chicaza to Chickasaw** Robbie Franklyn Ethridge, 2010 From Chicaza to Chickasaw The European Invasion and the Transformation of the Mississippian World 1540-1715 **The Search for Mabila** Vernon J. Knight, 2009-04-26 The Search for Mabila describes one of the most profound events in sixteenth century North America which was a ferocious battle between the Spanish army of Hernando de Soto and a larger force of Indian warriors under the leadership of a feared chieftain named Tascalusa Jackson's Way John Buchanan, 2008-04-21 Praise for Jackson's Way A compelling account of Jackson's Indian fighting days as well a grand sweep of the conquest of the trans Appalachian West a more complex bloody and intrigue filled episode than is generally appreciated Mr Buchanan writes with style and insight This is history at its best The Wall Street Journal An excellent study of an area and a time period too long neglected by historians provides valuable new information particularly on the Indians Robert Remini author of Andrew Jackson and His Indian Wars John Buchanan has written a book that explodes with action and drama on virtually every page Yet the complex story of the birth of the American West never loses its focus Andrew Jackson's improbable rise to fame and power This is an American saga brilliantly told by a master of historical narrative Thomas Fleming author of Duel Alexander Hamilton Aaron Burr and the Future of America

From John Buchanan the highly acclaimed author of *The Road to Guilford Courthouse* comes a compulsively readable account that begins in 1780 amidst the maelstrom of revolution and continues throughout the three tumultuous decades that would decide the future course of this nation Jackson's Way artfully reconstructs the era and the region that made Andrew Jackson's reputation as Old Hickory a man who was so beloved that men voted for him fifteen years after his death Buchanan resurrects the remarkable man behind the legend bringing to life the thrilling details of frontier warfare and of Jackson's exploits as an Indian fighter and reassessing the vilification that has since been heaped on him because of his Indian policy Culminating with Jackson's defeat of the British at New Orleans the stunning victory that made him a national hero this gripping narrative shows us how a people's obsession with land and opportunity and their charismatic leader's quest for an empire produced what would become the United States of America that we know today

Mississippian Mortuary Practices Lynne P. Sullivan, Robert C. Mainfort, 2010-04-18 The residents of Mississippian towns principally located in the southeastern and midwestern United States from 900 to 1500 A.D. made many beautiful objects which included elaborate and well-crafted copper and shell ornaments pottery vessels and stonework Some of these objects were socially valued goods and often were placed in ritual context such as graves The funerary context of these artifacts has sparked considerable study and debate among archaeologists raising questions about the place in society of the individuals interred with such items as well as the nature of the societies in which these people lived By focusing on how mortuary practices serve as symbols of beliefs and values for the living the contributors to *Mississippian Mortuary Practices* explore how burial of the dead reflects and reinforces the cosmology of specific cultures the status of living participants in the burial ceremony ongoing kin relationships and other aspects of social organization

From Quarry to Cornfield Charles Cobb, 2000 *From Quarry to Cornfield* provides an innovative model for examining the technology of hoe production and its contribution to the agriculture of Mississippian communities Lithic specialist Charles Cobb examines the political economy in Mississippian communities through a case study of raw material procurement and hoe production and usage at the Mill Creek site on Dillow Ridge in southwest Illinois Cobb outlines the day-to-day activities in a Mississippian chiefdom village that flourished from about A.D. 1250 to 1500 In so doing he provides a fascinating window into the specialized tasks of a variety of day laborers whose contribution to the community rested on their production of stone hoes necessary in the task of feeding the village Overlooked in most previous studies the skills and creativity of the makers of the hoes used in village farming provide a basis for broader analysis of the technology of hoe use in Mississippian times Although Cobb's work focuses on Mill Creek his findings at this site are representative of the agricultural practices of Mississippian communities throughout the eastern United States The theoretical underpinnings of Cobb's study make a clear case for a reexamination of the accepted definition of chiefdom the mobilization of surplus labor and issues of power history and agency in Mississippian times In a well-crafted piece of writing Cobb distinguishes himself as one of the leaders in the study of lithic technology *From Quarry to Cornfield*

will find a well deserved place in the ongoing discussions of power and production in the Mississippian political economy

People and Plants in Ancient Eastern North America Paul E. Minnis, 2010-01-15 The environmental diversity of North America is astounding from the circumpolar tundra with few plants more than a few centimeters tall to the lush semitropical forests of the southeastern United States and Caribbean Basin No less remarkable is the record of plants usage by the various indigenous people who have been living there for more than twelve millennia For the vast majority of this time their livelihood food shelter fuel and medicine depended on their knowledge and use of the environment The most comprehensive overview in more than half a century about the interconnectedness of prehistoric Native Americans and their botanical world this book and its forthcoming companion volume **People and Plants in Ancient Western North America** present the latest information on three major topics the use of native plants the history of crops and their uses and how humans affected their environment In this volume expert scholars summarize the prehistoric ethnobotany of four regions the Eastern Woodlands W Cowan K Gremillion M Scarry B Smith and G Wagner Northeast G Crawford and D Smith Plains M Adair and Caribbean L Newsom and D Pearsall This volume contributes significantly to our understanding of the lives of prehistoric people as well as the forces that influenced their communities their ingenuity and their ecological impact It also serves as a guide for designing environmentally sustainable lives today

Mississippian Beginnings Gregory D. Wilson, 2019-09-16 Using fresh evidence and nontraditional ideas the contributing authors of **Mississippian Beginnings** reconsider the origins of the Mississippian culture of the North American Midwest and Southeast A D 1000 1600 Challenging the decades old opinion that this culture evolved similarly across isolated Woodland populations they discuss signs of migrations missionization pilgrimages violent conflicts long distance exchange and other far flung entanglements that now appear to have shaped the early Mississippian past Presenting recent fieldwork from a wide array of sites including Cahokia and the American Bottom archival studies and new investigations of legacy collections the contributors interpret results through contemporary perspectives that emphasize agency and historical contingency They track the various ways disparate cultures across a sizeable swath of the continent experienced Mississippianization and came to share similar architecture pottery subsistence strategies sociopolitical organization iconography and religion Together these essays provide the most comprehensive examination of early Mississippian culture in over thirty years A volume in the Florida Museum of Natural History Ripley P Bullen Series

Bioarchaeological Studies of Life in the Age of Agriculture Patricia M. Lambert, 2000-02-09 Investigations of skeletal remains from key archaeological sites reveal new data and offer insights on prehistoric life and health in the Southeast The shift from foraging to farming had important health consequences for prehistoric peoples but variations in health existed within communities that had made this transition This new collection draws on the rich bioarchaeological record of the Southeastern United States to explore variability in health and behavior within the age of agriculture It offers

new perspectives on human adaptation to various geographic and cultural landscapes across the entire Southeast from Texas to Virginia and presents new data from both classic and little known sites The contributors question the reliance on simple cause and effect relationships in human health and behavior by addressing such key bioarchaeological issues as disease history and epidemiology dietary composition and sufficiency workload stress patterns of violence mortuary practices and biological consequences of European contact They also advance our understanding of agriculture by showing that uses of maize were more varied than has been previously supposed Representing some of the best work being done today by physical anthropologists this volume provides new insights into human adaptation for both archaeologists and osteologists It attests to the heterogeneous character of Southeastern societies during the late prehistoric and early historic periods while effectively detailing the many factors that have shaped biocultural evolution

Ocmulgee Archaeology, 1936-1986
David J. Hally,2009-11-01 From 1933 to 1941 Macon was the site of the largest archaeological excavation ever undertaken in Georgia and one of the most significant archaeological projects to be initiated by the federal government during the depression The project was administered by the National Park Service and funded at times by such government programs as the Works Progress Administration Civilian Conservation Corps and Civil Works Administration At its peak in 1955 more than eight hundred laborers were employed in more than a dozen separate excavations of prehistoric mounds and villages The best known excavations were conducted at the Macon Plateau site the area President Franklin D Roosevelt proclaimed as the Ocmulgee National Monument in 1936 Although a wealth of material was recovered from the site in the 1930s little provision was made for analyzing and reporting it Consequently much information is still unpublished The sixteen essays in this volume were presented at a symposium to commemorate the fiftieth anniversary of the founding of the Ocmulgee National Monument The symposium provided archaeologists with an opportunity to update the work begun a half century before and to bring it into the larger context of southeastern history and general advances in archaeological research and methodology Among the topics discussed are platform mounds settlement patterns agronomic practices earth lodges human skeletal remains Macon Plateau culture origins relations of site inhabitants with other aboriginal societies and Europeans and the challenges of administering excavations and park development
