Atlantic Politics, Military Strategy and the French and Indian War Richard Hall,2016-06-28 1755 marked the point at which events in America ceased to be considered subsidiary affairs in the great international rivalry that existed between the colonial powers of Great Britain and France This book examines the Braddock Campaign of 1755 a segment of the wider Braddock Plan that aimed to drive the French from all of the contested regions they occupied in North America Rather than being an archetypal military history styled analysis of General Edward Braddock's foray into the Ohio Valley this work will argue that British defeat at the infamous Battle of the Monongahela should be viewed as one that ultimately embodied military political and diplomatic divergences and weaknesses within the British Atlantic World of the eighteenth century These factors in turn hinted at growing schisms in the empire that would lead to the breakup of British North America in the 1770s and the birth of the future United States Such an interpretation moves away from the conclusion so often advanced that Braddock's Defeat was a distinctly and principally British martial catastrophe hence allowing the outcome of this pivotal event in American history to be understood in a different vein than has hitherto been apparent **Official Gazette of the United States Patent and Trademark Office** ,2005 Transitions Abroad ,2007 *The Oxford Handbook of Humanism*

French Political Travel Writing in the Interwar Years Martyn Cornick, Martin Hurcombe, Angela Kershaw, 2017-02-10 This book studies travel writing produced by French authors between the two World Wars following visits to authoritarian regimes in Europe and the Union of Soviet Socialist Republics USSR It sheds new light on the phenomenon of French political travel in this period by considering the well documented appeal of Soviet communism for French intellectuals alongside their interest in other radical regimes which have been much less studied fascist Italy the Iberian dictatorships and Nazi Germany Through analyses of the travel writing produced as a result of such visits the book gauges the appeal of these forms of authoritarianism for inter war French intellectuals from a broad political spectrum It examines not only those whose political sympathies with the extreme right or extreme left were already publicly known but also non aligned intellectuals who were interested in political models that offered an apparently radical alternative to the French Third Republic This study shows how travel writing provided a space for reflection on the lessons France might learn from the radical political experiments of the inter war years It argues that such writing can usefully be read as a form of utopian thinking distinguishing this from colloquial understandings of utopia as an ideal location Utopianism is understood neither as a fantasy ungrounded in the real nor as a dangerously totalitarian ideal but in line with Karl Mannheim Paul Ric ur and Ruth Levitas as a form of non congruence with the real that it seeks to transcend The utopianism of French political travel writing is seen to lie not in the attempt to portray the destination visited as utopia but rather in the pursuit of a dialogue with radical political alterity
