Alaska Series 6 Madeline Solomon A Biography Koyukuk:

Caribou Herds of Northwest Alaska, 1850-2000 Ernest S. Burch Jr., 2012-09-15 In his final major publication Ernest S. Burch Jr. reconstructs the distribution of caribou herds in northwest Alaska using data and information from research conducted over the past several decades as well as sources that predate western science by more than one hundred years. Additionally, he explores human and natural factors that contributed to the demise and recovery of caribou and reindeer populations during this time. Burch provides an exhaustive list of published and unpublished literature and interviews that will intrigue laymen and experts alike. The unflinching assessment of the roles that humans and wolves played in the dynamics of caribou and reindeer herds will undoubtedly strike a nerve. Supplemental essays before and after the unfinished work add context about the author, the project of the book, and the importance of both.

Travels Among the Dena Frederica de Laguna, 2011-10-01 This robust and engaging travel narrative re-creates a remarkable adventure in the summer of 1935 when Frederica de Laguna, then in her late 20s, led a party of three other scientists down the rivers of the middle and lower Yukon valley, making a geological and archaeological reconnaissance. De Laguna has based her story on her field notes, journals, and letters home. She augments this first-hand account with excerpts from the reports of earlier explorers and data published after her trip. The result is a fascinating and informative cross-cut of historical events along the Yukon River and its tributaries. Travels Among the Dena chronicles the expedition from its outfitting in Seattle and the trip by steamer and railway to Fairbanks and Nenana through an 80-day journey on skiffs down the Tanana and Yukon rivers to Holy Cross near the coast, with side trips on the Koyukuk Khotol and Innoko rivers before a one-day return flight to Fairbanks with pioneer bush pilot Noel Wien. Maps illustrate the route taken downriver, and the author's photographs capture images of the time. The resulting volume is both a delightful addition to the literature of travel adventure in Alaska and an important contribution to the discipline of anthropology.

Alliance and Conflict Ernest S. Burch, 2005-01-01 *Alliance and Conflict* combines a richly descriptive study of intersocietal relations in early nineteenth-century Northwest Alaska with a bold theoretical treatise on the structure of the world system as it might have been in ancient times. Ernest S. Burch Jr. illuminates one aspect of the traditional lives of the Iñupiaq Eskimos in unparalleled detail and depth. Basing his account on observations made by early Western explorers, interviews with Native historians, and archeological research, Burch describes the social boundaries and geographic borders formerly existing in Northwest Alaska and the various kinds of transactions that took place across them. These ranged from violence of the most brutal sort at one extreme to relations of peace and friendship at the other. Burch argues that the international system he describes approximated in many respects the type of system existing all over the world before the development of agriculture. Based on that assumption, he presents a series of hypotheses about what the world system may have been like when it consisted entirely of hunter-gatherer societies and about how it became more centralized with the evolution of chiefdoms. Accounts of specific people, places, and events add an

immediate experiential dimension to the work complementing its theoretical apparatus and sweeping narrative scope Provocative and comprehensive Alliance and Conflict is a definitive look at the greater world of Native peoples of Northwest Alaska Canadian Books in Print ,1995 *Finding the Feather* David J.
