

The tale indeed of Albania's struggle for education and development is one of the most remarkable in the history of education, and deserves more detailed telling than we have space for here. The Turkish Government learnt by bitter experience that the result of permitting national schools to the Greeks, Bulgars, and Serbs was that they became centres of political propaganda, which was supported by money and teachers supplied by various Great Powers. And Greek, Bulgar, and Serb insurrections and independence followed. The Sultan resolved that no such thing should happen in the case of Albania. The Albanian tongue was prohibited; the printing of it and the teaching of it were made punishable by heavy terms of imprisonment. If an Albanian child was to learn to read, he or she must first learn a foreign tongue, and in that case the child was classed as belonging to the nationality of the school selected. This fact I found caused intense bitterness.

"When I was a little boy," said a Moslem Albanian, "I was sent to school at Constantinople. They said that I was a Turk; I said that I was an Albanian. I would not say that I was a Turk. Then they turned on me, and called me a dog. I have hated them ever since." "I hate, hate, hate the Greeks," said a Koritza woman. "When I was a child the Government would not permit any Albanian school. My parents wanted me to learn, so I had to go to the Greek one. There were Greek teachers. They used every day to tell me and my little friends that we were Greek. It was a lie. We did not know one word until we went to school. They used to tell us that Christ was Greek, and that it was useless for us to pray in Albanian because He did not understand it. Now they pretend that we are Greek! I will never again defile my tongue with their dirty language. Nor shall my children learn it. I hate, hate, hate it."

Similarly, children attending Slav schools are denationalised, if possible. I had formed on previous journeys a very favourable opinion of certain Montenegrins, and afterwards found that they were not Slavs at all, but

The British and the Balkans Eugene Michail,2011-08-18 **Albania** Andreas Hemming,Gentiana Kera,Enriketa Pandelejmoni,2012 This collection of papers on contemporary issues in Albanian history and anthropology covers a broad range of approaches and forms of analysis The book includes research on parts of the country that have rarely made an appearance in international scholarship including recent research on various aspects of urban life in Albania with several chapters being set in Shkodra Tirana Elbasan and Gjirokastra Issues of local self organization or identity processes are presented as well A third core aspect that is addressed is the continued analysis of new and revealing demographic sources

that shed light on the structure and history of the Albanian family Series Studies on South East Europe Vol 9 *The Balkan Wars from Contemporary Perception to Historic Memory* Katrin Boeckh, Sabine Rutar, 2017-01-10 This book explores the historical role of the Balkan Wars In Eastern Europe the two Balkan Wars of 1912-13 had greater importance than the First World War for the construction of nations and states This volume shows how these short wars profoundly changed the sociopolitical situation in the Balkans with consequences that are still felt today More than one hundred years later the successors of the belligerent states in Southeastern Europe memorialize the wars as heroic highlights of their respective pasts Furthermore the metaphor that the Balkans were Europe's powder keg perpetuated at the beginning of the twentieth century in the face of these wars was reactivated in both the West and the East up through the Yugoslav wars of the 1990s The authors entangle the hitherto exclusive national master narratives and analyse them cogently and trenchantly for an international readership They make an indispensable contribution to the proper integration of the Balkan Wars into the European historical memory of twentieth century warfare

Popular Sufism in Eastern Europe H T Norris, 2007-01-24 This is a detailed description of the various Sufi orders and movements which entered into the Balkans the Crimean peninsula and other parts of Eastern Europe following the Ottoman conquests Many of the Sufis came from Christian societies principally from an Eastern Orthodox background but others such as the Bosnians from churches that were accused or suspected of heterodoxy of belief and of antinomianism These beliefs together with pre-Christian beliefs influenced by Manicheism Dualism and pantheism left their mark on Sufi Islam The book concentrates on the Bosnians Bulgarians Albanians and Tatars Their Sufism reflects their national aspirations and their writings fuse their mysticism national faith and folklore in a Sufism which is quite distinct from that in other regions of the Muslim world

The Politics of Nation-Building Harris Mylonas, 2013-02-18 What drives a state's choice to assimilate accommodate or exclude ethnic groups within its territory In this innovative work on the international politics of nation building Harris Mylonas argues that a state's nation building policies toward non-core groups individuals perceived as an ethnic group by the ruling elite of a state are influenced by both its foreign policy goals and its relations with the external patrons of these groups Through a detailed study of the Balkans Mylonas shows that how a state treats a non-core group within its own borders is determined largely by whether the state's foreign policy is revisionist or cleaves to the international status quo and whether it is allied or in rivalry with that group's external patrons Mylonas injects international politics into the study of nation building building a bridge between international relations and the comparative politics of ethnicity and nationalism

The Balkans Mark Biondich, 2011-02-17 Examines the origins of political violence in the Balkans since the 19th century while treating the region as an integral part of modern European history reminding us that political violence and ethnic cleansing are hardly unique to this region

Ismail Kadare Peter Morgan, 2017-07-05 Ismail Kadare has experienced a life of controversy In his own country and internationally he has been both acclaimed as a writer and condemned as a lackey of the Albanian socialist dictatorship

Coming of age after occupation and war Kadare b 1936 belonged to the first generation of new Albanians In a land where writers were routinely imprisoned Kadare produced the most brilliant and subversive works to emerge from socialist Eastern Europe His work brings to an end the century whose literary beginnings were marked by the terror to which Kafka gave his name The inaugural award of the International Man Booker Prize for Literature in 2005 marked an important milestone in the global recognition of Kadare Ironical multi layered and imaginative Kadare s writing is profoundly opposed to ideology Through critical analysis of a representative selection of Kadare s works Peter Morgan explains for a wide audience how Kadare survived and wrote in the repressive Albanian Stalinist environment Peter Morgan is Professor of European Studies at the University of Western Australia *The Balkans and the West* Andrew Hammond, 2017-03-02 This collection of essays locates investigates and challenges the manner in which the Balkans and the West have constructed each other since 1945 Scholars from the two sections of the continent explore a wide range of fiction film journalism travel writing and diplomatic records both to analyse Western European balkanism and to study Balkan representations of the West over the last fifty years The first section looks back to the Cold War examining the divergent often favourable images of the Balkans that existed in Western culture as well as the variety of responses that appeared in South East European writings on the West The second section analyses the transitions that took place in representation during the 1990s Here contributors explore both the harsh denigration of the Balkans which came to dominate western discourse after the initial euphoria of 1989 and the emerging tradition of contesting Western balkanism in South East European cultural production Through this dual emphasis the volume exposes the representational practices that help to maintain a deeply divided Europe and challenges the economic and political injustices that result Despite the rise to prominence of postcolonial theory with its awareness of global inequality the current crises in many parts of South East Europe have received scant attention in literary and cultural studies The Balkans and the West addresses this deficiency Ranging in focus from Serbian cinema to Romanian travel literature from Western economic writings to Yugoslav fiction and from public discourse in Albania to NATO s vast propaganda machine the essays offer wide insight into representation and power in the contemporary European context *Historical Dictionary of Kosova* Robert Elsie, 2004 Kosova or Kosovo is a dependent region of Serbia part of the former country of Yugoslavia It was part of the province of Dalmatia in the Austro Hungarian Empire before 1919 *Britain, the Albanian National Question and the Fall of the Ottoman Empire, 1876-1914* Daut Dauti, 2023-09-21 All too often Albania has been considered a relatively minor player in late 19th and early 20th century history By contrast this book highlights the significance of this nation and the Albanian question at this time through a detailed analysis of the relationship between Albania Britain and the Ottoman Empire from 1876 to 1914 Making use of a wide range of archival source materials some of which are published here in English for the first time this book explores British foreign policy towards the development of the Albanian national movement and parallel demise of the Ottoman Empire In doing so it illuminates the objectives of the British government as

well as shining a spotlight on the public opinion of both the British people towards Albanian nationalism and on the reaction of the Albanians towards the British diplomatic position By looking through such a unique lens here Daut Dauti is able to provide fresh insight into why the Albanians were not supported by the Great Powers in their national quest in the way that other Balkan countries were and draws significant new conclusions on British Balkan and Ottoman relations As such this nuanced study is vital reading for all scholars interested in modern Albanian history turn of the century British international relations and the fall of the Ottoman Empire more broadly

Gothic Peregrinations Agnieszka Lowczanin, Katarzyna Malecka, 2018-07-06 For over two hundred years the Gothic has remained fixed in the European and American imaginations steadily securing its position as a global cultural mode in recent decades The globalization of Gothic studies has resulted in the proliferation of new critical concepts and a growing academic interest in the genre Yet despite its longevity unprecedented expansion and accusations of prescriptiveness the Gothic remains elusive and without a straightforward definition Gothic Peregrinations The Unexplored and Re explored Territories looks at Gothic productions largely marginalized in the studies of the genre including the European absorption of and response to the Gothic This collection of essays identifies landmarks and ley lines in the insufficiently probed territories of Gothic scholarship and sets out to explore its unmapped regions This volume not only examines Gothic peregrinations from a geographical perspective but also investigates how the genre has been at odds with strict demarcation of generic boundaries Analyzing texts which come from outside the Gothic canon yet prove to be deeply indebted to it like bereavement memoirs stories produced by and about factory girls of Massachusetts and the Mattel Monster High franchise this volume illuminates the previously unexplored fields in Gothic studies The chapters in this volume reveal the truly transnational expansion of the Gothic and the importance of exchange exchange now seen not only as crucial to the genre's gestation or vital to the processes of globalization but also to legitimizing Gothic studies in the global world

The road Dimitris Dalakoglou, 2017-02-28 This book is an ethnographic and historical study of the main Albania Greece highway But more than an ethnography on the road it is an anthropology of the road Highways are part of an explicit cultural material nexus that includes houses urban architecture and vehicles Complex socio political phenomena such as EU border security nationalist politics post Cold War capitalism and financial crises all leave their mark in the concrete This book explores anew classical anthropological and sociological categories of analysis in direct reference to infrastructure providing unique insights into the political and cultural processes that took place across Europe after the Cold War More specifically it sheds light on political and economic relationships in the Balkans during the socialist post Cold War period focusing especially on Albania one of the most under researched countries in the region

Ottomans, Turks and the Balkans Ebru Boyar, 2007-06-29 The loss of the Balkans was not merely a physical but also a psychological disaster for the Ottoman Empire In this frank assessment Ebru Boyar charts the creation of modern Turkish self perception during the transition period from the late Ottoman Empire to the Turkish Republic The Balkans

played a key role in identity construction during this period humiliated by defeat the Ottomans were stung by what they saw as a betrayal and ingratitude of the peoples of the region to whom they had brought peace and order for centuries and whom they had defended at the cost of much Turkish blood It induced a sense of isolation and encapsulated the destruction of the Ottoman Empire s military machine and sense of self esteem by the Great Powers This victim mentality was sustained by late Ottoman history writing and by the historians of the early Republic for whom history was an essential tool in the creation of the new Turkish national identity for the new Turkish Republic of the 20th century Kosovo Tim Judah,2008-09-29 On February 17 2008 Kosovo declared its independence becoming the seventh state to emerge from the break up of the former Yugoslavia A tiny country of just two million people 90% of whom are ethnic Albanians Kosovo is central geographically historically and politically to the future of the Western Balkans and in turn its potential future within the European Union But the fate of both Kosovo condemned by Serbian leaders as a fake state and the region as a whole remains uncertain In Kosovo What Everyone Needs to Know Tim Judah provides a straight forward guide to the complicated place that is Kosovo Judah who has spent years covering the region offers succinct penetrating answers to a wide range of questions Why is Kosovo important Who are the Albanians Who are the Serbs Why is Kosovo so important to Serbs What role does Kosovo play in the region and in the world Judah reveals how things stand now and presents the history and geopolitical dynamics that have led to it The most important of these is the question of the right to self determination invoked by the Kosovo Albanians as opposed to right of territorial integrity invoked by the Serbs For many Serbs Kosovo s declaration of independence and subsequent recognition has been traumatic a savage blow to national pride Albanians on the other hand believe their independence rights an historical wrong the Serbian conquest Serbs say liberation of Kosovo in 1912 For anyone wishing to understand both the history and possible future of Kosovo at this pivotal moment in its history this book offers a wealth of insight and information in a uniquely accessible format What Everyone Needs to Know is a registered trademark of Oxford University Press *Nobody's Kingdom* T.J. Winnifrith,2021-05-05 The Roman Byzantine and Ottoman Empires foreign invasion communism and tribal conflict these have been the realities of life in Northern Albania for centuries In this rich and comprehensive history Tom Winnifrith examines the many different elements that have shaped this independent and little known region of the Balkans He explores the fundamental division between the South of Albania and its mysterious romantic North more feudal more tribal more Catholic and more prone to Austrian and Italian influence It is also a region less affected by Greece both ancient and modern and by medieval Byzantium or the Orthodox faith Northern Albania with a terrain and climate much harsher than the south of the country has traditionally had little respect for law and authority while its inhabitants remain in thrall to an ancient honour code the kanun demanding blood feuds and terrible revenge *Nobody's Kingdom* traces the history of this ruggedly beautiful region frequently disturbed by both invaders and internal strife yet retaining a distinct national identity and character From its origins in the ancient kingdom of Illyria and the Roman province

of Illyricum through Byzantine and Ottoman rule the granting of Albanian independence in 1912 the rise and fall of communism to its current fragile democracy Northern Albania can be seen as a cultural crossroads especially remarkable given its mountainous and difficult landscape This book both scholarly and readable is the first modern comprehensive history of Northern Albania and is a timely and accessible introduction to a remote and inaccessible region History's People Margaret MacMillan,2016-02-18 What difference do individuals make to history Are we all swept up in the great forces like industrialisation or globalisation or is the world we inhabit shaped just as much by real people leaders for example and the decisions that they make For better or for worse the personalities of the powerful can affect millions of people and the future of countries it matters who is in the driving seat and who is making plans Equally important how is history itself made by those who keep the records In History's People Margaret Macmillan explores the lives of the great and lesser known figures of the past men women explorers rulers dreamers politicians observers campaigners She looks at the concept of leadership from Bismarck to Franklin Delano Roosevelt but also at the role of observers such as Babur first Mughal emperor of India and asks how explorers and visionaries such as Fanny Parkes and Elizabeth Simcoe managed to defy or ignore the constraints of their own societies And in doing so she uncovers the important and complex relationship between biography and history and between individuals and their times Like all the best history this book will change the way you see the past as well as your own times and perhaps introduce you to some people you didn't know **War, Journalism and the Shaping of the Twentieth Century** Angela V. John,2023-02-23 Called the king of Correspondents Henry W Nevins 1856 1941 captured the political zeitgeist in his newspaper journalism and books about conflicts across the globe He provided astute first hand observations on events such as war between Greece and Turkey the Siege of Ladysmith in South Africa the aftermath of the 1905 Russian Revolution and the Gallipoli tragedy in the First World War his copy obtained in perilous situations He bravely exposed the persistence of slavery in Angola unrest in India and conflict in Ireland his vivid and exquisite prose shocking and enlightening British readers He cultivated controversy with his brave stance on issues like women's suffrage and the self determination of small nations such as Georgia His first wife Margaret Wynne Nevins was a suffragette and writer their son the celebrated artist C R W Nevins In the 1920s Henry Nevins accompanied Ramsay MacDonald on the first visit of a British Prime Minister to an American President His perspectives whether on the Middle East the Balkans Russia or the United States illuminate many of the conflicts which resonate in today's uncertain world
