**The Balkans in Travel Writing** Marija Knežević, 2015-09-18 This book revisits images of the Balkans in twentieth century travel writing that vividly mirrors the turbulent changes that the region went through As such it provides a vital basis for research into the variety of possibilities or obstacles present on the region's path to accession when its unique heritage will have to be reconciled with a more European identity This volume explores the work of well known authors such as Rebecca West Paul Theroux Robert D Kaplan and also contributes to travel writing theory by addressing less known travellers who recorded their thoughts on the social dynamics of the region The corpus offers divergent and often contradictory views ranging from moral and political criticism to a delight in the rich heritage and the still undiscovered Balkan paths More importantly its generic potentials prove to overcome both the discourse of power and the discourse of apology Its narrative style also comprises striking variations from the objective and well researched approaches to quick impressionist sketches Being a multi generic form travel writing is observed from a multidisciplinary perspective encompassing fields such as literature linguistics history sociology anthropology ethnology political sciences and geography

**Smallholders and family farms in Albania - Country study report 2019** Food and Agriculture Organization of the United Nations ,2020-06-01 The background for conducting country studies on the challenges needs and constraints of smallholders and family farms in seven countries has been a wish to further strengthen the Regional Initiative and develop the initiative towards a stronger programmatic approach at both the regional and country levels To provide support to smallholders and family farms there has been a need to develop a better understanding and knowledge platform of the main challenges needs and constraints of smallholders and family farms in the specific country context Even though many of the challenges are the same throughout the region there are still significant variations among the countries it is important to recognize and understand these variations when designing support to smallholders and family farms in each specific country It has been the objectives of the country studies first to analyze the development trend and current state of smallholders and family farms in the specific country second to study the current political priorities and policies affecting smallholders and family farms and finally based on the conclusions made to provide recommendations mainly at the policy level on how to further support the development of commercial family farms and at the same time ensure in general inclusive growth improved rural livelihood for women and men and the reduction of rural poverty for all It is hoped that each country study will not only be relevant for FAO but also for governments donors and other international organizations when formulating policy and preparing programmes Albania and Europe in a Political Regard Klodiana Beshku,Orinda Malltezi,2013-09-11 Albania and Europe in a Political Regard is a multidisciplinary work which aims to develop different points of view in the field of social sciences In this sense it is not by chance that the chapters cover a variety of different disciplines like history sociology political science and philosophy These chapters stand alone and at the same time create a whole network of relationships between Albania and Europe An important element of this work is its multidimensional considerations of Europe it is conceptualised on a number of different levels throughout the chapters sometimes as a continent sometimes as an organization and other times as a leader In some chapters Europe is understood in terms of European integration or European civilization In others Europe is simply the idea

of the continent and its reflections in the Albanian society The main axis that drives the chapters is the idea of Albania in relation to Europe how this relationship is understood how it has worked in the past and how it works today The idea of Europe in this book is conceptualised and explored in a number of different ways from the idea of European modernity to a soft power from a construction of identity to a model of behaviour according to each author s varied point of view and discipline of studies All the nine chapters in this volume utilise different ways of thinking and approaches but are all connected by a common axis that is Albania and Europe in a Political Regard
